MOTION - Place LB 719 on General File

Mr. Wehrbein moved to place LB 719 on General File pursuant to Rule 3, Section 19.

Laid over.

SPEAKER'S ANNOUNCEMENT

In accordance with Rule 6-3(h), I have decided that it is proper for LB 371 to be referred back to the Judiciary Committee for further action. This letter is to notify you of my Order that such action be taken, and request that you announce my intentions to the entire legislative body with regard to this Order at the earliest possible opportunity.

Rule 6-3(h) states in pertinent part:

> (h) If, in the opinion of the Speaker, the bill is in such form that it should properly be referred back to committee for further action, he or she may by order direct the same;

As of May 2, 1995, nine amendments have been filed to LB 371 and five amendments have been filed to the Committee amendments to LB 371, for a total of 14 amendments. Many of these amendments propose highly controversial and substantial changes in public policy regarding Nebraska's Criminal Code. It is my opinion that there are enough new issues presented in these amendments that the Judiciary Committee should have an opportunity to examine their content and potential policy and fiscal impact before the bill is debated by the entire legislative body.

It is my intent to allow the Judiciary Committee the time it requires to deliberate on the proposed amendments and prepare recommendations for the entire Legislature's consideration. However, this Order will in no way impact upon this bill's priority status or any other scheduling alternatives which are within my prerogative as Speaker to pursue.

ATTORNEY GENERAL'S OPINION

Opinion No. 95035

DATE: May 3, 1995

SUBJECT: Liability of Local Foster Care Review Board Members Regarding Placements.

REQUESTED BY: Senator Michael T. Avery
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
John R. Thompson,
Senior Assistant Attorney General

Dear Senator Avery:

In your April 27, 1995 letter you enclosed two prior opinion letters written to Ms. Carol Stitt, Executive Director, State Foster Care Review Board, one dated September 24, 1984 and the other dated April 23, 1986. You have asked that we review those two prior Opinions and advise you whether they need to be changed at this time since you have pending as your priority bill LB 642 which transfers some review functions from the Department of Social Services to the Foster Care Review Board.

We understand from reviewing the bill, the Committee statement, and the fiscal statement, that under LB 642 either the State Foster Care Review Board or one of the local foster care review boards established and appointed by the State Board will be conducting reviews now conducted by the Department of Social Services. We understand that in the process the State Foster Care Review Board will establish 26 new local boards.

We have reviewed both of the above Opinions and submit that they accurately reflect our current opinion with respect to the questions raised in those Opinions.

While the liability principles will remain the same, there may be additional liability exposure for the State since 26 new local foster care review boards will be established under LB 642. The additional exposure may depend in part on the nature and extent of the supervision of the local boards and their activities by the State Foster Care Review Board.

Please let us know if you need anything further.

Very truly yours,
Don Stenberg
Attorney General
(Signed) John R. Thompson
Senior Assistant Attorney General

AM2061

1. Strike original sections 24 to 27 and insert the following new sections:

"Sec. 12. Section 29-2257, Reissue Revised Statutes of Nebraska, is amended to read:

29-2257. The Nebraska Probation System is established which shall consist of the probation administrator, chief probation officers, probation officers, and support staff. The system shall be responsible for presentence and other probation investigations and for the direct supervision of persons placed on probation. The system shall be sufficient in size to assure that no probation officer carries a caseload larger than is compatible with adequate probation investigation or supervision. Probation officers shall be compensated with salaries substantially equal to other state employees who have similar responsibilities.

This provision for salary equalization shall apply only to probation officers and support staff and shall not apply to chief probation officers, the probation administrator, the chief deputy administrator, the deputy probation administrator, or any other similarly established management positions. The probation administrator shall report to the Judiciary Committee of the Legislature no later than December 1, 1995, detailing the actions taken under this section, including a breakdown on the distribution of salary equalization money appropriated by the Ninety-fourth Legislature, First Session.

Sec. 25. The Department of Correctional Services shall develop and implement a boot camp to commence July 1, 1997, for adult criminal offenders. It is the intent of the Legislature that the boot camp serve to reduce prison overcrowding and to make prison bed space available for violent offenders. It is the further intent of the Legislature that the boot camp serve the interests of society by promoting the rehabilitation of offenders and by deterring offenders from engaging in further criminal activity. To accomplish these goals, the boot camp shall provide structured programming, including any of the following: Work programs, vocational training, behavior management and modification, money management, substance abuse awareness, counseling, or treatment, or other education and programming needs, which will increase the offender's abilities to lead a law-abiding, productive, and fulfilling life as a contributing member of a free society.

Sec. 26. (1) It is the intent of the Legislature that the court target the felony offender (a) who is experiencing his or her first prison sentence, (b) for whom the court finds that other forms of probation are not suitable, and (c) who, without the existence of a boot camp, would have gone to prison. It is the further intent of the Legislature that prior incarcerants for minor nonviolent offenses are not automatically ineligible to be sentenced to boot camp. It is also the intent of the Legislature that the offender convicted of a violent crime is not eligible to be sentenced to boot camp.

(2) When the court is of the opinion that imprisonment may be appropriate but that a brief and intensive period of incarceration may better serve the interests of society, the court may sentence an offender to a boot camp, which shall be a form of probation. The court may consider such commitment if the offender (a) is a male or female offender who is convicted as an adult, (b) has a maximum sentence of ten years or less, (c) is determined to be medically and mentally fit to participate, with allowances given for reasonable accommodation, (d) has not previously been incarcerated for a violent felony crime, and (e) has not demonstrated chronic violent behavior. Offenders convicted of a crime under sections 28-319 to 28-321 or of any capital crime are precluded from being sentenced to boot camp.

Sec. 27. Upon successful completion of the boot camp program, as determined by the Department of Correctional Services, the sentencing court may place the offender on an appropriate form of probation or discharge the offender.

Sec. 28. If the offender for any reason fails to successfully complete the boot camp program, the sentencing court may impose any other sentence that the court may have originally imposed. Credit shall be given for time actually served in the boot camp program.

Sec. 29. (1) Structured programming shall be planned for all adult persons committed to the department. The structured programming shall include any of the following: Work programs, vocational training, behavior management and modification, money management, and substance abuse awareness, counseling, or treatment. Programs and treatment services shall address:

"Section 1. Section 24-810, Revised Statutes Supplement, 1994, is amended to read:

24-810. (1) Prior to the time for the first meeting of the judicial nominating commission prescribed in subsection (5) of this section, the Supreme Court shall, after consultations with attorneys of the district as it deems appropriate, determine and announce to the judicial nominating commission the county where the primary office for the appointed judge shall be located. In designating a primary office, the Supreme Court shall locate judges so as to provide maximum service to all areas of the judicial district. If more than one county is acceptable as a primary office, the Supreme Court may so state and may leave the final choice of the location of the primary office to the appointed judge. The State Court Administrator, with advice from the district and county judges associations, shall develop a uniform and accurate system of measuring judicial workloads which shall be the principal criterion used by the Supreme Court when designating a primary office.

(2) In the event of the death, retirement, resignation, or removal of any district or county judge, the failure of a district or county judge to be retained in office, or a need for a change in boundaries or the number of district or county court judicial districts or in the number of district or county judgeships authorized by law, the Judicial Resources Commission, after holding a public hearing in the affected district or districts, shall determine:

(a) Whether a judicial vacancy exists and the location of that vacancy;

(b) Whether the judicial district boundaries or the number of districts should be changed for county or district courts;

(c) Whether the number of district or county judges should be increased, decreased, or remain the same; or

(d) Any combination of subdivisions (a), (b), and (c) of this subsection.

The commission's determination shall be based upon the analysis of caseloads weighted by category, adequate access to the courts by litigants, population, other judicial duties, travel time, and other factors determined by the commission to be necessary to assure efficiency and service. After making a determination, the commission shall make a recommendation to the Legislature. ~~If~~ Until August 1, 1996, if no changes in existing law are recommended by the commission, no legislative action shall be necessary to fill any vacancy resulting from the death, retirement, resignation, or removal of a judge. Notwithstanding any action or recommendation of the Judicial Resources Commission, no judicial vacancy in any district court judicial district shall be filled without legislative approval on and after August 1, 1996.

(3) The Judicial Resources Commission shall adopt and promulgate rules and regulations on the procedures to be followed in making the determinations pursuant to subsection (2) of this section. The State Court Administrator shall provide adequate administrative support and information as is requested by the commission.

(4) For purposes of subsection (5) of this section, the date of a final determination shall be (a) the date the Governor approves legislation or the Legislature overrides a veto of legislation creating or moving a judicial vacancy, (b) ten days after the date of adjournment sine die by the Legislature in cases of a recommendation on which action is required but no action is taken by the Legislature in its regular legislative session commenced following the recommendation, (c) the date of a designation of a principal office location by the Supreme Court, or (d) the date of the determination by the commission that there be no change.

(5) When a final determination of the location of a district or county court judicial vacancy has been made or in the event of a judicial vacancy in any other court, the Clerk of the Supreme Court shall contact the chairperson of the judicial nominating commission relating to such vacancy and shall ascertain from him or her a time and place for the first meeting of such judicial nominating commission, at which time a public hearing will be held. He or she shall thereupon notify each commission member in writing of the time and place of the meeting and shall also cause appropriate notice to be published by various news media of the time and place of the public hearing of the judicial nominating commission and of the interest of the commission in receiving information relating to qualified candidates for the judicial vacancy. Any lawyer meeting the statutory requirements to serve as a judge who is interested in being nominated and appointed to such judgeship shall signify his or her interest by filing the appropriate application with the proper entity at least twenty-one

days prior to the public hearing. At least ten days prior to the public hearing, the chairperson shall release to the public the names of all lawyers who have applied for such judgeship. Any member of the public shall be entitled to attend the public hearing to express, either orally or in writing, his or her views concerning candidates for the judicial vacancy.

(6) After the public hearing, the judicial nominating commission shall hold such additional private or confidential meetings as it determines to be necessary. Additional information may be submitted in writing to the commission at any time prior to its selection of qualified candidates to fill the vacancy. The commission shall make such independent investigation and inquiry as it considers necessary or expedient to determine the qualifications of candidates for the judicial vacancy and shall take such action as it deems necessary or expedient to encourage qualified candidates to accept judicial office or nomination for judicial office.

(7) The judicial nominating commission may, before or after the hearing provided for in subsection (5) of this section, institute a search for additional candidates. If additional candidates are obtained, the commission shall hold further public hearings in the same manner as provided in such subsection.

(8) The names of candidates shall be submitted to the Governor within ninety days after the date a final determination has been made pursuant to subsection (4) of this section of the location of a district or county court judicial vacancy or, in the event of a judicial vacancy in any other court, after a judicial vacancy occurred if one public hearing is held and within one hundred twenty days if more than one public hearing is held.

AM2119

1. Insert the following sections:

"Section 1. Section 24-803, Revised Statutes Supplement, 1994, is amended to read:

24-803. (1) As the term of a member of a judicial nominating commission initially appointed or selected expires, the term of office of each successor member shall be for a period of four years. The Governor shall appoint all successor members of each nominating commission who are judges of the Supreme Court and citizen members. The lawyers residing in the judicial district or area of the state served by a judicial nominating commission shall select all successor and alternate members of such commission in the manner prescribed in section 24-806. The term of office of an alternate member of a commission shall be for a period of two years. No member of any nominating commission, including the Supreme Court member of any such commission, shall serve more than a total of eight consecutive years as a member of the commission, and if such member has served for more than six years as a member of the commission, he or she shall not be eligible for reelection or reappointment.

(2) For purposes of this section and Article V, section 21, of the Constitution of Nebraska, a member of a judicial nominating commission shall be deemed to have served on such commission if he or she was a member of the commission at the time of the publication of the notice required by subsection ~~(5)~~ (6) of section 24-810.

Sec. 2. Section 24-810, Revised Statutes Supplement, 1994, is amended to read:

24-810. (1) Prior to the time for the first meeting of the judicial nominating commission prescribed in subsection (5) of this section, the Supreme Court shall, after consultations with attorneys of the district as it deems appropriate, determine and announce to the judicial nominating commission the county where the primary office for the appointed judge shall be located. In designating a primary office, the Supreme Court shall locate judges so as to provide maximum service to all areas of the judicial district. If more than one county is acceptable as a primary office, the Supreme Court may so state and may leave the final choice of the location of the primary office to the appointed judge. The State Court Administrator, with advice from the district and county judges associations, shall develop a uniform and accurate system of measuring judicial workloads which shall be the principal criterion used by the Supreme Court when designating a primary office.

(2) In the event of the death, retirement, resignation, or removal of any district or county judge, the failure of a district or county judge to be retained in office, or a need for a change in boundaries or the number of district or county court judicial districts or in the number of district or county judgeships authorized by law, the Judicial Resources Commission, after holding a public hearing in the affected district or districts, shall determine:

(a) Whether a judicial vacancy exists and the location of that vacancy;

(b) Whether the judicial district boundaries or the number of districts should be changed for county or district courts;

(c) Whether the number of district or county judges should be increased, decreased, or remain the same; or

(d) Any combination of subdivisions (a), (b), and (c) of this subsection.

The commission's determination shall be based upon the analysis of caseloads weighted by category, adequate access to the courts by litigants, population, other judicial duties, travel time, and other factors determined by the commission to be necessary to assure efficiency and service. After making a determination, the commission shall make a recommendation to the

Legislature. If no changes in existing law are recommended by the commission, no legislative action shall be necessary to fill any vacancy resulting from the death, retirement, resignation, or removal of a judge.

(3) Regardless of whether a vacancy has occurred, the Judicial Resources Commission shall meet not less than once every two years. After the meeting and not later than December 31, 1995, the commission shall report to the Legislature the following:

(a) Recommendations for improving the reporting of judicial activity by including:

(i) Time on the bench;

(ii) Time spent on administrative tasks;

(iii) Time spent on continuing education;

(iv) Time spent on research and writing; and

(v) Time spent on travel;

(b) Recommendations for improving the case reporting system which consider:

(i) Consistency in treatment of cases;

(ii) Weighting of case categories; and

(iii) Service in out-of-district cases;

(c) Recommendations for evaluating the impact on judicial workload of the following personnel:

(i) Law clerks;

(ii) Administrative assistants;

(iii) Referees;

(iv) Bailiffs;

(v) Clerk magistrates; and

(vi) Other personnel designated to the court; and

(d) Recommendations on the allocation of judicial resources, including whether any judicial district boundaries or the number of districts should be changed for district or county courts, and whether the number of judges should be increased, decreased, or remain the same and what reallocation of judges or redistricting of judicial district boundaries, if any, should be made using an assumption that no new resources or judges will be available.

(4) The Judicial Resources Commission shall adopt and promulgate rules and regulations on the procedures to be followed in making the determinations pursuant to ~~subsection~~ subsections (2) and (3) of this section. The State Court Administrator shall provide adequate administrative support and information as is requested by the commission.

(5) ~~(4)~~ For purposes of subsection ~~(5)~~ (6) of this section, the date of a final determination shall be (a) the date the Governor approves legislation or the Legislature overrides a veto of legislation creating or moving a judicial vacancy, (b) ten days after the date of adjournment sine die by the Legislature in cases of a recommendation on which action is required but no action is taken by the Legislature in its regular legislative session

commenced following the recommendation, (c) the date of a designation of a principal office location by the Supreme Court, or (d) the date of the determination by the commission that there be no change.

(6) ~~(5)~~ When a final determination of the location of a district or county court judicial vacancy has been made or in the event of a judicial vacancy in any other court, the Clerk of the Supreme Court shall contact the chairperson of the judicial nominating commission relating to such vacancy and shall ascertain from him or her a time and place for the first meeting of such judicial nominating commission, at which time a public hearing will be held. He or she shall thereupon notify each commission member in writing of the time and place of the meeting and shall also cause appropriate notice to be published by various news media of the time and place of the public hearing of the judicial nominating commission and of the interest of the commission in receiving information relating to qualified candidates for the judicial vacancy. Any lawyer meeting the statutory requirements to serve as a judge who is interested in being nominated and appointed to such judgeship shall signify his or her interest by filing the appropriate application with the proper entity at least twenty-one days prior to the public hearing. At least ten days prior to the public hearing, the chairperson shall release to the public the names of all lawyers who have applied for such judgeship. Any member of the public shall be entitled to attend the public hearing to express, either orally or in writing, his or her views concerning candidates for the judicial vacancy.

(7) ~~(6)~~ After the public hearing, the judicial nominating commission shall hold such additional private or confidential meetings as it determines to be necessary. Additional information may be submitted in writing to the commission at any time prior to its selection of qualified candidates to fill the vacancy. The commission shall make such independent investigation and inquiry as it considers necessary or expedient to determine the qualifications of candidates for the judicial vacancy and shall take such action as it deems necessary or expedient to encourage qualified candidates to accept judicial office or nomination for judicial office.

(8) ~~(7)~~ The judicial nominating commission may, before or after the hearing provided for in subsection ~~(5)~~ (6) of this section, institute a search for additional candidates. If additional candidates are obtained, the commission shall hold further public hearings in the same manner as provided in such subsection.

(9) ~~(8)~~ The names of candidates shall be submitted to the Governor within ninety days after the date a final determination has been made pursuant to subsection ~~(4)~~ (5) of this section of the location of a district or county court judicial vacancy or, in the event of a judicial vacancy in any other court, after a judicial

vacancy occurred if one public hearing is held and within one hundred twenty days if more than one public hearing is held.

(10) ~~(9)~~ The first public hearing provided for in this section shall be held within sixty days after final determination of the vacancy occurs.

Sec. 3. Original sections 24-803 and 24-810, Revised Statutes Supplement, 1994, are repealed.".

2. Renumber the remaining sections and correct internal references accordingly.

RESOLUTIONS

LEGISLATIVE RESOLUTION 111. Introduced by Business and Labor Committee: Abboud, 12, Chairperson; Dierks, 40; Preister, 5; Schimek, 27; Vrtiska, 1.

PURPOSE: The purpose of this resolution is to initiate a comprehensive study to examine the personnel policies of the state's railroad carriers and the application of such policies to the management and employees of the railroad carrier. Special emphasis shall be placed on distinguishing how disciplinary rules and disciplinary actions taken against management and other employees differ in their application. The study shall examine existing law and proposed legislative enactments which address whether standards should be created to equalize disciplinary actions taken against the different categories of railroad carriers' employees. One or more hearings shall be held to elicit testimony from all interested parties.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 112. Introduced by Business and Labor Committee: Abboud, 12, Chairperson; Dierks, 40; Preister, 5; Schimek, 27; Vrtiska, 1.

PURPOSE: To study LB 555 (1995), which expands the scope of employment of minors in Nebraska and to determine its relationship with federal laws and regulations and its potential effect upon Nebraska's young people. Existing Nebraska law places various restrictions on the employment of minors that concern both the age at which employment may begin and the nature of that employment. LB 555 authorizes Nebraska youth who are 16 and 17 years of age to be employed in hazardous occupations as part of a "school-to-work" program administered by public schools.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 113. Introduced by Business and Labor Committee: Abboud, 12, Chairperson; Dierks, 40; Preister, 5; Schimek, 27; Vrtiska, 1.

PURPOSE: To examine the cost of workers' compensation insurance premiums in the State of Nebraska since the passage of LB757 in 1993. By enacting LB757, Nebraska joined several states which recently adopted laws to reform workers' compensation. Legislative Bill 757 contained several provisions intended to reduce workers' compensation insurance premiums. This study is intended to gather preliminary data and to begin the analysis in this area prior to the 1997 formal report required by LB757.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 114. Introduced by Business and Labor Committee: Abboud, 12, Chairperson; Dierks, 40; Preister, 5; Schimek, 27; Vrtiska, 1.

PURPOSE: To study the consolidation of job training activities as proposed in LB885 (1995) and to determine its relationship with federal laws and regulations and its potential effect upon existing Nebraska job training activities. Currently, federal job training funds are provided to several Nebraska agencies for the purpose of training unemployed individuals for return to the workplace. Legislative Bill 885 would channel the federal funding to a single agency designated by the Governor to perform all job training activities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 116. Introduced by Hillman, 48; Wickersham, 49.

PURPOSE: The purpose of this resolution is to study the funding and governance of the Nebraska community colleges and the Nebraska state colleges.

The study will examine the impact of shifting funding for the community colleges from a combination of general funds and local property taxes to full state funding.

The study will also examine what changes, if any, are necessary in state law or policy that would make governance of the community colleges and state colleges more efficient. The study should examine options for change in the structure of governance of these sectors of postsecondary education, including models from other states, to evaluate possible efficiencies in combining the two sectors under a single governing body.

A change in the role and mission of the community colleges and state colleges is not anticipated to be part of this study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 117. Introduced by Hillman, 48; Day, 19; Bernard-Stevens, 42.

PURPOSE: The purpose of this resolution is to study the protection order provisions of the Protection from Domestic Abuse Act. Domestic and family abuse is a pervasive and frequently lethal problem that challenges society at every level. It threatens the stability of the family and negatively impacts on all family members. It violates our communities' safety, health, welfare, and economies by draining many dollars annually in social costs. Domestic violence requires strong public policy which begins with appropriate legislation to that end.

The study shall examine: authority of the courts to order comprehensive relief in protection orders; accessibility of protection orders for victims in rural and urban areas and jurisdictions, and ability of law enforcement officers and the courts to effectively intervene in domestic violence situations and provide safety for victims and their children.

As part of the study, the committee shall examine, but not be limited to: expanding the definition of family or household; providing mandatory arrest if a person violates a condition of bond and the crime is related to domestic assault; expanding the relief available ex parte to include temporary custody and removal from premises; expanding the relief available after notice and hearing to include visitation and support; providing for an emergency order to be issued twenty-four hours a day; eliminating the filing and service costs for obtaining a protection order; revising the process for scheduling a hearing and clarifying when hearings are required; allowing law enforcement officers to verbally notify a respondent, in the event he or she has not yet been served with the order, that a protection order has been issued and that he or she will be arrested immediately upon violation of the order; and establishing a state registry of protection orders.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 118. Introduced by Preister, 5; Chambers, 11; Hall, 7; Landis, 46; Beutler, 28; Will, 8; Jensen, 20; Lindsay, 9; Crosby, 29; Wesely, 26; Hartnett, 45; Pedersen, 39; Schimek, 27.

PURPOSE: This study shall examine the rating practices of automobile insurance premiums. Specifically, this study shall examine:

1. The regulation of automobile insurance premium rating including an examination of territorial rating practices;
2. What restrictions other states have placed on automobile insurance premium rating practices and the resulting impact on rates and availability of insurance services;
3. Whether the Legislature should enact restrictions on and require greater regulation of territorial premium rating practices by automobile insurance companies.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 119. Introduced by Preister, 5; Pedersen, 39; Jensen, 20.

PURPOSE: This study shall examine the relationship of tobacco products to minors. Specifically this study shall:

1. Review current literature on the health and economic effects of tobacco use by minors;
2. Study statutory plan, regulatory plan, and other means of curtailing the need or desire for tobacco products by minors; and
3. Study and explore statutory plan, regulatory plan, and other means of eliminating the purchase and theft of tobacco products by minors.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee and the Judiciary Committee of the Legislature shall be designated to jointly conduct an interim study to carry out the purposes of this resolution.
2. That the committees shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

AM1369

1. Insert the following new section:

"Sec. 17. Section 79-3407, Reissue Revised Statutes of Nebraska, is amended to read:

79-3407. (1) Except as provided in section 79-3409, the school board or board of education of the option school district shall adopt by resolution specific standards for acceptance and rejection of applications. Standards may include disciplinary actions, proceedings, or sanctions, if such actions, proceedings, or sanctions are current at the time of application, the capacity of a program, class, grade level, or school building, or the availability of appropriate special education programs operated by the option district. Capacity shall be determined by setting a maximum number of option students that a district will accept in any program, class, grade level, or school building, based upon available staff, facilities, projected enrollment of resident students, projected number of students with which the option district will contract based on existing contractual arrangements, and availability of appropriate special education programs. The school board or board of education of the option school district may by resolution declare a program, a class, or a school unavailable to option students due to lack of capacity. Standards shall not include previous academic achievement, athletic or other extracurricular ability, handicapping conditions, proficiency in the English language, or previous disciplinary proceedings.

(2) A school district that has a desegregation plan adopted by the school board or the board of education or ordered by the federal court may adopt standards for acceptance and rejection of applications for transfer into or out of such district which are designed to make desegregation easier to maintain or improve.

Desegregation is made easier to maintain or improve by standards which, considering all requests for transfer into or out of the school district received prior to the school district's application deadline established in conformity with section 79-3406 or 79-3409, prohibit transfers which if granted would increase the racial percentage in the school district's total enrollment of the minority group for whom the desegregation plan was ordered or adopted. Any such standards may apply to students residing within the school district who seek to transfer to a school in another school district and to students who reside in another district who seek to transfer into a school district which has a desegregation plan.

(3) Any option school district shall give first priority for enrollment to option students whose request for enrollment would aid the racial integration of the option school district and the resident school district and to siblings of option students, except that the option school district shall not be required to accept the sibling of an option student if the district is at capacity except as provided in subsections (2) and (4) of section 79-3409.

(4) For purposes of this section, racial integration is aided if a student transfers to an option school district in which his or her race is a smaller percentage of the total student enrollment of the option school district than it is of the student's resident school district.".

2. On page 36, line 4, after the third comma insert "79-3407,".

3. Renumber the remaining sections accordingly.

Dear Senator Withem:

Pursuant to Neb. Rev. Stat. § 24-810(2)(d) (Cum. Mrs. Bohlke asked unanimous consent to print the following amendment to LB 742 in the Journal. No objections. So ordered.

AM2156

(Amendments to AM2114)

1. Strike section 2 and all amendments thereto and insert the following new section:

"Sec. 2. (1) The Legislature finds that the funding system for special education programs and support services should be neutral as to identification and programming of programs and support services for students with handicaps and students needing support services. Further, the Legislature finds that the funding system for special education programs and support services for students with handicaps and students needing support services should encourage programs and services that are consistent with sound education practice, preventive, and, when appropriate, integrated with regular education services. Educational services for students with handicaps and students needing support services should be driven by educational needs rather than state funding formulas.

(2) It is the intent of the Legislature that, beginning with school year 1998-99, there shall be implemented a new funding system to replace the existing excess cost reimbursement provisions for the funding of special education programs and support services offered by school districts, educational service units, and approved cooperatives. The new funding system shall be identification and program neutral, assure that adequate resources are available to meet the needs of handicapped students and students needing support services, and provide for equity in special education programs and support services to students regardless of the district in which students reside. Further, the new funding system should be designed so that average annual special education costs increase at a rate no greater than the average annual growth rate of general education. State funding should be made available to meet the needs of handicapped students and students needing support services without the requirement that such students be identified and verified as students with

disabilities as defined in the Special Education Act and the Individuals With Disabilities Education Act and rules and regulations adopted and promulgated pursuant to such acts.

(3) The Legislature recognizes that the shift from an excess cost reimbursement funding formula to a new funding system which meets the intent stated in subsections (1) and (2) of this section for special education programs and support services raises several issues which demand further examination and public discussion prior to implementation, including (a) how to establish the basis for distribution of state funding, (b) how to provide for the financial support of students with extremely disabling conditions and extraordinary needs which result in high costs to school districts beyond the districts' ability to reasonably provide for special education programs and support services utilizing block grant support and local resources, (c) how to establish the state funding level, (d) how to assure that funding for special education programs and support services is maintained at the same levels of growth or decline as funding levels of general education, (e) how to establish educational practices for delivery of quality special education programs and support services, (f) how the new funding system should be integrated with general state aid to be consistent with the principles of student and taxpayer equity underlying the state's equalization aid program, (g) how to phase in the new funding system to minimize financial impacts on school districts, (h) how accountability for appropriate educational needs shall be established for school districts, educational service units, or approved cooperatives to qualify for the new funding system, and (i) how the State Department of Education can integrate the administration of the new funding system to eliminate duplication in aid payments, accounting, and reporting of expenditures. It is the intent of the Legislature that these issues shall be addressed by the Special Education Accountability Commission in consultation with the School Finance Review Committee, the State Department of Education, and the Committee on Education of the Legislature. The Committee on Education of the Legislature and the Special Education Accountability Commission shall receive written proposals for alternative funding systems for special education services which meet the goals stated in subsections (1) and (2) of this section from any individual, agency, or group until January 15, 1996.".

FA217

Amend the Robinson bracket motion to LB 392

WHEREAS, An Attorney General's Opinion, dated April 15, 1987, approved a proposal that would explicitly provide that appropriations bills, through a lack of funding of a program, could legally suspend the operation of the program, even a statutorily required program, and the funding necessary to provide that program, for the period of time of the appropriation bill. RESOLUTIONS

LEGISLATIVE RESOLUTION 128. Introduced by Bromm, 23; Landis, 46.

PURPOSE: The purpose of this resolution is to study what Nebraska's response should be to the interstate branching provisions of the federal Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994, including, but not limited to, a review of the provisions of LB512, Ninety-fourth Legislature, First Session, 1994, pending in the Banking, Commerce and Insurance Committee of the Legislature.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 129. Introduced by Robak, 22.

PURPOSE: To study the possibility of using the average personal income of a school district as a factor in determining the local effort rate for school financing. This issue was raised by Legislative Bill 349, Ninety-fourth Legislature, First Session, 1995.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 130. Introduced by Vrtiska, 1; Beutler, 28.

PURPOSE: Various sections of state statute require certain state and local public officials to post fidelity or performance bonds as a method of protecting the public from the negligence or malfeasance of public officials. The requirements and bond levels vary widely from office to office and are scattered throughout state statutes. Concern was raised during the debate on LB 179 (1995) that a review of these varying requirements and bond levels should be undertaken to ensure that the bond levels are adequate and consistent with the duties of the office and to ensure that other statutory requirements are reasonable, both for the efficiency of governmental subdivisions and for the protection of the public's interest.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

PRESIDENT SIGNED

While the Legislature was in session and capable of transacting business, the President signed the following resolution: LR 105.

MESSAGE FROM THE GOVERNOR

May 15, 1995

Madam President, Mister Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Members:

Engrossed Legislative Bill 118 was received in my office on May 10, 1995. This bill was signed by me on May 15, 1995 and delivered to the Secretary of State.

LB 118 provides for a reduction in the penalties on sales tax for motor vehicles. It is important to realize the impact that this legislation may have on the ability of the state and counties to collect sales tax on motor vehicles. If the passage of this bill encourages taxpayers not to pay their sales tax or to pay them later than is required by law, I will return next year with a bill to raise the penalties higher than is provided by LB 118.

I understand the hardship which counties and the taxpayer have felt because of the inadvertent effects prior legislation had on the sales tax penalties. This penalty in many cases was too stringent. I do want to state that this is in no way to be construed as a penalty to those who pay their taxes on time. It is not my intent and I am sure not the intent of the introducers. I would like to extend my help in making sure this policy change has the desired effects. I would encourage the Legislature to monitor this provision and join with me in making sure those that pay their taxes on time are not punished through any provisions set out in LB 118.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

RESOLUTIONS

LEGISLATIVE RESOLUTION 131. Introduced by Landis, 46; Preister, 5; Vrtiska, 1; Schimek, 27.

PURPOSE: To determine, in advance of an accident involving high-level nuclear waste and resulting from the transport of high-level nuclear waste, who is financially responsible for the damages and clean-up costs and what Nebraska's underlying state statutes should be.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 132. Introduced by Pirsch, 10; Landis, 46.

PURPOSE: The purpose of this resolution is to study whether Nebraska should rewrite and update its statutes regarding credit unions. LB 415, pending in the Banking, Commerce and Insurance Committee of the Legislature, proposes enactment of a new Credit Union Act, and the provisions of this bill should be reviewed as part of the study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 133. Introduced by Schimek, 27; Chambers, 11; Hillman, 48; Day, 19; Crosby, 29; Matzke, 47; Lindsay, 9.

PURPOSE: The purpose of this resolution is to examine questions which have been raised regarding the entries made on the Central Register in the Department of Social Services pertaining to child abuse and neglect. The review shall include the following, but not be limited to: (1) What the policies and practices are regarding the effective record keeping of child abuse cases by the Department of Social Services, law enforcement agencies, county attorneys, and juvenile and criminal courts; (2) what types of cases constitute each of the four categories listed in LB 336 (1995); (3) what cases should be expunged immediately from the register; (4) what access there is to information contained in the register; (5) what information is accessible; and (6) what defines the expungement process and the length of time entries are maintained on the central register.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a select committee of the Legislature comprised of three senators from the Health and Human Services Committee, three senators from the Judiciary Committee, and two senators from the Appropriations Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 134. Introduced by Robinson, 16.

PURPOSE: The cost of government in Nebraska, especially as it relates to property taxation, has been of great concern for a number of years. Much of the focus has been on the number of governmental units in the state and what steps can be taken to make their operation more efficient. The purpose of this resolution is to study methods to promote the collaboration of services by governmental units. Specifically, the study will examine the use of state aid formulas as an incentive for collaboration and explore various mechanisms for making government more efficient through collaboration and cooperation. The study will also examine methods that may be used to raise awareness and provide education to governmental entities to enable them to look at the feasibility of collaboration and cooperation with other units of government.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 135. Introduced by Robinson, 16.

PURPOSE: To study the various aspects of the publication of legal notices. The study will examine the requirements for publication, including, but not limited to, an examination of what notices are required to be published, the number of times publication is required, whether there are duplicative notices or antiquated notices that must be published, and the costs of publication. The examination will focus on the impact of Nebraska law on political subdivisions and newspapers in the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 136. Introduced by Witek, 31.

PURPOSE: The purpose of this study is to determine whether election costs should be allocated by county election officials among political subdivisions when several political subdivisions have issues or candidates on the ballot at a single election as specified in LB 561, Ninety-Fourth Legislature, First Session, 1995. Under current law, the allocation of election costs among political subdivisions when several political subdivisions have issues or candidates on the ballot at a single election is calculated on a per-inch-of-ballot basis. This method of allocating costs results in inequities to political subdivisions which place issues on the ballot as opposed to candidate races and is a disservice to the public as it encourages ballot issues to be written in an abridged form. LB 561 proposed that the method of apportioning such election costs be changed to a per-ballot-issue basis but this bill was indefinitely postponed. In conducting this study, the current method of allocating costs should be reevaluated and the method proposed by LB 561 should be analyzed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

ATTORNEY GENERAL'S OPINION

Opinion No. 95038

DATE:	May 16, 1995
SUBJECT:	Constitutionality of LB 136 - Amendment of Definition of "Retailer" to Require Retailers Engaged in Business in Nebraska Which Have Minimum Contacts With the State, But Not Physical Presence, to Report Information Regarding Purchases by Nebraska Residents.
REQUESTED BY:	Senator Jim Jensen Nebraska State Legislature
WRITTEN BY:	Don Stenberg, Attorney General

L. Jay Bartel, Assistant Attorney General

You have requested our opinion regarding the constitutionality of LB 136, in light of the United States Supreme Court decision in Quill Corp. v. North Dakota, ___ U.S. ___, 112 S. Ct. 1904 (1992) {"Quill"}. In Quill, the Court held that a North Dakota use tax collection statute requiring out-of-state mail-order sellers to collect and remit use tax on purchases made by resident consumers did not violate the "nexus" requirement of the due process clause of the Fourteenth Amendment of the U.S. Constitution. The Court held, however, that the use tax collection requirement violated the "nexus" requirement of the commerce clause of the U.S. Constitution (art. I, § 8, cl. 3). Your specific question is whether, consistent with the Court's decision in Quill, the state may, under LB 136, "constitutionally require reports of mail order businesses who have no physical presence in the state, in order to identify Nebraskans who owe Nebraska sales and use tax for the products purchased from such businesses."

For the reasons stated below, we conclude that, while the reporting requirements on retailers imposed under LB 136 are not contrary to the due process standards articulated in Quill, these requirements could be held to impose an undue burden on interstate commerce. Our analysis will address the provisions of LB 136, the Court's holding in Quill, and the application of the Court's decision to the reporting requirement proposed under LB 136.

I. LB 136.

LB 136 would amend the definition of "retailer" under Neb. Rev. Stat. § 77-2705(1) (Cum. Supp. 1994) to allow the Tax Commissioner to "require retailers engaged in business in this state which have minimum contacts with this state, but do not have physical presence in this state, to submit periodic reports listing purchases by Nebraska residents, the amount of the purchases, and the locations to which the purchases were shipped." The reporting requirement would "not apply to out-of-state vendors or their representatives who have entered into an agreement with the Department of Revenue or obtained a permit for the collection of Nebraska sales and use taxes." Thus, LB 136 does not propose to impose an obligation on out-of-state sellers to collect and remit Nebraska use tax on purchases by Nebraska residents; rather, unless out-of-state sellers have entered into an agreement with the Department of Revenue or obtained a permit to collect Nebraska sales and use tax, it proposes instead to require out-of-state sellers engaged in business in Nebraska having "minimum contacts" with the state to report certain information to the Department of Revenue. This information, of course, is intended to assist the Department in its enforcement of Nebraska sales and use tax statutes.

II. The Quill Decision.

Quill involved the constitutionality of a North Dakota use tax collection scheme requiring mail-order sellers who had no physical presence in the state to collect and remit use tax on sales to North Dakota residents. North Dakota initiated a declaratory judgment action against Quill, seeking a determination that it was liable for its failure to collect and remit use tax on sales to North Dakota consumers. Quill argued that North Dakota had no power to compel it to collect and remit use tax on sales to its North Dakota customers, contending that such requirement violated the Due Process and Commerce Clauses of the U.S. Constitution. 112 S. Ct. at 1907-09. Quill relied principally on the Court's prior decision in National Bellas Hess v. Dept. of Revenue, 386 U.S. 753 (1967) {"Bellas Hess"}, in which the Court held that a state tax scheme which imposed the duty of collecting use tax on a seller whose only connection with consumers in the taxing state was by common carrier or U.S. mail violated both the Due Process and Commerce Clauses.

Reversing the North Dakota Supreme Court's decision that the statute was constitutional, the Court made two independent inquiries with regard to the Due Process and Commerce Clause issues. While the Court found that Quill's contacts with North Dakota were sufficient for due process purposes, it found these contacts insufficient to sustain the tax under the Commerce Clause. 112 S. Ct. at 1911, 1916.[1]

Addressing the due process issue, the Court stated that "some definite link, some minimum connection, between a state and the person, property or transaction it seeks to tax" was required. Id. at 1909 (quoting Miller Bros. Co. v. Maryland, 347 U.S. 340, 344-45 (1954). Recognizing that its due process jurisprudence had evolved beyond the point of requiring "physical presence" to allow a state to exercise jurisdiction over a defendant, the Court did not equate the "nexus" requirement for due process purposes with "physical presence." 112 S. Ct. at 1910, 1911. Rather, the Court determined that, consistent with due process, North Dakota could impose use tax collection responsibilities on Quill even though it maintained no "physical presence" in the state. Id. at 1911. The Court found that, as Quill purposefully directed its mail-order business at North Dakota residents, and the magnitude of these contacts created a "minimum connection" between the state and Quill, it was "fair" to require Quill to submit to the state's taxing jurisdiction. Id.

In contrast to the due process "nexus" requirement mandating only "minimum contacts", however, the Court concluded that the Commerce Clause required something more. The Court based this distinction on recognition of the different constitutional concerns underlying these two clauses. It reasoned that, while the due process clause is concerned with "the fundamental fairness of governmental activity", the commerce clause is focused on "structural concerns about the effects of state regulation on the national economy." Id. at 1913.

Relying on its decision in Complete Auto Transit v. Brady, 430 U.S. 274 (1977), the Court stated that the Commerce Clause requires a "substantial nexus" between the taxing state and the out-of-state seller before the state can impose use tax collection duties on the seller. 112 S. Ct. at 1912. The Court defined "substantial nexus" as "physical presence" in the taxing state. Id. The Court stated that maintaining this "bright-line" rule, previously adopted in Bellas Hess, would promote the goals of the Commerce Clause. Id. at 1914. It believed the "physical presence" standard would "firmly establish{ } the boundaries of legitimate state authority to impose a duty to collect sales and use taxes and reduce{ } litigation concerning those taxes." Id. at 1915. In addition, it found the "physical presence" standard would "encourage{ } settled expectations by businesses and individuals." Id. (footnote omitted). Because Quill did not maintain a physical presence in North Dakota, the Court held that North Dakota's attempt to impose use tax collection responsibilities on its out-of-state mail order sales to its North Dakota customers violated the Commerce Clause. Id. at 1916.[2]

III. Analysis of Quill in Relation to LB 136.

In analyzing whether the provisions of LB 136 are consistent with the Court's decision in Quill, it is important, at the outset, to note the difference between the proposed amendment to § 77-2705 under LB 136, and the North Dakota statute found unconstitutional in Quill. The North Dakota law found unconstitutional in Quill concerned a state statute imposing use tax collection responsibility on an out-of-state company with no physical presence in the state on sales to state residents. LB 136, in contrast, does not impose a collection responsibility on retailers engaged in business in Nebraska, but having no physical presence in the state. Rather, it seeks to impose a reporting requirement on such retailers which have "minimum contacts" with the state, but no "physical presence".

The principal issues raised by your question, of course, require consideration of the due process and commerce clause concerns addressed in Quill. In considering these issues, you have provided for our review a comprehensive analysis of such questions in light of the Quill decision published by the Multistate Tax Commission. Davis, State Jurisdiction to Compel Documents and Witnesses After Quill, (Multistate Tax Comm'n, Vol. 1994, No. 1) {"MTC Report"}. We have reviewed this analysis, which concludes that, under the Quill decision, "{r}easonable requests for potentially relevant documents to determine whether an out-of-state company is in compliance with the state tax laws, or to determine whether residents of the state are complying with use tax laws, should be upheld under both Due Process and Commerce Clause constitutional analyses." MTC Report at 27.

In the due process context, the MTC Report states:

> In deciding whether it may exert long-arm jurisdiction over an out-of-state company, a court must first ascertain whether the company has purposefully availed itself of the privilege of conducting activities within the state. Burger King Corp. v. Rudzewicz, 471 U.S. 462 (1985). Some specific, purposeful action is required, such as 'designing the product for the market in the forum state, advertising in the forum state, establishing channels for providing regular advice to customers in the forum state, or marketing the product through a distributor who has agreed to serve as the sales agent in the forum state.' Asahi Metal Industry Co. v. Superior Court, 480 U.S. 102, 112 (1987).

> Physical presence is not a prerequisite to jurisdiction. Burger King, supra, at 476. If only one sale is consummated, but that sale is the result of purposefully directed activities such as widespread catalog mailings to customers in the state, jurisdiction may lie for that one sale. Burger King, at 475, n.18. If the company deliberately engages in 'significant activities' within a state, jurisdiction will lie. Keeton v. Hustler Magazine, Inc., 465 U.S. 770 (1984). If the company purposefully derives benefits from activities in other states, it can reasonably expect to be haled into the state courts. Kulko v. California Superior Court, 436 U.S. 84, 96 (1978).

MTC Report at 25-26.

The MTC Report notes that various activities may subject an out-of-state company to a state's authority to provide information such as that which may be required by LB 136, including advertising in the state through mail order catalogs, advertising through magazines or newspapers designed to reach state residents, or other "{s}ignificant ongoing in-state business transactions with customers, regardless of the absence of directed marketing." Id. at 25. If these "minimum contacts" with the state exist, as contemplated by LB 136, we do not believe that the bill would contravene federal due process requirements.

As to the Commerce Clause question, the MTC Report concludes that,

> {u}nlike its Due Process ruling, Quill's Commerce Clause physical presence ruling is very limited. The Court made it clear that the basis for its Commerce Clause decision was its reluctance to overturn National Bellas Hess, supra, and its belief that Commerce Clause issues such as the one presented are better regulated by Congress. Since Quill's application of the physical presence standard is limited to use tax collection from mail order companies, the decision arguably would not apply to state attempts to compel production of documents from out-of-state companies.

Id. at 26.

The MTC further states that, "{w}hen direct imposition of state taxes is not at issue,. . . it can be argued that the standard of Commerce Clause review to be applied should be that applied to any other state regulatory measure." Id. (emphasis in original). " In the non-tax context, the standard of Commerce Clause review is whether the state has a legitmate interest in the matter to be regulated and whether the burden imposed, and any discrimination against interstate commerce, is outweighed by the state's interest." Id. at 26-27 (citing Pike v. Bruce Church, Inc., 397 U.S. 137, 142 (1970)). In discussing application of the Commerce Clause "balancing test" applicable to a state law informational requirement such as imposed under LB 136, the MTC Report states:

> If the state's purpose is to seek information concerning customer compliance with the state tax laws, the out-of-state company is a third party to the tax investigation. The relevant information may include lists of customers, including addresses and information identifying the sales to the customers. . . .{P}roducing this

> information should impose a lesser burden on a company than use tax collection, in that the request is for information to be supplied after the fact--i.e., does not require application of a tax on each sale as it takes place and subsequent payments over to a state. The balance will. . .likely favor the state.

MTC Report at 27.

While the MTC Report's conclusion that the balancing test applied in Commerce Clause regulatory inquiries, weighing the burden imposed, and any discrimination against interstate commerce, against the state interest in the matter regulated, should favor state informational requirements imposed on out-of-state retailers such as proposed under LB 136, we cannot state with certainty that this conclusion is correct. It is true that the "bright-line" Commerce Clause rule adopted in Quill, requiring a "substantial nexus" which the Court equated with "physical presence" in the taxing state, was applied to a state statute requiring an out-of-state seller to collect and remit use tax, rather than an informational or reporting requirements imposed on out-of-state sellers. It may well be that the balancing test applied in Commerce Clause cases will be deemed to apply to state laws seeking to impose such informational requirements on out-of-state sellers in circumstances where the state does not seek to impose use tax collection duties on those sellers. Even if this standard were to apply, however, we are not confident that the burden imposed would be deemed insubstantial, and that it may not be found to place an undue burden on interstate commerce.

IV. Conclusion.

In conclusion, it is our opinion that the reporting requirements which may be imposed by the Tax Commissioner under LB 136 on retailers which do not have "physical presence" in the state, but have "minimum contacts" with the state, would not, if enacted, facially violate the Due Process Clause of the Federal Constitution under the principles articulated by the United States Supreme Court in Quill. We further conclude, however, that there remains a question as to whether such requirements would be found to place an impermissible burden on interstate commerce, in violation of the Commerce Clause. We also note that enactment of the reporting requirements proposed under LB 136 may pose significant, and potentially costly, enforcement problems, if out-of-state retailers do not voluntarily comply with efforts by the Department of Revenue to compel compliance with such requirements.

[1] The Court overruled Bellas Hess on the due process issue, while affirming that case on the Commerce Clause issue.

[2] The Court thus affirmed Bellas Hess with respect to the Commerce Clause issue.

Very truly yours,
DON STENBERG

(1) Article IV, section 6, of the Constitution of Nebraska requires that the affairs of the state be economically and efficiently administered and thereby imposes a duty to expend no more for any service than it is worth;

(2) The types and provisions of contracts executed on behalf of the state have a direct bearing on the economical and efficient administration of the affairs of the state;

(3) Fee-for-service contracts are the usual, customary, and accepted manner of contracting on behalf of the state;

(4) Prior to August 1994, no state department or agency ever had executed a contingent fee contract on behalf of the state;

(5) The Legislature has never directly or indirectly granted or delegated authority to any state department, state agency, or person to execute a contingent fee contract on behalf of the state;

(6) The Legislature never contemplated, intended, or implied that any state department, state agency, or person should have the authority to execute a contingent fee contract on behalf of the state;

(7) The utilization of contingent fee contracts constitutes a major policy determination which should be made only by the Legislature by means of explicit legislation;

(8) Contingent fee contracts are not in the public interest and are not favored when public funds are to be expended because they are conditioned on the occurrence of a future event which itself is uncertain or questionable and may extend the state's obligation to pay an indefinite amount into the indefinite future;

(9) Contingent fee contracts encourage the payment of inequitable and exorbitant fees bearing no reasonable relationship to the services actually performed and thereby result in the unwarranted and imprudent expenditure of public funds, in contravention of the constitutional duty to administer the affairs of the state in an economical and efficient manner; and

(10) Insofar as obtaining federal funds to which the state is entitled by law, the state's interests are represented by two members of the United States Senate and three members of the United States House of Representatives who have given no indication that individually or collectively they are either unwilling to or incapable of adequately representing the state's interests with regard to assisting to obtain such federal funds if requested by the Governor to do so.

Sec. 2. The Legislature finds that contingent fee contracts are inimical to the economical and efficient administration of the affairs of the state, are not in the public interest, and shall not be executed by any state department, state agency, or person on behalf of the state.

Sec. 3. Any contingent fee contract which purports to obligate the state to pay contingent fees based on the net increase in federal financial participation revenue obtained through the actions of the other party to the contract executed prior to the effective date of this act is hereby canceled.

Sec. 4. Any contingent fee contract of any kind whatsoever executed by any state department, state agency, or person on behalf of the state after the effective date of this act is void.

Sec. 5. For purposes of this act:

(1) Contingent fee means any fee, whether called commission, percentage, brokerage, finder's fee, contingent fee, or otherwise denominated, which is a percentage of the amount or value recovered or obtained;

(2) Contingent fee contract means any contract or agreement which provides for payment of a contingent fee; and

(3) State means any department or agency of the state.

Sec. 6. Since an emergency exists, this act takes effect when passed and approved according to law.".

RESOLUTIONS

LEGISLATIVE RESOLUTION 137. Introduced by Warner, 25; Robinson, 16.

PURPOSE: In 1995 no issue is more important to the majority of Nebraskans than property tax relief. It has become apparent over the last twenty-five years of work in this area, that the traditional approaches, including lids and state aid to political subdivisions, while effective are not sufficient in and of themselves to adequately address the concerns of Nebraskans over the long term. Frustration with the current system has led to proposals to severely limit the availability of property tax for funding public services. Included among these proposals is LR 93CA which was introduced late in the session on a 38-to-0 vote. This constitutional revision proposal, which is pending before the Revenue Committee, would dramatically reduce the number of entities allowed to independently levy property taxes and place absolute dollar and cents limits on the actual tax levy. This proposal, while simple in form, raises a number of issues which must be addressed to substantially and permanently reduce Nebraska's dependence on property tax. These issues cover a very broad spectrum of the committees organized to carry out the business of the Legislature.

Resolution of the property tax issue involves a serious look at public services in Nebraska and the methods we use to pay for them. Efforts to provide property tax relief must be directed toward achieving the following goals:

1. Restructuring local and state governmental services in Nebraska;
2. Reducing the use of property tax to finance public services; and
3. Restructuring state aid to local government and local revenue authority as is necessary to achieve goals 1 and 2.

Such a project involves a detailed examination of most governmental services and the jurisdiction and expertise of most committees of the Legislature. Coordination and execution of such a research effort is critical to delivering results that will provide property tax relief that is adequate and permanent and that can be implemented in an orderly fashion.

Included among the issues which must be faced is the ability of counties to provide adequate public services under the constraints of a thirty cent per one hundred dollars of valuation constitutional limit on property taxes; the viability of the separate levy authority of townships, library boards, airport authorities, hospital authorities, extension services, historical societies, cemetery organizations, agricultural societies, public building commissions, and other special purpose districts and the possibility of county control over such special purpose districts; incentives for city-county or multicounty sharing of service responsibility; the potential of shifting county services to the state for purposes of property tax relief; and the need for need-based aid for some counties which cannot provide adequate services under these constraints.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

The Legislature shall not create a new judgeship unless the commission recommends the creation of a new judgeship in its report. If legislative action is required but none is taken in the next legislative session following the report, the commission shall hold another hearing on the matter and shall determine whether a judicial vacancy exists or again recommend legislative changes to the Legislature in its report.

Sec. 9. For purposes of section 10 of this act and section 24-810, the date of a final determination of a district, county, or separate juvenile court judicial vacancy shall be:

Sec. 10. If a final determination of a district or county court judicial vacancy is made, the Supreme Court shall, after consultation with lawyers of the judicial district as it deems appropriate, determine and announce the county where the primary office for the judgeship shall be located. In designating a primary office, the Supreme Court shall locate judges so as to provide maximum service to all areas of the judicial district. If more than one county is acceptable as a primary office, the Supreme Court may so state and may leave the final choice of the location of the primary office to the judge. The principal criterion used by the Supreme Court when designating a primary office shall be the judicial workload statistics compiled by the State Court Administrator pursuant to section 5 of this act.

Sec. 11. Section 24-810, Revised Statutes Supplement, 1994, is amended to read:

24-810. ~~(1) Prior to the time for the first meeting of the judicial nominating commission prescribed in subsection (5) of this section, the Supreme Court shall, after consultations with attorneys of the district as it deems appropriate, determine and announce to the judicial nominating commission the county where the primary office for the appointed judge shall be located. In designating a primary office, the Supreme Court shall locate judges so as to provide maximum service to all areas of the judicial district. If more than one county is acceptable as a primary office, the Supreme Court may so state and may leave the final choice of the location of the primary office to the appointed judge. The State Court Administrator, with advice from the district and county judges associations, shall develop a uniform and accurate system of measuring judicial workloads which shall be the principal criterion used by the Supreme Court when designating a primary office.~~

~~(2) In the event of the death, retirement, resignation, or removal of any district or county judge, the failure of a~~

~~district or county judge to be retained in office, or a need for a change in boundaries or the number of district or county court judicial districts or in the number of district or county judgeships authorized by law, the Judicial Resources Commission, after holding a public hearing in the affected district or districts, shall determine:~~

~~(a) Whether a judicial vacancy exists and the location of that vacancy;~~

~~(b) Whether the judicial district boundaries or the number of districts should be changed for county or district courts;~~

~~(c) Whether the number of district or county judges should be increased, decreased, or remain the same; or~~

~~(d) Any combination of subdivisions (a), (b), and (c) of this subsection.~~

~~The commission's determination shall be based upon the analysis of caseloads weighted by category, adequate access to the courts by litigants, population, other judicial duties, travel time, and other factors determined by the commission to be necessary to assure efficiency and service. After making a determination, the commission shall make a recommendation to the Legislature. If no changes in existing law are recommended by the commission, no legislative action shall be necessary to fill any vacancy resulting from the death, retirement, resignation, or removal of a judge.~~

~~(3) The Judicial Resources Commission shall adopt and promulgate rules and regulations on the procedures to be followed in making the determinations pursuant to subsection (2) of this section. The State Court Administrator shall provide adequate administrative support and information as is requested by the commission.~~

~~(4) For purposes of subsection (5) of this section, the date of a final determination shall be (a) the date the Governor approves legislation or the Legislature overrides a veto of legislation creating or moving a judicial vacancy, (b) ten days after the date of adjournment sine die by the Legislature in cases of a recommendation on which action is required but no action is taken by the Legislature in its regular legislative session commenced following the recommendation, (c) the date of a designation of a principal office location by the Supreme Court, or (d) the date of the determination by the commission that there be no change.~~

(1) ~~(5)~~ When a final determination of ~~the location of~~ a district, ~~or~~ county, or separate juvenile court judicial vacancy has been made pursuant to section 9 of this act or in the event of a judicial vacancy in any other court, the Clerk of the Supreme Court shall contact the chairperson of the judicial nominating commission relating to such vacancy and shall ascertain from him or her a time and place for the first meeting of such judicial

nominating commission, at which time a public hearing will be held. ~~He or she~~ The first public hearing shall be held within sixty days after final determination of the vacancy occurs. The chairperson shall ~~thereupon~~ notify each commission member in writing of the time and place of the meeting and shall also cause appropriate notice to be published by various news media of the time and place of the public hearing of the judicial nominating commission and of the interest of the commission in receiving information relating to qualified candidates for the judicial vacancy. Any lawyer meeting the statutory requirements to serve as a judge who is interested in being nominated and appointed to such judgeship shall signify his or her interest by filing the appropriate application with the proper entity at least twenty-one days prior to the public hearing. At least ten days prior to the public hearing, the chairperson shall release to the public the names of all lawyers who have applied for such judgeship. Any member of the public shall be entitled to attend the public hearing to express, either orally or in writing, his or her views concerning candidates for the judicial vacancy.

(2) ~~(6)~~ After the public hearing, the judicial nominating commission shall hold such additional private or confidential meetings as it determines to be necessary. Additional information may be submitted in writing to the commission at any time prior to its selection of qualified candidates to fill the vacancy. The commission shall make such independent investigation and inquiry as it considers necessary or expedient to determine the qualifications of candidates for the judicial vacancy and shall take such action as it deems necessary or expedient to encourage qualified candidates to accept judicial office or nomination for judicial office.

(3) ~~(7)~~ The judicial nominating commission may, before or after the hearing provided for in subsection ~~(5)~~ (1) of this section, institute a search for additional candidates. If additional candidates are obtained, the commission shall hold further public hearings in the same manner as provided in such subsection.

(4) ~~(8)~~ The names of candidates shall be submitted to the Governor within ninety days after the date a final determination has been made ~~pursuant to subsection (4) of this section of the location~~ of a district, ~~or~~ county, or separate juvenile court judicial vacancy or, in the event of a judicial vacancy in any other court, after a judicial vacancy occurred if one public hearing is held and within one hundred twenty days if more than one public hearing is held.

~~(9) The first public hearing provided for in this section shall be held within sixty days after final determination of the vacancy occurs.~~

Sec. 12. Sections 2 and 15 of this act become operative on January 1, 1997. Sections 3 to 11 and 14 of this act become operative three calendar months after the adjournment of this legislative session. The other sections of this act become operative on their effective date.

Sec. 13. Original section 24-201.01, Revised Statutes Supplement, 1994, is repealed.

Sec. 14. Original sections 24-803, 24-809.01, and 24-810, Revised Statutes Supplement, 1994, are repealed.

(1) The acquisition of a business which is continued by the taxpayer and which was operated in this state during the three hundred sixty-six days prior to the date of application or the date of acquisition, whichever is later. All employees of the acquired business during such period shall be considered base-year employees, and the compensation paid during the base year or the year before acquisition, whichever is later shall be the base-year compensation. Any investment in the acquisition of such business shall be considered as being made before the date of application;

(7) The intentional employment of an unauthorized alien in violation of 8 U.S.C. 1324a(a)(1) and (2).

Sec. 4. Section 77-4107, Reissue Revised Statutes of Nebraska, is amended to read:

77-4107. (1) If the taxpayer (a) fails either to meet the required levels of employment or investment for the applicable project by the end of the sixth year after the end of the year the application was submitted for such project or to utilize such project in a qualified business at employment and investment levels at or above those required in the agreement for the entire entitlement period or (b) intentionally employs an unauthorized alien in violation of 8 U.S.C. 1324a (a)(1) and (2), all or a portion of the incentives set forth in the Employment and Investment Growth Act shall be recaptured or disallowed.

(2) The recapture or disallowance shall be as follows:

(a) In the case of a taxpayer who failed to meet the required levels within the required time period, all reduction in the personal property tax because of the Employment and Investment Growth Act shall be recaptured and any reduction in the corporate income tax arising solely because of an election under subsection (1) of section 77-4105 shall be deemed an underpayment of the income tax for the year in which the election was exercised and shall be immediately due and payable; ~~and~~

(b) In the case of a taxpayer who has failed to maintain the project at the required levels of employment and investment for the entire entitlement period, any reduction in the personal property tax, any refunds in tax allowed under subdivision (3)(a) of section 77-4105, and any refunds or reduction in tax allowed because of the use of a credit allowed under subsection (4) of section 77-4105 shall be partially recaptured from either the taxpayer or the owner of the improvement to real estate and any carryovers of credits shall be partially disallowed. One-seventh of the refunds, one-seventh of the reduction in personal property tax, and one-seventh of the credits used shall be recaptured and one-seventh of the remaining carryovers and the last remaining year of personal property tax exemption shall be disallowed for each year the taxpayer did not maintain such project at or above the required levels of employment or investment; and

(c) In the case of a taxpayer who meets the required levels of employment by unintentionally employing unauthorized aliens in violation of 8 U.S.C. 1324a (a)(1) and (2), the benefits as defined in subdivision (4)(a) of section 77-4105 shall be recaptured in proportion to the percentage of unauthorized aliens employed as part of the qualifying project's new jobs.

(3) Any refunds or reduction in tax due, to the extent required to be recaptured, shall be deemed to be an underpayment of the tax and shall be immediately due and payable.

When tax benefits were received in more than one year, the tax benefits received in the most recent year shall be recovered first and then the benefits received in earlier years up to the extent of the required recapture.

(4) Any personal property tax that would have been due except for the exemption allowed under the Employment and

Investment Growth Act, to the extent it becomes due under this section, shall be considered an underpayment of such tax and shall be immediately due and payable to the county or counties in which the property was located when exempted. All amounts received by a county under this section shall be allocated to each taxing unit levying taxes on tangible personal property in the county in the same proportion that the levy on tangible personal property of such taxing unit bears to the total levy of all of such taxing units.

(5) Notwithstanding any other limitations contained in the laws of this state, collections of any taxes deemed to be underpayments by this section shall be allowed for a period of ten years after the signing of the agreement or three years after the end of the entitlement period, whichever is later.

(6) Any amounts due under this section shall be recaptured notwithstanding other allowable credits and shall not be subsequently refunded under any provision of the Employment and Investment Growth Act unless the recapture was in error.

(7) The recapture required by this section shall not occur if the failure to maintain the required levels of employment or investment was caused by an act of God or national emergency.

Sec. 5. Section 77-4110, Reissue Revised Statutes of Nebraska, is amended to read:

77-4110. (1) The Tax Commissioner shall submit an annual report to the Legislature no later than March 15 of each year.

ATTORNEY GENERAL'S OPINION

Opinion No. 95040

DATE:	May 16, 1995
SUBJECT:	Amendments to Correct Constitutional Defects in Neb. Rev. Stat. § 49-1474.01 (Nebraska's prohibition on anonymous campaign literature).
REQUESTED BY:	Senator Kermit Brashear, District 4
WRITTEN BY:	Don Stenberg, Attorney General Steve Grasz, Deputy Attorney General

You have requested an Attorney General's Opinion concerning a series of possible amendments designed to cure constitutional infirmities in Neb. Rev. Stat. § 49-1474.01 (Nebraska's prohibition on anonymous campaign literature).[1]

On April 19, the United States Supreme Court, in McIntyre v. The Ohio Elections Commission, 63 USLW 4279, 115 S.Ct. 1511 (1995), declared a similar Ohio statute unconstitutional in that it abridged the freedom of speech in violation of the First Amendment. In Op. Att'y Gen. No. 95039 (May 15, 1995) (to the Nebraska Accountability and Disclosure Commission), we found Neb. Rev. Stat. § 49-1474.01 to be indistinguishable, in relevant part, from the Ohio statute, and concluded § 49-1474.01 is unconstitutional. A copy of that opinion is enclosed for your reference. This opinion will begin with some general comments concerning permissible regulation of election-related speech in light of McIntyre, and then address each of the five potential amendments to Neb. Rev. Stat. § 49-1474.01.

The Supreme Court's decision in McIntyre v. Ohio Elections Commission, 63 U.S.L.W. 4279, 115 S.Ct. 1511 should be narrowly construed until and unless further guidance is provided by the courts. First of all, the Supreme Court clearly limited its decision to written communications, and did not address the constitutionality of disclaimer requirements for television and radio advertisements. Id., 63 USLW at

4280, n.3 ("Section 3599.09(B) {of the Ohio statute} contains a comparable prohibition against unidentified communications uttered over the broadcast facilities of any radio or television station. No question concerning that provision is raised in this case. Our opinion, therefore, discusses only written communications and, particularly, leaflets of the kind Mrs. McIntyre distributed."). See also id. at 4286 ("Appropriately leaving open matters not presented by McIntyre's handbills. . . .") (Ginsburg, J., concurring).

In holding the Ohio statute unconstitutional, the Court concluded that "the identity of the speaker is no different from other components of the document's content that the author is free to include or exclude." Id. The Court agreed that preventing fraud and libel are important state interests, but found that Ohio had other anti-fraud statutes to address such activity. Id. at 4283-4284. The Court also stressed the breadth of the statute, in that it applied to documents that were not even arguably false or misleading; to individuals acting independently from candidates; to ballot issues as well as elections of public officers; and to materials distributed well in advance of elections. Id. at 4284. Although the Court invalidated the Ohio statute, the Court specifically recognized "that a State's enforcement interest might justify a more limited identification requirement. . . ." Id. at 4284. See also id. at 4286 (Ginsburg, J., concurring). With the foregoing in mind, each of the potential amendments to Nebraska's statute will be analyzed.

A. Amending § 49-1474.01 to Limit its Applicability to Candidate Elections.

The first potential amendment presented would amend Neb. Rev. Stat. § 49-1471.01 so as to limit its applicability to candidate elections, thereby exempting ballot issues.

The Court, in McIntyre, noted that the Federal Election Act of 1971 regulates only candidate elections, and not referenda or other issue-based ballot measures. Id. at 4285. The Court also noted that the "risk of corruption perceived in cases involving candidate elections (citation omitted) simply is not present in a popular vote on a public issue." Id. at 4284 n. 15 (quoting First Nat. Bank of Boston v. Bellolti, 435 U.S. 765, 790 (1978)). However, the Court's comments seem to refer more to the permissibility of expenditure disclosure requirements in candidate elections. See id. at 4285. The basic considerations regarding free speech would seem to be the same for all "election-related" writings, at least with regard to the writings of individuals (as discussed further below). "Advocacy of the election or defeat of candidates . . . is no less entitled to protection under the First Amendment than the discussion of political policy generally or advocacy of the passage or defeat of legislation." Buckley v. Valeo, 424 U.S. 1, 48. Consequently, we cannot conclude that limiting the applicability of § 49-1474.01 to candidate elections would cure the constitutional defect.

B. Amending § 49-1474.01 to Limit its Applicability to "Persons" as Defined in § 49-1438, except an "Individual".

The next potential amendment to § 49-1474.01 would limit its applicability by making it apply only to "persons" as defined by § 49-1438, with the exception of "individuals."

Section § 49-1438 defines "person" for purposes of the Nebraska Political Accountability and Disclosure Act. Under § 49-1438, "person" includes "a business, individual, proprietorship, firm, partnership, limited liability company, joint venture, syndicate, business trust, labor organization, company, corporation, association, committee, or other organization or group of persons acting jointly." Under § 49-1474.01, the name and address of the "person" who pays for election-related literature must appear on such matter. Any "person" who knowingly violates this provision is guilty of a Class IV misdemeanor.

The Court in McIntyre specifically pointed out that the Ohio statute "applies not only to the activities of candidates and their organized supporters, but also to individuals acting independently and using only their own modest resources." Id. at 4284-4285 (emphasis added). See also Buckley v. Valeo, 424 U.S. 1, 37 (1976). In light of the entire analysis set forth in McIntyre, it is our view that limiting the applicability of § 49-1474.01 so as to exempt individuals acting independently would likely cure the constitutional defect in the statute. Our only caution comes with regard to the inclusion, under the definition of "person" in § 49-1438, of a "group of persons acting jointly." If this is construed, for example, to compel a husband and wife, acting jointly with their next door neighbor, to print their names on pamphlets they make on their personal computer for distribution prior to a local school bond election, then it would be difficult to distinguish the free speech rights of such a "group of persons" from an individual. We note that even Mrs. McIntyre had "help provided by her son and a friend" in placing leaflets on car windshields. Id. at 4280. Yet, the Court characterized her activity as independent.

C. Amending § 49-1474.01 to Provide a Dollar Threshold Which Would Trigger the Applicability of the Statute.

The next potential amendment would provide a dollar threshold which would trigger the applicability of § 49-1474.01. Although the McIntyre decision involved an individual "using only their own modest resources," we see no permissible basis to require identification simply on the basis of the amount expended on election-related writings.

In Meyer v. Grant, 486 U.S. 414, 108 S.Ct. 1886 (1988), the Court stated, "The First Amendment protects {a citizen's} right not only to advocate their cause but also to select what they believe to be the most effective means for so doing." Id. at 1893 (striking down prohibition on paying petition circulators). The Court further stated, "Colorado also seems to suggest that it is permissible to mute the voices of those who can afford to pay petition circulators . . . 'But the concept that government may restrict the speech of some . . . in order to enhance the relative voice of others is wholly foreign to the First Amendment.' " Id. at 1894, n.7 (quoting Buckley, 424 U.S. 1, 48-49).

In short, financial ability is not a legitimate basis for restricting First Amendment free speech rights. "The First Amendment's protection against governmental abridgment of free expression cannot properly be made to depend on a person's financial ability to engage in public discussion." Buckley v. Valeo, 424 U.S. 1, 49. See also id. at 19. ("The distribution of the humblest handbill or leaflet entails printing, paper, and circulation costs.") (noting that a restriction on the amount of money a person can spend on political communication reduces the quantity of expression). This does not mean the State may not require reporting of expenditures at a threshold level.

D. Amending § 49-1474.01 by Repealing the Criminal Penalty Thereby Limiting it to Civil Enforcement.

Another potential amendment would simply repeal the criminal penalty in § 49-1474.01(3). As noted above, violation of § 49-1474.01 is currently a Class IV misdemeanor. It is our view that repealing the criminal penalty would simply transform an unconstitutional criminal statute into an unconstitutional civil statute. The Ohio statute invalidated in McIntyre carried a criminal penalty for violations. Ohio Rev. Code Ann. § 3599.09.1(C) (first degree misdemeanor). However, the criminal penalty could be imposed only if the Ohio Elections Commission decided not to issue a fine. Id. § 3599.09(C). In McIntyre, the citizen who successfully challenged the statute had simply been fined $100.00 by the Ohio Elections Commission.

The First Amendment ensures that protected speech is unhindered, not just that such speech will not be criminally prosecuted. Civil penalties can impede free speech as effectively as criminal penalties. Consequently, an amendment repealing only the criminal penalty would not cure the constitutional defect.

E. Amending § 49-1474.01 to Provide a Specific Time Period Surrounding an Election for the Applicability of the Statute.

The final potential amendment would provide a specific time period surrounding an election during which § 49-1474.01 would operate. The Court, in McIntyre, noted that the Ohio statute "applies not only to leaflets distributed on the eve of an election, when the opportunity for reply is limited, but also to those distributed months in advance." Id. at 4284. However, under the very facts before the Court, the leaflets were distributed on April 27, 1988, just prior to "an imminent referendum." Id. at 4280 (emphasis added). Consequently, we do not believe that limiting the applicability of § 49-1474.01 to a specific period of time surrounding an election would cure the violation of the First Amendment. It is unclear why the Court focused on the time issue, given that Mrs. McIntyre clearly engaged in her leafleting just prior to the election, and given that the Court's opinion already appears limited in its application to individuals such as Mrs. McIntyre.

Finally, in addition to the foregoing analysis, we would point out that the Court in McIntyre stated, "a State's enforcement interest {against fraud} might justify a more limited identification requirement. . . ." Id. at 4284. Consequently, it may be permissible for a state to require some identification (other than name and address) on election-related materials. It is not clear, however, what the Court meant by its reference to a "more limited" identification requirement, especially given the stringent test applied by the Court to such restrictions on political speech.

[1] It is the longstanding policy of the Office of the Attorney General not to provide opinions to State Senators on the constitutionality of existing statutes. See Op.Att'y Gen. No. 157 (Dec. 20, 1985). The Attorney General does, however, provide such opinions to state agencies due to their administrative responsibilities. See, infra, at 2. Under Nebraska law, "When the Attorney General issues a written opinion that an act of the Legislature is unconstitutional and any state officer charged with the duty of implementing the act, in reliance on such opinion, refuses to implement the act, the Attorney General shall . . . file an action . . . to determine the validity of the act." Neb. Rev. Stat. § 84-215 (1994). Consequently, corrective action in this legislative session would preclude the necessity (and expense) of a lawsuit testing the constitutionality of § 49-1474.01.

Sincerely yours,
DON STENBERG
Attorney General

Sec. 2. Section 77-3439, Revised Statutes Supplement, 1994, as amended by section 1, Legislative Bill 49, Ninety-fourth Legislature, First Session, 1995, is amended to read:

The increase shall be approved upon the affirmative vote of a majority of the governing body. Such vote shall be taken at a public meeting of the governing body following a special public hearing called for the purpose of receiving testimony on such proposed increase.

(2) In addition to the increase permitted by subsection (1) of this section, (a) a Community College Board of Governors may increase the anticipated aggregate receipts from property taxes by the amount necessary to pay for accessibility barrier elimination project costs and for abatement of environmental hazards as such terms are defined in section 79-4,207 and (b) the board of an educational service unit may increase the anticipated aggregate receipts from property taxes for purposes of section 79-2225. (3) In addition to the increase permitted by subsection (1) of this section, a public building commission created under sections 13-1301 to 13-1312, municipality, or county may increase the anticipated aggregate receipts from property taxes by the amount necessary to pay for accessibility barrier elimination project costs upon an affirmative vote of a majority of the governing body or of the board of commissioners. Such vote shall be taken at a public meeting of the governing body or board of commissioners following (a) a hearing called pursuant to subsection (1) of this section at which there is an opportunity for testimony on the increase proposed under this subsection or (b) a special

LEGISLATIVE RESOLUTION 159. Introduced by Withem, 14.

PURPOSE: The purpose of this interim study is to research the feasibility of providing a sales and use tax exemption to charitable organizations, organized not for profit, who provide various services to the public. Currently, such organizations are required to charge sales and use tax on a sale, lease, or rental price of property and certain services.

The study shall include, but not be limited to:

1. What types of charitable organizations and services should be included in such an exemption;
2. The benefits derived by the public in providing such a tax exempt service;
3. The fiscal impact such an exemption would have on state and local entities depending on what services and organizations are included; and
4. A review of the purpose of charitable exemptions and if the current practice of charging sales tax is contrary to their public purpose.

ATTORNEY GENERAL'S OPINION

Opinion No. 95041

DATE: May 15, 1995

SUBJECT: Investing County Hospital Surplus Funds in Mutual Funds Comprised of U.S. Government Obligations

REQUESTED BY: Senator Curt Bromm
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Timothy J. Texel, Assistant Attorney General

You have requested this office's opinion regarding the following issue: "Whether a county hospital may invest surplus funds in mutual funds comprised of U.S. Government securities and obligations?"

Due to legal considerations, it is the longstanding policy of this office to limit its formal opinions provided to the Legislature to topics which pertain to pending or possible legislation. As it was unclear from your request whether the topic about which you inquired dealt with pending or possible legislation, we contacted your office. In a telephone conversation on March 30, 1995, Mr. Perre Neilan indicated that if it is determined counties cannot invest surplus funds in U.S. Government securities mutual funds, you plan to initiate legislation to address that topic.

Although in general we believe it is permissible for counties to invest surplus funds in mutual funds comprised solely of U.S. Government obligations, before a definite answer could be given regarding any such particular investment, the mutual fund's organization and prospectus would have to be carefully examined. Probably the most important variable which must be addressed on a case-by-case basis is how the mutual fund is organized. The issue is by no means a clearly settled point of law in Nebraska, and other jurisdictions have arrived at differing conclusions.

There are several statutes affecting the determination of this issue. Neb. Rev. Stat. § 77-2315 (1990) controls the investment of county funds and allows for investment in U.S. Government bonds and U.S. Treasury notes. It states, in pertinent part:

> A county treasurer may by and with the consent of the county board invest in United States Government bonds, bonds and debentures issued either singly or collectively by any of the twelve federal land banks, the twelve intermediate credit banks, or the thirteen banks for cooperatives under the supervision of the Farm Credit Administration, United States Treasury notes, bills, or certificates of indebtedness maturing within two years from the date of purchase, or in certificates of deposit.

Another is Neb. Rev. Stat. § 77-2341(1) (Cum. Supp. 1994). The statute states:

> (1) Whenever any county, city, village, or other governmental subdivision, other than a school district, of the State of Nebraska has accumulated a surplus of any fund in excess of its current needs or has accumulated a sinking fund for the payment of its bonds and the money in such sinking fund exceeds the amount necessary to pay the principal and interest of any such bonds which become due during the current year, the governing body of such county, city, village, or other governmental subdivision may invest any such surplus in excess of current needs or such excess in its sinking fund in certificates of deposit, in time deposits, and in any securities in which the state investment officer is authorized to invest pursuant to

the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act and as provided in the authorized investment guidelines of the Nebraska Investment Council in effect on the date the investment is made. The state investment officer shall upon request furnish a copy of current authorized investment guidelines of the Nebraska Investment Council.

The Nebraska Capital Expansion Act neither authorizes nor prohibits investment in mutual funds. It deals with bank investments and related matters such as assuring all Nebraska banks and savings and loans are provided an equal opportunity to obtain state deposits. The Nebraska State Funds Investment Act's stated purpose is to formulate and establish policies to govern the practices to be followed by the state investment officer for investment of state funds. It likewise fails to specifically address mutual funds, but Neb. Rev. Stat. § 72-1246 (1990) directs that "The state investment officer shall invest in investments the nature of which individuals of prudence, discretion, and intelligence acquire or retain in dealing with the property of another . . . ."

Section 77-2341 allows state political subdivisions to invest in securities which the Nebraska Investment Council's investment guidelines authorize. The Investment Council's guidelines authorize direct investment in U.S. Government obligations (paragraph 1), U.S. Government obligations held under repurchase agreements (paragraph 6), and in investment trusts and/or companies investing in U.S. Government, government agency, and money market securities (paragraph 15). See "Nebraska Investment Council Authorized Investments" amended as of June 5, 1991.

It appears well-established that investment trusts and/or companies, referred to in Neb. Rev. Stat. § 77-2341, are mutual funds. In a footnote, the U.S. Supreme Court stated succinctly "A mutual fund is an open-end investment company" in Investment Company Institute v. Camp, 401 U.S. 617 at 625, 91 S. Ct. 1091 at 1096, (1971). See also The Mutual Fund Industry: A Legal Survey, 44 Notre Dame Law. 732 (1969); L. Loss, Fundamentals of Securities Regulation, 2d Ed. (1988); and Organization of a Mutual Fund, 49 Business Lawyer 107 (1993). Therefore, Nebraska statutes and the Investment Council's guidelines would allow county hospitals to invest in mutual funds investing in U.S. Government obligations.

The overriding control of this issue, however, necessarily resides in the Nebraska Constitution. Article XI, Section 1, of the Nebraska Constitution states:

> No City, county, town, precinct, municipality, or other sub-division of the state, shall ever become a subscriber to the capital stock, or owner of such stock, or any portion or interest therein of any railroad, or private corporation, or association.

The Constitution's language certainly prohibits a county from investing in a mutual fund when the portfolio includes stock, but it does not specifically address the issue of mutual funds solely comprised of U.S. Government obligations.

Before we can answer whether a county could invest in a mutual fund, we must first address the issue of precisely what interests an investor acquires by investing in a non-stock mutual fund. The question then becomes "Do investors in a mutual fund limited to U.S. Government obligations obtain any interest in the underlying investment trust company which operates the fund, similar to corporate stockholders?" If the courts would answer the question in the affirmative, the investment of surplus funds would be unconstitutional. If the courts would find mutual fund investors do not acquire any interest in the investment company itself, then we believe the investment would be permissible.

Most case law and other authorities which address the topic of ownership interests in mutual funds deal with stock mutual funds. They do not distinguish between diversified funds and those comprised solely of U.S. Government securities. Research failed to discover any Nebraska cases which were directly on point, but several related cases might provide insight into the factors a court would take into consideration.

In State ex rel. Johnson v. Consumers Public Power District, 143 Neb. 753, 10 N.W.2d 784 (1943), the state of Nebraska sued the Defendant power district to determine whether the public power district acted beyond its authority when it purchased all the stock of another electric company (Western Public Service Company) in order to obtain the other company's facilities and equipment. Nebraska claimed Consumers Public Power District was prohibited from purchasing Western Public Service Company's corporate stock by Article XI, §1 of the Nebraska Constitution. The Court, in finding that the constitutional provision did not prevent the purchase, stated:

> This provision of our Constitution must be construed with reference to the evils it was intended to correct or prevent. It was intended to prohibit any subdivision of the state from entering into private business by being associated as a stockholder, or by being a partner, or a part owner, in a private business venture or enterprise.

Id. at 766, 10 N.W.2d at 794.

The Court looked to the purpose of the constitutional provision prohibiting the state from owning stock in private corporations in making its decision. The purpose of purchasing all of Western Public Service Company's stock was to dissolve that company and incorporate all its equipment and facilities into the Defendant's company. The Court held that Article XI, §1 of the Nebraska Constitution was intended to prohibit the state from purchasing stock and thereby owning and operating what should be private ventures, which the Court found was not Consumers Public Power District's purpose.

Other courts have decided similarly in related cases. In Long v. Mayo, 111 S.W.2d 633 (Ky. App. 1937), the state of Kentucky wanted to obtain a bridge by purchasing all the stock in the bridge company. The Kentucky Constitution, like Nebraska's, prohibited the state from becoming a stockholder in any company, association, or corporation. The Court upheld the purchase. Just as in the Consumers Public Power

District case, the Kentucky Court looked closely at the purpose the constitutional provision was intended to serve. The purpose was found to be preventing the state from entering into or acquiring an ownership interest in private business enterprises. Since the stock acquisition was for a public purpose, namely cessation of tolls on the well-traveled bridge, the purchase was acceptable. See also People ex rel. Murphy v. Kelly, 76 N.Y. 475 (1879), and Thaanum v. Bynum Irr. Dist., 72 Mont. 221, 232 P. 528 (1925).

The Nebraska Supreme Court also dealt with Article XI, §1 of the Nebraska Constitution in Nebraska League of Savings and Loan Assns. v. Mathes, 201 Neb. 122, 266 N.W.2d 720 (1978). Regarding the constitutional provision, the Court stated:

> Approximately 40 states have similar constitutional provisions. In general, such provisions were designed to prevent the use of public funds to aid in the construction of railways, canals, and similar undertakings. The intent was to keep states and political subdivisions out of private business.

Id. at 124, N.W.2 at 722.

In Mathes, the Court dealt with whether Article XI, §1 of the Nebraska Constitution prohibited political subdivisions of the state from depositing funds in mutual savings and loan associations. In particular, the Court examined whether depositors owned an interest in the association itself. The Court went on to hold that accounts in mutual savings and loan associations constituted a proprietary interest in the association. Since the depositors had a right to share in the control of the savings and loan association, as well as its profits or losses upon liquidation, deposits by political subdivisions of the state were prohibited.

The Court found that the historical context of Article XI, §1, "impels the conclusion that it was intended to prohibit any state subdivision from acquiring any proprietary or ownership interest in any private corporation or association." The Court in Mathes also looked to the purpose of Article XI, §1 in its decision. One distinction that should be drawn is that if the savings and loans in Mathes had been stock associations, as opposed to mutual associations, then the depositors would not have acquired ownership and control interests in the savings and loan association itself, and Article XI, §1 would presumably not have prohibited such investments. See Neb. Op. Att'y Gen. No. 85-132 (September 12, 1985). Thus, the particular mutual fund in which a county desired to invest would have to be examined to determine if any ownership interests in the investment trust company was being acquired. If the trust company was a stock company, the relationship depositors hold to the investment trust company operating the mutual fund might be analogous to a bank or a stock savings and loan. The state would not acquire an ownership interest in the business itself, only in the funds on deposit in the mutual fund or bank account.

When courts review constitutional provisions preventing state purchases of capital stock, the provisions' intended purpose have been examined and applied to the circumstances. Applying this reasoning to the issue of investing in mutual funds comprised of government securities indicates the Court would look to whether such investments fall into the category of activities Article XI, §1 of the Nebraska Constitution was intended to prohibit. By investing in mutual funds comprised solely of U.S. Government securities, a subdivision of the state would not normally be entering into a private business venture or enterprise. Of course, each mutual fund is different, and we emphasize that the individual mutual fund's investment agreement and prospectus be scrutinized to ensure a county would in fact not acquire any ownership interest in the investment trust company itself.

Several other state's Attorneys General have addressed issues similar to the one posed in your opinion request. The Idaho Attorney General reviewed the constitutionality of a state statute which authorized investment in money market mutual funds limited to obligations of the U.S. Government or its agencies. Idaho has a constitutional provision very similar to Nebraska's Article XI, §1. The Idaho Attorney General's opinion found investments in U.S. Government obligation mutual funds are constitutionally permitted, as long as the state did not thereby become a stockholder in any association or corporation. It was advised that investment decisions be made on a case-by-case determination based on the intended mutual fund's organization. 85 Idaho Op. Att'y Gen. 4 (1985).

Oregon likewise has a constitutional provision prohibiting the state or its political subdivisions from becoming a stockholder in any joint company, corporation, or association. In a footnote of one opinion, the Oregon Attorney General stated that a government entity's investment in a mutual fund entirely comprised of commodities, mortgages or other non-stock investment media would be permissible. 43 Or. Op. Att'y Gen. 186 (1983). However, a later Oregon Attorney General Opinion specifically qualified the earlier opinion's statement, noting that "investment in shares issued by a mutual fund may also constitute direct ownership of stock in a joint company, corporation or association in violation of the Oregon Constitution, whether or not the mutual fund assets include stocks issued by other companies." Or. Op. Att'y Gen. (original not numbered) (March 31, 1986). The Opinion did not go on to explain why the qualification was necessary or on what it was based. Although the Oregon Attorney General concluded that cities and counties could not invest in mutual funds, it was based on an Oregon statute which did not authorize investments in mutual funds.

In comparing the two opinions, it appears the Oregon Attorney General was unable to arrive at a definite answer on the topic without having the opportunity of examining a specific mutual fund. It is not clear whether a mutual fund limited to U.S. Government obligations would be included in the later qualifying language. But on the face of the language in the second opinion, it seems the Oregon Attorney General is acknowledging the uncertainty in the area mentioned in the outset of this opinion.

Other sources have indicated that investment of state funds in U.S. Government security mutual funds may not be authorized. In a

Missouri Attorney General's opinion, it was found that a public ambulance district could not invest in mutual funds, as it would violate the portion of Missouri's Constitution similar to Article XI, §1 in Nebraska's Constitution. 88 Mo. Op. Att'y Gen. 26 (1988). The Missouri Attorney General's opinion is of limited value in our discussion, though, as it did not draw any distinction between corporate stock mutual funds and any other types. Mutual funds limited to U.S. Government securities were not discussed.

In Baum v. Investors Diversified Services, Inc., 286 F. Supp. (N.D. Ill. 1968), investors claimed an investment company's policy of reducing the "load" (administrative fee) relative to the amount of money invested was discriminatory. The suit was based on the Robinson-Patman Act, which prohibited discrimination against purchasers of commodities. Some of the language dealing with descriptions of mutual funds may apply to our issue, however. The Court stated:

> A mutual fund share is a security reflecting undivided ownership in a mutual fund company. Such shares are not traded by shareholders but are redeemable upon their request. The shareholder need pay no commission upon redemption. The value of a share is determined by dividing the total number of shares outstanding into the market value of the securities held at any given point in time. Such value is deemed the "net asset value." Each share, therefore, represents an undivided interest in the total portfolio of the mutual fund company.

Baum at 917 (emphasis added).

The Court held the investors did not actually own the securities, but only held a right to redeem their respective portion of the portfolio, and the investors held an interest in the mutual fund company itself. If the Nebraska courts adopted a similar view, investment in mutual funds comprised entirely of U.S. Government obligations may be prohibited by Article XI, §1 of the Nebraska Constitution.

In a Louisiana Attorney General's opinion, it was concluded that Louisiana statutes allowing excess funds of political subdivisions to be invested in money market mutual funds were unconstitutional. 88 La. Op. Att'y Gen. 546 (1988) The opinion was able to examine a particular mutual fund, as the state investment officer had already invested surplus funds into that fund. Just as in your inquiry, the mutual fund involved consisted of U.S. Government obligations.

The bond resolutions controlling where the funds could be deposited specifically allowed investment in direct general obligations of the United States. The Louisiana Attorney General concluded the investments violated Article VIII, §14, subsection (A) of the Louisiana Constitution, which sets out that ". . . Neither the state nor a political subdivision shall subscribe to or purchase the stock of a corporation or association or for any private purpose."

The opinion states that "Investing in a money market mutual fund in not the same as investing in a direct general obligation of the United States." The opinion cited to the Baum decision, noting that the Court there had pointed out when investing in money market mutual funds, shares are purchased in a portfolio. The investor does not thereby purchase the actual security.

The opinion also states that mutual funds typically have Boards of Trustees or fund managers, but investors are shareholders who have voting rights. The opinion concluded that the purchase of mutual fund shares by governmental subdivisions violated the Louisiana constitution "{b}ecause an investment in a mutual fund is actually the purchase of an undivided ownership in a mutual fund company, and not a purchase of the underlying securities...."

Although this reasoning would certainly be true for mutual funds investing in private stocks, we believe the organization of a mutual fund investing solely in U.S. Government securities would have to be examined to determine whether investors were in fact acquiring voting rights.

In conclusion, the issue of whether a state or any of its political subdivisions may invest in mutual funds investing solely in U.S. Government securities is unclear. Nebraska courts have not addressed the issue, and the authorities around the country which have addressed this or similar topics are divided. In our opinion, the central issue involved is what interest mutual fund investors acquire when they invest in a mutual fund comprised of U.S. Government securities. The purpose of Article XI, §1 of the Nebraska Constitution is arguably met when a county avoids mutual funds involved in corporate stocks and avoids taking any active role in operating any private business venture.

But other authorities believe investments in mutual funds, even those comprised entirely of U.S. Government securities, represent an investment in and part ownership of the mutual fund company which operates the fund. If this view would be taken by a court, then such investments would be unconstitutional in Nebraska.

We believe it is generally permissible for counties to invest surplus funds in mutual funds comprised solely of U.S. Government obligations. Before a definite answer could be given regarding investment in any particular mutual fund, its organization and prospectus would have to be carefully examined to ensure that the state or its political subdivision was not thereby acquiring an interest in the investment company.

Your office indicated that if a county could not invest in U.S. Government security mutual funds, that you would consider legislation to provide for it. Due to the constitutional basis for the potential prohibition of such investments, we believe to remove the uncertainty in the area would require a constitutional amendment to Article XI, §1, specifying that investments in management investment company portfolios limited to U.S. Government securities are permissible.

Sincerely,
DON STENBERG
Attorney General

The study will include, but not be limited to: The pros and cons of having legal counsels under the direction of the Attorney General; the policy reasons for having legal counsels under the direction of the Attorney General; a cost analysis of having legal counsels within the Attorney General's office compared to remaining within the agencies; and a comparison of Nebraska's system with other states.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 188. Introduced by Jones, 43.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 189. Introduced by McKenzie, 34; Schimek, 27.

PURPOSE: The purpose of this study resolution is to review objectives in Nebraska's family policy objectives described in sections 43-532 to 43-534 and the Juvenile Services Act as they relate to the reunification of families and children. This study will include, but not be limited to, the review of reunification policy and the priorities set forth during the decision process. These priorities should maintain that the best interests of the child, including needs and safety, are not compromised.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 190. Introduced by McKenzie, 34.

PURPOSE: The purpose of this study resolution is to provide information to the Legislature on the development and need for supplemental programs in our public schools for learners with high ability. This study shall include, but not be restricted to, the issues brought to the Legislature through LB 740, introduced during the Ninety-fourth Legislature, First Session, 1995, to change the certification requirements for an entry-level teacher or administrator. The completion of at least three semester credit hours of course work in the education of learners with high ability would be required.

Also included in the study shall be the analysis of activating a five-year to ten-year plan for the stimulation of quality programs for learners with high ability in Nebraska schools.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a select committee of the Legislature shall be selected and the State Department of Education shall conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 191. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Elmer, 44; Hall, 7; Hartnett, 45; Hudkins, 21; Robinson, 16; Will, 8.

PURPOSE: Public libraries in Nebraska may be organized and governed pursuant to several separate chapters of law, depending upon the population of the community where they are located and the will of the local governing body. This can cause confusion over the legal requirements and responsibilities in relation to both the state and the local communities. In addition, there are concerns about providing access to library service for citizens who lack access to such service and about maintaining an appropriate level of funding for public libraries. This study will include, but not be limited to, an examination of the following issues:

1. Whether all public libraries in Nebraska should be organized and governed pursuant to one set of statutory provisions;
2. Whether providing options for different forms of library organization can help in providing access to people who lack library service;
3. Methods of improving the funding of libraries in the State of Nebraska; and
4. Any other issues necessary or appropriate for a full and complete examination of this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 192. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Elmer, 44; Hall, 7; Hartnett, 45; Hudkins, 21; Robinson, 16; Will, 8.

PURPOSE: Gaming has expanded greatly in recent years in the states which border Nebraska. This includes casinos at racetracks, Native American casinos, riverboat gambling, and the use of video lottery terminals in licensed liquor establishments. Gaming in bordering states has had an impact on a number of activities in the State of Nebraska and has generated numerous questions about the appropriate response by the State of Nebraska. This study shall include, but is not limited to, an examination of the following:

1. The extent that gaming in bordering states has an impact on horseracing in the State of Nebraska;

2. The extent that gaming in bordering states has affected charitable gaming, county and city lotteries, and the state lottery;

3. The extent that gaming in bordering states has affected other businesses in the State of Nebraska, including, but not limited to, restaurants, taverns, and recreational facilities;

4. The appropriate methods of competition with gaming in other states, including whether the State of Nebraska should expand its gaming activities, the type of expansion appropriate, and the appropriate allocation of gaming devices if expansion occurs;

5. The appropriate allocation of revenue from any type of expanded gaming;

6. The appropriate methods of regulation of any type of expanded gaming; and

7. Any other matters necessary or appropriate for a full and complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 193. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Elmer, 44; Hall, 7; Hartnett, 45; Hudkins, 21; Robinson, 16; Will, 8.

PURPOSE: Charities in the State of Nebraska generated more than two hundred million dollars in wagers on various kinds of charitable gaming activities in the most recent fiscal year. The revenue generated from this activity went to support a number of charitable causes, including support of private schools, youth sports leagues, and volunteer fire departments. A number of these charitable gaming activities provided funding for activities which otherwise would have required the expenditure of state and local tax revenue. This study shall include, but not be limited to, an examination of the following:

1. The types of gaming which generate revenue for charitable purposes;

2. Whether this type of gaming is properly regulated;

3. Whether expansion of gaming in surrounding states has hurt charitable gaming;

4. Whether expansion of gaming in Nebraska will hurt charitable gaming;

5. Whether there are methods of protecting the interests of charitable gaming in Nebraska;

6. Whether there are fair, understandable, and workable methods for permitting expanded gaming activities by and for the benefit of charities; and

7. Any other matters necessary or appropriate for a complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 194. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Elmer, 44; Hall, 7; Hartnett, 45; Hudkins, 21; Robinson, 16; Will, 8.

PURPOSE: In many states, legalized gaming is governed and regulated by an appointed gaming commission. The role and authority of such a commission varies from state to state depending in part upon the type of gaming legalized in the state and the historical relationship of certain state agencies and departments in relation to that activity. This study will include, but not be limited to, an examination of the following issues:

1. The structure of gaming commissions in other states, including membership, methods of appointment, terms of office, compensation, meeting schedules, and other related issues;

2. The powers and duties of such gaming commissions, including the extent of regulatory authority, the authority to make rules and regulations, and advisory functions;

3. Whether changes in Nebraska's method of regulating legalized gaming are warranted;

4. Whether a gaming commission in Nebraska would improve the effectiveness of regulation of legalized gaming, increase public trust in the integrity of legalized gaming, lower regulatory costs, or increase revenue; and

5. Any other matters necessary or appropriate for a full and complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 195. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Elmer, 44; Hall, 7; Hartnett, 45; Hudkins, 21; Robinson, 16; Will, 8.

PURPOSE: Parimutuel wagering on horseracing at licensed racetracks has been conducted in the State of Nebraska since 1935. For many years, horseracing in Nebraska provided one of the few legalized gaming opportunities in the midwest. However, in recent years live horseracing has experienced a marked erosion in attendance and handle. Much of the decline is due to competition from other forms of gaming both within and outside of the state. There have been a number of attempts to stem the decline and assist horseracing, including reductions in state taxes and legalization of simulcasting, both interstate and intrastate. At the present time there is concern about whether licensed racetracks can continue to offer live horseracing in the State of Nebraska. This study shall include, but not be limited to, examination of the following:

1. Economic benefits of live horseracing in Nebraska;
2. The extent that other forms of gaming, both inside and outside the state, have had an impact on live horseracing in Nebraska;
3. Methods of generating revenue to increase purses at racetracks;
4. Whether expanded gaming opportunities at licensed racetracks would provide increased revenue for horseracing and attract additional fans to the sport;
5. Whether amendments to the Constitution of Nebraska are necessary or appropriate to allow licensed racetracks to develop additional revenue or to market horseracing;
6. Whether licensed racetracks conduct live horseracing on an appropriate schedule to facilitate live horseracing in the state in relation to factors of population, weather, and availability of horses; and
7. Any other issues necessary or appropriate for a full and complete examination of this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 196. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Elmer, 44; Hall, 7; Hartnett, 45; Hudkins, 21; Robinson, 16; Will, 8.

PURPOSE: In 1993, the Nebraska Supreme Court ruled in Kwik Shop v. City of Lincoln that Laws 1989, LB 781, which provided for local control over the issuance or denial of retail liquor licenses, was unconstitutionally vague and therefore constituted an impermissible delegation of legislative authority. The Attorney General has issued an opinion that Laws 1993, LB 183, based on the same provisions as Laws 1989, LB 781, is unconstitutional, based upon the same reasoning as the Kwik Shop case. These rulings have generated concern about which laws are currently applicable to various aspects of licensing and regulation of retail liquor sales because there are a number of different laws which have been enacted at different times, some of which include provisions which have been declared unconstitutional and some which have not. Legislation has been introduced in each of the last two sessions to respond to this issue, LB 1085 in 1994 and LB 355 in 1995. LB 355 has been advanced to General File. However, there were a number of issues raised during the hearing and committee deliberations. This study shall include, but not be limited to, examination of the following:

1. Appropriate roles of the Nebraska Liquor Control Commission and local governing bodies in relation to regulation of retail liquor sales;
2. Appropriate procedures to conduct hearings and appeals concerning licensing, suspension, or revocation;
3. Authority of local governing bodies to suspend and revoke liquor licenses;
4. Standards for licensees, licensed premises, and control of retail liquor sales;
5. Local zoning authority relating to retail liquor sales;
6. Appropriate levels of license fees and occupation taxes;
7. Methods of preventing underage drinking; and
8. Any other issues necessary or appropriate for a full and complete examination of this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 197. Introduced by Schmitt, 41; Dierks, 40.

PURPOSE: To examine the issues addressed by the introduction of LB 63 in the Ninety-fourth Legislature, First Session. The study shall seek to determine whether scope of practice restrictions or the definition of unprofessional conduct effectively prohibits the use of nontraditional alternatives to standard medical treatment of disease and injury by licensed medical professionals.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 198. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Elmer, 44; Hall, 7; Hartnett, 45; Hudkins, 21; Robinson, 16; Will, 8.

PURPOSE: The various types of legalized gaming in the state having differing levels of prize payout which may have an effect on the amount wagered on each type of gaming. Some of the prize payouts are based upon statutory requirements for amounts to be paid into particular funds generated by that type of gaming activity. In addition, various types of gaming are limited to certain types of locations which may also have an impact on the amount of money wagered. This study shall include, but not be limited to, the following:

1. The effect that prize payout has on the amount of money wagered on various types of gaming, including an examination of payouts in other states and industry studies;
2. The amounts of money generated by types of gaming in the State of Nebraska for particular purposes and the benefits provided by these funds;
3. Whether particular types of gaming should be limited to specific locations and the appropriate locations for specific types of gaming; and
4. Any other matters necessary or appropriate for a full and complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 199. Introduced by Pirsch, 10.

PURPOSE: To study possible responses to the recently released U.S. Justice Department report which indicated that more than one-third of felony defendants in state courts who were released prior to trial in 1992 were rearrested for a new offense or failed to appear in court. The study shall examine the effect of bail statutes and practices in Nebraska; shall evaluate how Nebraska compares to the estimated fourteen percent new offense recidivism rate found in the federal study; and shall examine any other issues deemed pertinent in evaluating how to improve public safety in the context of bail practices.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 200. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Hall, 7; Preister, 5; Robinson, 16; Schimek, 27; Will, 8.

PURPOSE: During the 1995 legislative session, the Urban Affairs Committee considered two bills, LB 73 and LB 197, which raised significant issues about the current practices of cities and villages with regard to the sale and purchase of real and personal property and the requirements for competitive bidding on various purchases. The statutes governing these municipal functions are spread throughout the various chapters and in many instances have not been reviewed or amended for many years. The purpose of this study will be to identify the statutes which control the purchasing and bidding functions of the municipalities of all types and classes, to determine whether or not they are currently in need of revision to bring them into line with modern economic conditions and generally accepted business and accounting practices, and to recommend those changes which are warranted to enable municipalities to deal more efficiently and economically with their purchasing and bid-letting functions consistent with concerns for proper accountability and the protection and good management of public funds.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. The the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 201. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Hall, 7; Preister, 5; Robinson, 16; Schimek, 27; Will, 8.

PURPOSE: One of the most important tools available for use by municipalities in their efforts to encourage new business development and expansion has been the Local Option Municipal Economic Development Act. During the course of the 1995 legislative session, the Urban Affairs Committee considered two bills which dealt with proposed amendments to the act, LB 207 and LB 436. LB 436 raised several significant issues with regard to the act which deserve further review and consideration. The purpose of this study will be to review the provisions of the Local Option Municipal Economic Development Act to determine what changes might be most appropriate to enable the act to better serve its purpose of permitting local municipalities to use local sources of revenue to encourage new business location in the community and to foster the expansion of existing businesses and industries. The study will focus most particularly on the economic development needs of Nebraska's larger cities as they relate to the act and the issues raised by LB 436.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 202. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Hall, 7; Preister, 5; Robinson, 16; Schimek, 27; Will, 8.

PURPOSE: Among the more important responsibilities of the Urban Affairs Committee is the review of the statutes governing the creation and operation of sanitary and improvement districts. These political subdivisions have played a key role in the financing and development of land for housing and industry around our state's cities and villages. During the course of the past few legislative sessions, many different issues regarding the sanitary and improvement district statutes have been raised by the introduction of legislation. Since the Urban Affairs Committee has not undertaken a major review of the statutes governing sanitary and improvement districts for several years, the purpose of this study will be a general overall review of the sanitary and improvement district statutes. It will involve efforts to seek for public comment the current status of sanitary and improvement districts and the problems they face, the investigation of current issues with regard to governance and management, and the determination of what changes to existing statutes would be appropriate to enable sanitary and improvement districts to operate more efficiently and economically consistent with proper accounting principles and prevailing economic conditions. This study will place a particular emphasis on the manner in which sanitary and improvement districts manage their financial affairs and their existing authority to levy property taxes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 203. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Hall, 7; Preister, 5; Robinson, 16; Schimek, 27; Will, 8.

PURPOSE: In keeping with the responsibility of the Urban Affairs Committee to monitor and review the regulation of natural gas service under the provisions of the Municipal Natural Gas Regulation Act, this study will undertake to deal with several aspects of the regulation process which have arisen under various proposals and legislative initiatives considered by the committee in the past few legislative sessions. In addition to a general review of the operation of the act, the study will focus on the following issues:

(1) The need for some form of public oversight of the setting of natural gas rates charged by a utility to rural customers residing outside of the boundaries of incorporated municipalities, including customers within the extraterritorial zoning jurisdiction of municipalities;

(2) The current statutes on the granting of municipal franchises to utilities for the provision of natural gas service, including the process and the terms upon which such franchises are granted, reviewed, and renewed. Consideration shall be given to the appropriateness of providing state funds, either by grant or loan, to assist municipalities in the study of applications for franchises prior to their grant or renewal, the granting of multiple franchises, and the possible incorporation of statutes providing franchise authority into the act; and

(3) The impact of current changes in the natural gas industry caused by federal regulatory changes, most particularly FERC Order 636, and the general reorganization of the industry as they affect the current regulatory process in Nebraska and the need for any statutory changes necessary to address current conditions.

The study will actively involve representatives of the natural gas industry, municipalities, and consumer and business advocate groups as well as interested members of the general public.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 204. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Hall, 7; Preister, 5; Robinson, 16; Schimek, 27; Will, 8.

PURPOSE: During the 1994 interim, the Urban Affairs Committee conducted a study of suburban development in Nebraska under the provisions of LR 341. That study resulted in the introduction of three bills by the Urban Affairs Committee in the 1995 regular session of the Legislature: LB 804, LB 805, and LB 806. These three bills dealt, in different ways, with the powers, duties, and authority of municipal boards of adjustment or boards of appeals. Because of the significance of the issues raised, the interest and concern expressed at the public hearing on the bills, and the fact that the statutes governing these bodies have not been reviewed and significantly amended for a number of years, this study is proposed to provide for a comprehensive review of the board of adjustment and board of appeals statutes and a determination of what changes would be necessary and appropriate to assist these bodies to better fulfill their important functions in the planning and zoning process. This study will place a particular emphasis on the impact of recent federal court and United States Supreme Court rulings on the planning and zoning authority granted to municipalities and how boards of adjustment and boards of appeals can address those constitutional concerns as they may relate to Nebraska law.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 205. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Hall, 7; Preister, 5; Robinson, 16; Schimek, 27; Will, 8.

PURPOSE: Of the several standing committees, the Urban Affairs Committee has perhaps the broadest and most diverse subject matter jurisdiction. Bills will quite often arise from problems in specific cities or villages in a manner which does not lend itself to early identification or classification as would be the case within the jurisdiction of other committees. More often than not these issues arise outside of the period of the regular legislative session. Recognizing this fact, the Urban Affairs Committee has, in the past six years, undertaken during the interim period a general study aimed at identifying specific problems prior to the next legislative session to permit more careful review and drafting of proposed legislation before the next legislative session begins when time constraints may make such studied review impossible. The purpose of this study will be to continue the process begun by LR 95, Ninety-First Legislature, First Session, 1989, and provide a forum during the interim period for municipalities and citizens to present issues to the committee which could be the subject of future Urban Affairs Committee legislation and to solicit the reaction of interested parties to proposals presented to the committee. The subjects available for committee consideration shall extend to any matter relevant to the committees subject matter jurisdiction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 206. Introduced by Revenue Committee: Warner, 25, Chairperson; Coordsen, 32; Hartnett, 45; Kristensen, 37; Schellpeper, 18; Wickersham, 49; Will, 8; and Hall, 7; Withem, 14.

PURPOSE: In 1995 no issue is more important to the majority of Nebraskans than property tax relief. It has become apparent over the last twenty-five years of work in this area, that the traditional approaches, including lids and state aid to political subdivisions, while effective are not sufficient in and of themselves to adequately address the concerns of Nebraskans over the long term. Frustration with the current system has led to proposals to severely limit the availability of property tax for funding public services. Included among these proposals is LR 93CA which was introduced late in the session on a 38-to-0 vote. This constitutional revision proposal, which is pending before the Revenue Committee, would dramatically reduce the number of entities allowed to independently levy property taxes and place absolute dollar and cents limits on the actual tax levy. This proposal, while simple in form, raises a number of issues which must be addressed to substantially and permanently reduce Nebraska's dependence on property tax. These issues cover a very broad spectrum of the committees organized to carry out the business of the Legislature.

Resolution of the property tax issue involves a serious look at public services in Nebraska and the methods we use to pay for them. Efforts to provide property tax relief must be directed toward achieving the following goals:

1. Restructuring local and state governmental services in Nebraska;
2. Reducing the use of property tax to finance public services; and
3. Restructuring state aid to local government and local revenue authority as is necessary to achieve goals 1 and 2.

Such a project involves a detailed examination of most governmental services and the jurisdiction and expertise of most committees of the Legislature. Coordination and execution of such a research effort is critical to delivering results that will provide property tax relief that is adequate and permanent and that can be implemented in an orderly fashion.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee consisting of the members of the Revenue Committee; the Chairpersons of the Committees on Judiciary, Transportation, Government, Military and Veterans Affairs, Education, Urban Affairs, Health and Human Services, and Natural Resources; the Chairperson of the Executive Board of the Legislative Council; and the

Speaker of the Legislature be designated to coordinate the research undertaken pursuant to this project.

2. That the committee compile the research undertaken pursuant to this project into a report to be submitted to the Legislative Council or the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 207. Introduced by Warner, 25; Bohlke, 33.

Coordination and execution of such a research effort is critical to delivering results that will provide property tax relief that is adequate and permanent and that can be implemented in an orderly fashion.

Included among the issues which must be faced is the ability of school districts to provide an adequate education under the constraints of a one dollar per one hundred dollars of valuation constitutional limit on property taxes for schools, changes in the state aid formula which would have to be made to accommodate such a limit, and the proper role and financing of educational service units and community colleges.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 208. Introduced by Warner, 25; Wesely, 26.

PURPOSE: In 1995 no issue is more important to the majority of Nebraskans than property tax relief. It has become apparent over the last twenty-five years of work in this area, that the traditional approaches, including lids and state aid to political subdivisions, while effective are not sufficient in and of themselves to adequately address the concerns of Nebraskans over the long term. Frustration with the current system has led to proposals to severely limit the availability of property tax for funding public services. Included among these proposals is LR 93CA which was introduced late in the session on a 38-to-0 vote. This constitutional revision proposal, which is pending before the Revenue Committee, would dramatically reduce the number of entities allowed to independently levy property taxes and place absolute dollar and cents limits on the actual tax levy. This proposal, while simple in form, raises a number of issues which must be addressed to substantially and permanently reduce Nebraska's dependence on property tax. These issues cover a very broad spectrum of the committees organized to carry out the business of the Legislature.

Resolution of the property tax issue involves a serious look at public services in Nebraska and the methods we use to pay for them. Efforts to provide property tax relief must be directed toward achieving the following goals:

1. Restructuring local and state governmental services in Nebraska;
2. Reducing the use of property tax to finance public services; and
3. Restructuring state aid to local government and local revenue authority as is necessary to achieve goals 1 and 2.

Such a project involves a detailed examination of most governmental services and the jurisdiction and expertise of most committees of the Legislature. Coordination and execution of such a research effort is critical to delivering results that will provide property tax relief that is adequate and permanent and that can be implemented in an orderly fashion.

Included among the issues which must be addressed is the possibility of regional, cooperative, or state financed delivery of local human services as a method of helping to achieve the levy limits proposed by LR 93CA.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 224. Introduced by Kristensen, 37.

PURPOSE: In 1992 the Legislature with the passage of LB 291 joined thirty other states in the enactment of an administrative license revocation procedure for individuals arrested on suspicion of drunken driving. Since January 1, 1993, the administrative license revocation procedures have provided protection to the public by quickly removing from the road individuals who show a propensity to drive drunk and has additionally served as an effective deterrent to prevent drunken driving.

In 1994, the United States Supreme Court through the holding in Department of Revenue of Montana v. Kurth Ranch, raised questions at the national level regarding the applicability of the constitutional doctrine of double jeopardy as applied to a criminal prosecution for driving under the influence of alcohol following the initiation of the administrative license revocation process.

The Nebraska Supreme Court has recently decided to hear appeals of two cases involving the Nebraska administrative license revocation procedures and the applicability of the double jeopardy clause. The purpose of this study is to monitor the appeals of the cases State v. Young and State v. Russell, in the Nebraska Supreme Court.

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

(2) On October 1, 1995, six full-time employees shall be eliminated from the permanency plan review unit of the Department of Social Services and the department shall transfer all federal matching funds obtained from the six-month case reviews conducted by the state board in the Omaha and North Platte areas under the federal Adoption Assistance and Child Welfare Act of 1980, Public Law 96-272.

Sec. 2. Section 43-1302, Reissue Revised Statutes of Nebraska, is amended to read:

43-1302. (1) The State Foster Care Review Board shall be comprised of nine members to be appointed by the Governor, subject to confirmation by a majority of the members elected to the Legislature. In addition to the six members representative of the congressional districts, three members shall be appointed by the Governor from a group consisting of all the chairpersons of the local boards, and one such chairperson shall be appointed from each such congressional district. The appointment of a member of a local board to the state board shall not create a vacancy on the local board. Members other than those appointed from the group consisting of all the chairpersons of the local boards shall be appointed to three-year terms, and those members appointed from the group consisting of all the chairpersons of local boards shall be appointed to two-year terms. No person shall serve on the state board for more than six consecutive years. No person employed by a child-caring agency, a child-placing agency, or a court shall be appointed to the state board.

(2) The state board shall select a chairperson, vice-chairperson, and such other officers as the state board deems necessary. Members of the state board shall be reimbursed for their actual and necessary expenses as provided in sections 81-1174 to 81-1177. The state board shall employ or contract for services from such persons as are necessary to aid it in carrying out its duties.

(3) The state board shall be responsible for the conduct of periodic reviews which shall be identified as reviews which meet the federal requirements for six-month case reviews pursuant to the federal Adoption Assistance and Child Welfare Act of 1980, Public Law 96-272. The state board shall be fiscally responsible for any noncompliance sanctions imposed by the federal government related to the manner in which the state board carries out such duties. It is the intent of the Legislature that beginning October 1, 1995, the state board shall have the exclusive right and responsibility to conduct six-month case reviews pursuant to the federal Adoption Assistance and Child Welfare Act of 1980, Public Law 96-272, in the Omaha and North Platte areas.

(4) It is also the intent of the Legislature that any six-month court review of a juvenile pursuant to sections 43-278 and 43-1313 shall be identified as a review which meets the federal requirements for six-month case reviews pursuant to the federal Adoption Assistance and Child Welfare Act of 1980, Public Law 96-272.

(5) The state board may assist the Department of Social Services as to eligibility under Title IV-E for state wards and eligibility for Supplemental Security Income, Supplemental Security Disability Income, Veterans Administration, or Aid to Families with Dependent Children benefits, for child support orders of the court, and for medical insurance other than medicaid.

(6) Between October 1, 1996, and January 1, 1997, a review of the state board's singular presence in the Omaha and North Platte areas shall be completed by the Program Performance Evaluation Committee. This review shall include a determination of the state board's timely performance in meeting federal guidelines; a cost analysis of their case reviews; an analysis as to the quality of reviews; and the effectiveness of such reviews on the children within the state foster care system.

(7) On or before January 1, 1997, the Program Performance Evaluation Committee shall make findings and recommendations to the Legislature as to the areas noted in subsection (6) of this section.

(8) On April 1, 1997, four full-time employees shall be added to the state board to ensure that all children in foster care in the remaining areas of the state receive six-month case reviews by the state board pursuant to the federal Adoption Assistance and Child Welfare Act of 1980, Public Law 96-272.

(9) On April 1, 1997, the permanency plan review unit of

the Department of Social Services shall be eliminated and the department shall transfer all federal funds obtained under the federal Adoption Assistance and Child Welfare Act of 1980, Public Law 96-272, for such six-month case reviews of state wards to the state board.

LEGISLATIVE RESOLUTION 230. Introduced by McKenzie, 34; Bernard-Stevens, 42.

PURPOSE: The purpose of this study resolution is to provide counsel and cohesion to the review, examination, and reporting procedures proposed in Legislative Bill 742, Ninety-fourth Legislature, First Session, 1995. This study will be conducted by a select committee of the Legislature, both independently and in conjunction with the State Department of Education, the School Finance Review Committee, and the Special Education Accountability Commission.

LB 742 was introduced during the Ninety-fourth Legislature, First Session, 1995, to identify cost-containment strategies for special education aid growth. The State Department of Education was assigned to review existing rules and regulations relating to special education. A report to the Education Committee of the Legislature is due June 1, 1996, with recommendations for state laws, rules, and regulations that could be repealed, modified, or retained. LB 742 also assigned responsibility to the Special Education Accountability Commission, the School Finance Review Committee, the State Department of Education, and the Education Committee of the Legislature to provide a report, due June 1, 1996, in regard to the implementation of a block grant system to replace the existing excess cost reimbursement provisions for the funding of special education programs. The select committee shall coordinate the review process and study instructions outlined in LB 742.

Other issues addressed shall include: Cost sharing of damages; attorney fees; fines and expenses paid by or on behalf of a school district or board of education from litigation arising from a provision of the Special Education Act; and issues relating to relief of excessive budgetary pressure placed on a school district from unanticipated growth.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

3. An examination of how telecommunications technology and virtual networks can be utilized within state government to decrease centralization;
4. An examination of how to provide access to services; and
5. An evaluation of the centralization of federal government operations which impact Nebraska and an assessment of the impacts of federal centralization within the state.

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 235. Introduced by Wesely, 26.

PURPOSE: Nebraska's efforts to attract economic development and to provide for the general well-being of the state's citizens depend on the availability of affordable housing. Current economic conditions and declining support from all levels of government, especially in smaller rural communities, are adversely affecting the ability of Nebraska's citizens to obtain safe, decent, and affordable housing. The creation of the Affordable Housing Trust Fund is a possible solution.

An Affordable Housing Trust Fund study would examine:

1. Housing needs across the state, including the need for new construction of both medium and low-income housing, the increased

availability of rental units, and the rehabilitation of deteriorating homes;

2. Whether current housing programs address identified needs; and

3. The revenue sources devoted to housing development by other states and the feasibility of applying those sources to Nebraska's revenue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 236. Introduced by Wesely, 26.

PURPOSE: The purpose of this study is to determine if law enforcement can effectively protect the public from firearm crimes. The study should examine whether local police forces and county sheriff's offices can enforce their statutory duty to deny handgun certificates to those people found to be adjudicated mentally ill. The study should also examine the threat posed by the possession of firearms on public grounds. Additionally, the study shall address, but not be limited to:

1. The number of handgun certificates denied to people found to be adjudicated mentally ill each year by county and city law enforcement;

2. What methods each law enforcement agency uses to determine who is ineligible for handgun certificates due to a disqualifying mental illness;

3. Whether a central database accessible to the Nebraska State Patrol would help county and local law enforcement in this effort;

4. The number of firearm crimes committed on land or in buildings owned by the State of Nebraska and other governmental subdivisions; and

5. The frequency of these crimes in other states and those states' response, including legislation considered.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 237. Introduced by Wesely, 26.

PURPOSE: This study proposes to examine incarceration of violent criminals and the means available to law enforcement for the prevention of subsequent violent crimes upon release from incarceration. The study shall investigate, but not be limited to, these topics:

1. The average length of sentence and actual incarceration time of persons convicted of committing violent crimes, such as murder, sexual assault, assault, and robbery;
2. The recidivism rate of violent offenders, the resulting sentences, and the actual length of incarceration;
3. Potential options to be pursued by government and law enforcement to keep violent criminals in jail or secure settings, such as the enactment of sexually violent predator laws, the enactment of sex offender and violent criminal registration acts, the imposition of mandatory minimum sentences for violent offenders, the effect of overcrowding on the early release of violent criminals, and the effect of prosecutorial discretion and the plea bargaining process; and
4. The options for rehabilitation of violent criminals attempted in other states including provisions for citizen protection in rehabilitation efforts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 238. Introduced by Wesely, 26; Wickersham, 49; Hall, 7.

PURPOSE: States have adopted leading roles in attracting new jobs. These efforts have created competition between the states to attract companies by offering increasingly exorbitant economic incentives, mostly in the form of tax abatement. Tax abatements strain state budgets by eroding the tax base and forcing states to make long-term commitments to businesses that are frequently at the expense of other state needs. Therefore, efforts at economic development which do not rely on tax abatements could greatly enhance Nebraska's economic competitiveness without reducing state revenue.

This study proposes an examination of the effectiveness of the economic development efforts of other states that emphasize education, worker training, the enhancement of university research and application, infrastructure improvements, and the development of state-led foreign trade opportunities.

In addition, this study should examine cost-benefit models to measure the net return to the state of tax incentive programs should be researched. This portion of the study should include a thorough examination of the following: The methodologies that should be used or considered and their application; the economic measures and factors that should be used in developing the model; the role of the business community, the academic community, and the public sector in creating the model; the branch or agency of government which controls the model; and whether the model's use is advisory or restrictive in the state's decisionmaking process.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 239. Introduced by Dierks, 40.

PURPOSE: That the workload and areas of jurisdiction for the Agriculture Committee of the Legislature be studied, with the possibility of expanding its jurisdiction to include such areas as ethanol fuels, renewable energy, economic development, and irrigation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Executive Board of the Legislative Council of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 240. Introduced by Wesely, 26.

PURPOSE: The purpose of this study is to examine the impact of legislation passed in 1994 by the Legislature to change homestead exemption provisions. The 1994 changes should be reviewed in light of the recent efforts at statewide property revaluation. Specifically this study should determine the number of elderly who lost or had their homestead exemption reduced, the average increases in home values and tax levies, and the average change in property taxes paid by senior citizens.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 242. Introduced by Withem, 14.

PURPOSE: To study the overall standing committee system of the Legislature. There has been no significant study of the structure of the standing committee system since 1985. Issues confronting the Legislature have become more multi-dimensional which raises some questions as to the appropriate committee to which the proposal should be referred for public hearing. There appears to be disparity, if not inequity, in the current workloads of the various standing committees. The Nebraska Retirement Systems Committee is a standing committee, but unlike other standing committees, has no permanently assigned meeting time. The commitment of resources to standing committees especially in the area of human resources has not been examined for a long time. The Executive Board of the Legislative Council has served as the Reference Committee since 1971 and is also responsible for supervising all services and service personnel as may be needed to carry out the activities of the Legislature. Taking the above into consideration, a comprehensive study of the standing committee system should include, but not be limited to, assigned meeting times, referencing, human resources committed to the work of the committees, and the operating structure of committees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Executive Board of the Legislative Council shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Executive Board shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature prior to the start of the 1996 legislative session.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 243. Introduced by Preister, 5.

PURPOSE: The purpose of this resolution is to review the current statutes, rules, and regulations regarding the liability provisions and funds established for remediation and long-term care of low-level radioactive waste.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 244. Introduced by Preister, 5.

1. An examination of the current laws governing radiation control and related activities, including the Radiation Control Act;
2. A review of model legislation regarding radiation control activities; and

3. A review of the current structure of radiation control activities and their functions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Sec. 25. The Department of Correctional Services shall develop and implement a boot camp to commence July 1, 1997, for adult criminal offenders. It is the intent of the Legislature that the boot camp serve to reduce prison overcrowding and to make prison bed space available for violent offenders. It is the further intent of the Legislature that the boot camp serve the interests of society by promoting the rehabilitation of offenders and by deterring offenders from engaging in further criminal activity. To accomplish these goals, the boot camp shall provide structured programming, including any of the following: Work programs, vocational training, behavior management and modification, money management, substance abuse awareness, counseling, or treatment, or other education and programming needs, which will increase the offender's abilities to lead a law-abiding, productive, and fulfilling life as a contributing member of a free society.

Sec. 26. (1) It is the intent of the Legislature that the court target the felony offender (a) who is experiencing his or her first prison sentence, (b) for whom the court finds that other forms of probation are not suitable, and (c) who, without the existence of a boot camp, would have gone to prison. It is the further intent of the Legislature that prior incarcerants for minor nonviolent offenses are not automatically ineligible to be sentenced to boot camp. It is also the intent of the Legislature that the offender convicted of a violent crime is not eligible to be sentenced to boot camp.

(2) When the court is of the opinion that imprisonment may be appropriate but that a brief and intensive period of incarceration may better serve the interests of society, the court may sentence an offender to a boot camp, which shall be a form of probation. The court may consider such commitment if the offender (a) is a male or female offender who is convicted as an adult, (b) has a maximum sentence of ten years or less, (c) is determined to be medically and mentally fit to participate, with allowances given for reasonable accommodation, (d) has not previously been incarcerated for a violent felony crime, and (e) has not demonstrated chronic violent behavior. Offenders convicted of a crime under sections 28-319 to 28-321 or of any capital crime are precluded from being sentenced to boot camp.

Sec. 27. Upon successful completion of the boot camp program, as determined by the Department of Correctional Services, the sentencing court may place the offender on an appropriate form of probation or discharge the offender.

Sec. 28. If the offender for any reason fails to successfully complete the boot camp program, the sentencing court may impose any other sentence that the court may have originally imposed. Credit shall be given for time actually served in the boot camp program.

"Section 1. Section 43-504, Reissue Revised Statutes of Nebraska, is amended to read:

43-504. (1) The term dependent child shall mean a child under the age of eighteen years, or under the age of nineteen if he or she is a full-time student in a secondary school or in the equivalent level of vocational or technical training, and if, before he or she attains age nineteen, he or she may reasonably be expected to complete the program of such secondary school or such training, who has been deprived of parental support or care by reason of the death, continued absence from the home, or physical or mental incapacity of a parent, or partial or total unemployment of the supporting parent, and who is living with his or her father, mother, grandfather, grandmother, brother, sister, stepfather, stepmother, stepbrother, stepsister, uncle, aunt, first cousin, nephew, or niece, in a place of residence maintained by one or more of such relatives as his, her, or their own home, or who has been removed from the home of such relative as a result of judicial determination to the effect that continuation therein would be contrary to the welfare of such child with placement of such child in a foster family home or child care institution as a result of such determination when the state, any court having jurisdiction of such child, or the county social services agency is responsible for the care and placement of such child and one of the following conditions exists: (a) Such child received aid from the state in or for the month in which court proceedings leading to such determination were initiated; (b) such child would have received assistance in or for such month if application had been made therefor; or (c) such child had been living with such a relative specified in this subsection at any time within six months prior to the month in which such proceedings were initiated and would have received such aid in or for the month that such proceedings were initiated if in such month the child had been living with, and removed from the home of, such a relative and application had been made therefor.

(2) ~~In~~ Except as provided in subdivision (2)(b) of section 68-1724, in awarding aid to dependent children payments, the term dependent child shall include an unborn child but only during the last three months of pregnancy. ~~children. As soon as it is medically determined that pregnancy exists, application may be made for initial eligibility or for an increase in an existing unit budget. Payments which do not meet applicable criteria established by federal law for pregnant women and unborn children shall be made from state funds. Only for the purpose of meeting federal requirements, a~~ A pregnant woman may be eligible but only (a) if it has been medically verified that the child is expected to be born in the month such payments are made or expected to be born within the three-month period following such month of payment and (b) if such child had been born and was living with her in the month of payment, she would be eligible for aid to families with dependent children. As soon as it is medically determined that pregnancy exists, a pregnant woman who meets the other requirements for aid to dependent children shall be eligible for medical assistance.

(3) A physically or medically handicapped child shall mean a child who, by reason of a physical defect or infirmity, whether congenital or acquired by accident, injury, or disease, is or may be expected to be totally or partially incapacitated for education or for remunerative occupation.

~~(4) Notwithstanding subsection (2) of this section, commencing December 1, 1992, through June 30, 1995, in awarding aid to dependent children payments, the term dependent child shall include an unborn child, but only during the last three months of pregnancy.~~

Sec. 5. The Legislature finds that it is in the best interests of the State of Nebraska to have health care services available to as many Nebraskans as possible. The Legislature further finds that the medical assistance program established in sections 68-1018 to 68-1025, also known as medicaid, should be utilized to the extent possible under federal law in order to provide health care for low-income children and families in Nebraska. The Legislature further finds this goal can be met in part by providing prenatal care to pregnant women and care to infants at the maximum level allowed by federal law. Such persons qualify for care if the family income is less than or equal to one hundred fifty percent of the federal Office of Management and Budget income poverty guidelines. It is the intent of this section and section 68-1020 to provide such health care services.

Sec. 6. Section 68-1020, Reissue Revised Statutes of Nebraska, is amended to read:

68-1020. (1) Medical assistance shall be paid on behalf of dependent children, aged persons, blind individuals, and disabled individuals, as defined in sections 43-504 and 68-1002 to 68-1005, and on behalf of all individuals less than twenty-one years of age who are eligible under section 1905(a) of the Social Security Act, as amended.

(2) The Director of Social Services shall ~~provide, through rule and regulation,~~ adopt and promulgate rules and regulations governing provision of such medical assistance benefits to qualified individuals:

(a) Who are presumptively eligible as allowed under ~~section 9407, Public Law 99-509, 100th Congress, 1986~~ 42 U.S.C. 1396a, as amended; or

(b) Who have income at or below one hundred fifty percent of the Office of Management and Budget ~~Budget's~~ income poverty guidelines, without regard to resources, including children up to such age as allowed under ~~section 9401, Public Law 99-509, 100th Congress, 1986~~ 42 U.S.C. 1396a, as amended.

Sec. 21. The Legislature finds that welfare reform and the prevention of poverty are the responsibility of both the public and the private sectors and that low-income Nebraskans will best attain and maintain economic self-sufficiency through the job market. The Governor shall establish the Governor's Roundtable composed of current and former welfare recipients and leaders from business, industry, labor, and government. The Governor's Roundtable, in conjunction with the community colleges, state colleges, University of Nebraska, Department of Economic Development, State Department of Education, Department of Labor, Department of Revenue, and Department of Social Services, shall analyze the job needs and training needs of business, industry, and labor in Nebraska. On the basis of this analysis, the Governor's Roundtable shall recommend processes, strategies, and resources for linking the unemployed and underemployed with training or jobs that pay a living wage. The Governor's Roundtable shall also make recommendations pertaining to job creation, tax incentives, unemployment compensation, education and training programs, child care, and health care to assist low-income Nebraskans to attain and maintain economic self-sufficiency. Such recommendations, including any necessary legislation, shall be presented to the Governor and the Legislature not later than December 1 of each year.

Sec. 22. The Department of Labor shall (1) study and make recommendations on adjusting the minimum wage in Nebraska to account for increases in the cost of living, (2) catalog all existing job training resources and programs in Nebraska, and (3) study the availability of jobs in each area of the state, identify the number of jobs available, the type of jobs available, and the pay and benefits associated with the available jobs. These studies and recommendations shall be presented to the Governor's Roundtable.

Sec. 23. (1) The Legislature finds that (a) technology in delivering government assistance is rapidly changing, (b) such technology includes electronic benefit transfer systems, (c) major improvements have been made to electronic benefit transfer systems to lower costs and increase accountability, (d) such systems are being developed on the federal and nationwide levels, and (e) Nebraska should study and consider being a part of a national electronic benefit transfer system.

(2) The Governor shall appoint a task force consisting of one representative each of the Office of the Governor, the Department of Banking and Finance, the Department of Social Services, and the banking industry, two representatives of the electronic transfer system industry, three representatives of the retail grocery industry, and two persons currently receiving public assistance benefits. The chairpersons of the Banking, Commerce and Insurance Committee and the Health and Human Services Committee of the Legislature shall also be members of the task force. The task force shall study and make recommendations for an electronic benefit transfer system to deliver the most economic method for distribution of public assistance benefits. The study and recommendations shall be presented to the Legislature on or before December 1, 1995.".

It is the intent of the Legislature:

(1) To encourage the use of proven techniques for the enforcement of support orders;

(2) To encourage such license holders to comply with

their legal obligations and to add to the tools available for the enforcement of support and visitation orders; and

(3) That the Department of Social Services communicate to individuals, who are not in compliance with a support order, the potential for impoundment of their motor vehicle operator's license under section 2 of this act.

Sec. 2. In any proceeding when a court has ordered a parent to pay, temporarily or permanently, any amount to the clerk of the district court for the support of a minor child, the court in enforcing its support order may use its contempt powers. Such contempt powers include ordering the impounding of a motor vehicle operator's license as specified by the court and ordering that the license holder not operate a motor vehicle during the period of impoundment. The court may use contempt powers to enforce its court orders relating to visitation. "Section 1. Section 43-504, Reissue Revised Statutes of Nebraska, is amended to read:

43-504. (1) The term dependent child shall mean a child under the age of eighteen years, or under the age of nineteen if he or she is a full-time student in a secondary school or in the equivalent level of vocational or technical training, and if, before he or she attains age nineteen, he or she may reasonably be expected to complete the program of such secondary school or such training, who has been deprived of parental support or care by reason of the death, continued absence from the home, or physical or mental incapacity of a parent, or partial or total unemployment of the supporting parent, and who is living with his or her father, mother, grandfather, grandmother, brother, sister, stepfather, stepmother, stepbrother, stepsister, uncle, aunt, first cousin, nephew, or niece, in a place of residence maintained by one or more of such relatives as his, her, or their own home, or who has been removed from the home of such relative as a result of judicial determination to the effect that continuation therein would be contrary to the welfare of such child with placement of such child in a foster family home or child care institution as a result of such determination when the state, any court having jurisdiction of such child, or the county social services agency is responsible for the care and placement of such child and one of the following conditions exists: (a) Such child received aid from the state in or for the month in which court proceedings leading to such determination were initiated; (b) such child would have received assistance in or for such month if application had been made therefor; or (c) such child had been living with such a relative specified in this subsection at any time within six months prior to the month in which such proceedings were initiated and would have received such aid in or for the month that such proceedings were initiated if in such month the child had been living with, and removed from the home of, such a relative and application had been made therefor.

(2) ~~In~~ Except as provided in subdivision (2)(b) of section 68-1724, in awarding aid to dependent children payments, the term dependent child shall include an unborn child but only during the last three months of pregnancy. ~~children. As soon as it is medically determined that pregnancy exists, application may be made for initial eligibility or for an increase in an existing unit budget. Payments which do not meet applicable criteria established by federal law for pregnant women and unborn children shall be made from state funds. Only for the purpose of meeting federal requirements, a~~ A pregnant woman may be eligible but only (a) if it has been medically verified that the child is expected to be born in the month such payments are made or expected to be born within the three-month period following such month of payment and (b) if such child had been born and was living with her in the month of payment, she would be eligible for aid to families with dependent children. As soon as it is medically determined that pregnancy exists, a pregnant woman who meets the other requirements for aid to dependent children shall be eligible for medical assistance.

(3) A physically or medically handicapped child shall mean a child who, by reason of a physical defect or infirmity, whether congenital or acquired by accident, injury, or disease, is or may be expected to be totally or partially incapacitated for education or for remunerative occupation.

~~(4) Notwithstanding subsection (2) of this section, commencing December 1, 1992, through June 30, 1995, in awarding aid to dependent children payments, the term dependent child shall include an unborn child, but only during the last three months of pregnancy.~~

Sec. 5. The Legislature finds that it is in the best interests of the State of Nebraska to have health care services available to as many Nebraskans as possible. The Legislature further finds that the medical assistance program established in sections 68-1018 to 68-1025, also known as medicaid, should be utilized to the extent possible under federal law in order to provide health care for low-income children and families in Nebraska. The Legislature further finds this goal can be met in part by providing prenatal care to pregnant women and care to infants at the maximum level allowed by federal law. Such persons qualify for care if the family income is less than or equal to one hundred fifty percent of the federal Office of Management and Budget income poverty guidelines. It is the intent of this section and section 68-1020 to provide such health care services.

Sec. 6. Section 68-1020, Reissue Revised Statutes of Nebraska, is amended to read:

68-1020. (1) Medical assistance shall be paid on behalf of dependent children, aged persons, blind individuals, and disabled individuals, as defined in sections 43-504 and 68-1002 to 68-1005, and on behalf of all individuals less than twenty-one years of age who are eligible under section 1905(a) of the Social Security Act, as amended.

(2) The Director of Social Services shall ~~provide, through rule and regulation,~~ adopt and promulgate rules and regulations governing provision of such medical assistance benefits to qualified individuals:

AM2464

(Amendments to AM2405 (FA271))

1. On page 1, line 1, strike "section 1" and insert "sections 1 and 13".

2. Insert the following new section:

"Sec. 16. Section 68-1724, Revised Statutes Supplement, 1994, is amended to read:

68-1724. (1) Cash assistance shall be provided for a period or periods of time not to exceed a total of two years for recipient families with children subject to the following:

(a) If the state fails to meet the specific terms of the self-sufficiency contract developed under section 68-1719, the two-year time limit established in this section shall be extended for an additional period of not more than two years;

(b) The two-year time period for cash assistance shall begin when the self-sufficiency contract is signed or when any children born into the recipient family prior to the initial ten months of assistance reach the age of six months, whichever is later;

(c) When no longer eligible to receive cash assistance, assistance shall be available to reimburse work-related child care expenses even if the recipient family has not achieved economic self-sufficiency. The amount of such assistance shall be based on a cost-shared plan between the recipient family and the state which shall provide assistance up to one hundred eighty-five percent of the federal poverty level for up to twenty-four months. A recipient family may be required to contribute up to twenty percent of such family's gross income for child care. It is the intent of the Legislature that transitional health care coverage be made available on a sliding-scale basis to individuals and families with incomes up to one hundred eighty-five percent of the federal poverty level if other health care coverage is not available;

(d) After receiving cash assistance under this section for two years at a monthly payment level not exceeding that provided in section 43-512, families shall receive no further cash assistance pursuant to this section for at least two years after the assistance period ends; and

(e) The self-sufficiency contract shall be revised and the two-year time period for cash assistance extended when there is no job available for adult members of the recipient family. It is the intent of the Legislature that available job shall mean a job which results in an income of at least equal to the amount of cash assistance that would have been available if receiving assistance minus unearned income available to the recipient family.

The department shall develop policy guidelines to allow for cash assistance to persons who have received the maximum cash assistance provided by this section and who face extreme hardship without additional assistance. For purposes of this section, extreme hardship means a recipient family does not have adequate cash resources to meet the costs of the basic needs of food, clothing, and housing without continuing assistance or the child or children are at risk of losing care by and residence with their parent or parents.

(2) Cash assistance conditions under the Welfare Reform Act shall be as follows:

(a) Adults in recipient families shall mean individuals at least nineteen years of age living with and related to a child eighteen years of age or younger and shall include parents, siblings, uncles, aunts, cousins, or grandparents, whether the relationship is biological, adoptive, or step;

(b) The payment standard shall be based upon family size. ~~Any~~ On and after July 1, 1997, any child born into the recipient family after the initial ten months of participation in the program shall not increase the cash assistance payment, except that child support or other income received on behalf of such child or children shall not be considered as countable income to the recipient family in determining the amount of their cash assistance payment;

(c) The adults in the recipient family shall ensure that the minor children regularly attend school. Education is a valuable personal resource. The cash assistance provided to the recipient family may be reduced when the parent or parents have failed to take reasonable action to encourage the minor children of the recipient family ages sixteen and under to regularly attend school. No reduction of assistance shall be such as may result in extreme hardship. It is the intent of the Legislature that a process be developed to insure communication between the case manager, the parent or parents, and the school to address issues relating to school attendance;

(d) Two-parent families which would otherwise be eligible under section 43-504 or a federally approved waiver shall receive cash assistance under this section;

(e) For minor parents, the assistance payment shall be based on the minor parent's income. If the minor parent lives with at least one parent, the family's income shall be considered in determining eligibility and cash assistance payment levels for the minor parent. If the minor parent lives independently, support shall be pursued from the parents of the minor parent. If the absent parent of the minor's child is a minor, support from his or her parents shall be pursued. Support from parents as allowed under this subdivision shall not be pursued when the family income is less than three hundred percent of the federal poverty guidelines; and

(f) For adults who are not biological or adoptive parents or stepparents of the child or children in the family, if assistance is requested for the entire family, including the adults, a self-sufficiency contract shall be entered into as provided in section 68-1719. If assistance is requested for only the child or children in such a family, such children shall be eligible after consideration of the family's income and if (i) the family cooperates in pursuing child support and (ii) the minor children of the family regularly attend school.".

3. Amend the operative date and repealer provisions so that section 16 added by this amendment becomes operative on its effective date with the emergency clause.

4. Renumber the remaining sections and correct internal references accordingly.

"Section 1. Section 50-419, Reissue Revised Statutes of Nebraska, is amended to read:

50-419. (1) The Legislative Fiscal Analyst shall provide fiscal and budgetary information and assistance to the Legislature and the Appropriations Committee. During sessions of the Legislature he or she shall work under the direction of the Appropriations Committee of the Legislature. During the interim between legislative sessions he or she shall work under the direction of the Executive Board of the Legislative Council.

The Legislative Fiscal Analyst shall provide:

(a) Factual information and recommendations concerning the financial operations of state government;

(b) Evaluation of the requests for appropriations contained in the executive budget and recommendations thereon;

(c) Studies of capital outlay needs for the orderly and coordinated development of state institutions and institutional programs authorized, if not otherwise provided by law; and

(d) Plans for legislative appropriation and control of funds, with presession analysis of budgetary requirements.

(2) His or her duties shall also include examining or auditing functions or services authorized by the Legislature to determine if funds are expended according to legislative intent and whether improvements in organization and performance are possible. The examining function shall also include the appraisal of functions for needed reforms.

(3) His or her duties shall be to coordinate his or her

activities with the budget officer of the Department of Administrative Services.

(4) All information and reports of the fiscal analyst and Appropriations Committee shall be available to any and all members of the Legislature.

(5) The Legislative Fiscal Analyst shall provide revenue-forecasting information and assistance to the Legislature, the Revenue Committee of the Legislature, and the Appropriations Committee of the Legislature. For the purposes of this subsection, he or she shall work under the direction of the Revenue Committee of the Legislature and the Appropriations Committee of the Legislature. The revenue-forecasting information provided under this subsection shall include:

(a) The estimated revenue receipts for each year of the following biennium;

(b) General Fund reserve requirements;

(c) A list of express obligations; and

(d) A summary of economic conditions affecting the State of Nebraska.

(6) The Legislative Fiscal Analyst and the Director of Administrative Services shall calculate by November 1 of each even-numbered year the General Fund budget limitation for each fiscal year of the next biennium. The total General Fund appropriations for any fiscal year shall not exceed the General Fund budget limitation for that fiscal year except for amounts equal to the transfers made from other funds by specific act of the Legislature to the General Fund and net revenue generated from tax rate and tax base changes enacted subsequent to calculation of the limitation. The General Fund budget limitation shall be calculated from the compound average annual rate of growth for prior fiscal years beginning with FY1981-82 and each year thereafter of General Fund net receipts adjusted for tax rate and federal or state tax law changes affecting actual net receipts. Fiscal years used in the calculation shall be known as the base period. The object of the calculation shall be to arrive at a single average rate of revenue growth expressed as a percentage. Such average percentage rate shall be independent of the effects of changes to the tax rate and the tax base during the base period. The rate of growth shall be used to calculate the General Fund budget limitation for the following fiscal year by multiplying the current fiscal year General Fund appropriations by the single average rate of growth. The result of the multiplication expressed in dollars shall be added to the current fiscal year General Fund appropriation to arrive at a total which shall be the General Fund budget limitation for the first fiscal year of the ensuing biennium. The General Fund budget limitation calculated for the first fiscal year shall be the basis for calculating the limitation for the second fiscal year of the biennium. The single average rate of growth shall be applied to the first fiscal year limitation to arrive at the

General Fund budget limitation for the second fiscal year of the biennium. The second year limitation shall be revised in odd-numbered years using the additional base receipt data from the prior fiscal year and current fiscal year appropriations. For purposes of this subsection, General Fund net receipts shall mean total General Fund net receipts excluding all transfers pursuant to section 77-4602 and any transfers made by specific act of the Legislature from the Cash Reserve Fund or any other fund to the General Fund.

(7) On or before November 1 of each even-numbered year, the Legislative Fiscal Analyst and the Director of Administrative Services shall jointly issue a report, identifying the General Fund budget limitation for each fiscal year of the ensuing biennium and detailing all calculations used to calculate the limitation. The report shall be filed with the Clerk of the Legislature and copies shall be provided to all members of the Legislature and the Governor. The report shall be made available for public inspection upon its release.

(8) The report required in subsection (7) of this section shall be revised on or before November 1 of each odd-numbered year to arrive at a budget limitation for the ensuing fiscal year which includes the additional base period receipt data from the prior fiscal year and current fiscal year appropriations.".

2. On page 7, line 15, after "sections" insert "50-419," and after "79-3814" insert a comma.

3. Renumber the remaining sections accordingly.

MESSAGE FROM THE GOVERNOR

May 23, 1995

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

With this letter, I am returning LB 391 and reducing or striking specific appropriations and related items. An attachment lists each of the reductions. The amount of general fund vetoes totals nearly $1.9 million for the next biennium and over $2.5 million over the next three years.

I have stricken the $720,000 for renovation of the Department of Public Institutions' cottages. This project was not part of my original recommendation and was ninth of eleven prioritized projects for the agency. We do not have the funds to undertake the total renovation of the cottages at this time. Necessary completion of fire and life safety and ADA components of these projects can be prioritized and accomplished through the LB 309 Task Force process.

The $1,585,000 for the Diagnostic and Evaluation Center Renovation at the Lincoln Correctional Center and the $269,000 for the Lincoln Correctional Center "Best Use" Renovation have been reduced to $45,000 and $35,000 respectively. Neither project was part of my original recommendation. Neither project has a completed program statement on file. We do not have sufficient funds to complete these renovations at this time. The funds remaining after my line-item reductions will allow program statements to be completed in the next two years.

I have stricken the $25,000 for FY 96 for the Comprehensive Plan at the Nebraska College of Technical Agriculture at Curtis. The $25,000 for FY 97 remains. I support the need for a plan at Curtis; however, the Associate Dean and Campus Director of the College is retiring very shortly. No meaningful planning can take place until a replacement is hired. It is also critical that the planning process include University and private sector representation and input. Therefore, it is my recommendation that if the $25,000 of State funds for FY 97 remaining after my veto is not deemed sufficient to complete the plan, private or reallocated University funds should be used as a supplement to complete the plan. If the plan is to be successful and the future viability of Curtis assured, the State, the University and the private sector must work together in partnership on the plan.

I have allowed the $5.7 million of State funds for the new Nebraska Veterans' Home at Norfolk to remain intact, even though it was not contained in my original recommendation. I have done so because it is my understanding that we cannot obtain almost $10.5 million of Federal funds in FY 98 for the project without the appropriation of these funds. However, in so doing I expect two things: (1) A program statement will be completed by an Architectural/Engineering firm in the next year which examines the benefits and costs of a new Veterans' Home and compares them to a total renovation of the current facility. This program statement should be presented to me and to the Legislature no later than July 15, 1996. This analysis will no doubt be required if we are to be successful in obtaining Federal funds. (2) With the exception of the State funds spent on the program statement, no State funds should be spent on the project until the $10.5 million of Federal funds is in hand. If the Federal funds in the amount of $10.5 million are not forthcoming, the remaining State funds will be lapsed to the State General Fund no later than June 30, 1998.

I have also not reduced the State funding for the renovation of the Engineering Building and for the program planning for the Engineering Applied Research and Training Facility. Both of these projects are funded at a level above my original recommendation at an additional cost of $550,000 for the biennium. However, I do not support construction or planning beyond the program statement phase, before sufficient information has been provided to the Coordinating Commission for Postsecondary Education (CCPE) to allow them to review the projects and provide a recommendation. I sincerely hope that the University and the Legislature will follow the intended procedures on such projects in the future.

I urge you to sustain these vetoes.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

1. Strike sections 9 and 16 and insert the following new sections:

"Sec. 27. Section 83-925.07, Reissue Revised Statutes of Nebraska, is amended to read:

83-925.07. In developing its programs, the Office of Juvenile Services shall:

(1) Design the table of organization for the office by designing the functional specifications for the operation of the office and managing the process of change as programs, functions, and services are transferred to the office;

(2) Develop risk and need assessment instruments for use in determining the need for detention or other placement at the time a juvenile enters the system. This shall include validating and pilot testing the instruments in selected jurisdictions;

(3) Develop a case classification process to include the establishment of classification program levels and case management standards for each program level. This shall include pilot testing the classification process with juveniles committed for placement;

(4) Plan for the construction of a secure confinement facility to serve juvenile offenders identified as in need of secure confinement in a county containing a city of the metropolitan class. A secure confinement facility shall mean a physically secure coeducational facility designed to provide secure confinement, education, and treatment for serious and chronic juvenile offenders who have been committed to the Office of Juvenile Services or the Department of Correctional Services for secure care;

(5) Develop a purchase-of-care system which will facilitate the development of a statewide community-based continuum of care with the involvement of the private sector and the local public sector. Care services may be purchased from private providers to provide a wider diversity of services. This system shall include accessing existing Title IV-E funds of the federal Social Security Act, as amended, new medicaid funds, and other funding sources to support eligible community-based services. Such services developed and purchased shall include, but not be limited to, evaluation services which shall be available on a geographically accessible basis across the state. The evaluation services available at the Youth Diagnostic and Rehabilitation Center pursuant to sections 83-4,100 to 83-4,104 shall be replaced with purchased community-based evaluation services. The replacement shall be completed by December 31, 1996. All costs incurred during the period in which the juvenile is being evaluated shall be the responsibility of the state;

(6) Develop a community-based assessment and evaluation process. A prototype community-based evaluation process shall be developed and pilot-tested in several jurisdictions. A residential evaluation program shall be established in a county containing a city of the metropolitan class;

(7) Develop functional specifications for juvenile service centers and identify several demonstration sites. The risk assessment and community-based assessment and evaluation procedures may be pilot-tested at the juvenile service center demonstration sites; and

(8) Identify and recommend the functional requirements for a management information system. The system shall be a unified, interdepartmental client information system which supports assessment.

Sec. 28. Sections 28 to 39 of this act shall be known and may be cited as the Sex Offender Registration Act.

Sec. 29. The Legislature finds that sex offenders present a high risk to commit repeat offenses. The Legislature further finds that efforts of law enforcement agencies to protect their communities, conduct investigations, and quickly apprehend sex offenders are impaired by the lack of available information about individuals who have pled guilty to or have been found guilty of sex offenses and who live in their jurisdiction. The Legislature further finds that state policy should assist the efforts of local law enforcement agencies to protect their communities by requiring sex offenders to register with local law enforcement agencies as provided by the Sex Offender Registration Act.

Sec. 30. (1) The Sex Offender Registration Act shall apply to any person who on or after January 1, 1996:

(2) The registration requirements of the act shall not apply to any person while he or she is incarcerated in a jail, a penal facility, or any other public or private institution.

Sec. 31. (1) Any person who becomes subject to the Sex Offender Registration Act shall register with the sheriff of the county in which the person resides or is temporarily domiciled within five working days of becoming subject to the act.

(2) If there is an address change for a person required to register, the person shall inform the sheriff with whom that person last registered of the new address, in writing, within five working days of the change. The sheriff shall forward this information to the sheriff in the new jurisdiction where the person is relocating and would be required to register within five working days of the receipt of the new address.

(3) Each sheriff shall forward all written information, photographs, and fingerprints obtained pursuant to the act to the Nebraska State Patrol within five working days. The Nebraska State Patrol shall maintain a central registry of sex offenders required to register under the act.

Sec. 32. Any person to whom the Sex Offender

Registration Act applies shall be required to register during any period of probation or parole and shall continue to comply with the act for a period of ten years after the date of discharge from probation, parole, or release from incarceration, whichever date is most recent.

Sec. 33. Registration shall be in a form approved by the Nebraska State Patrol and shall include the following information:

(1) The name and all aliases which the person has used or under which the person has been known;

(2) A complete description of the person, including date of birth, social security number, photographs, and fingerprints;

(3) A listing of each offense covered in section 31 of this act to which the person pled guilty or was found guilty, the jurisdiction where each offense was committed, the court in which the person pled guilty or was found guilty of each offense, and the name under which the person pled guilty or was found guilty of each offense;

(4) The name and location of each jail, penal facility, or public or private institution to which the person was incarcerated for each offense and the actual time served or confined; and

(5) The address of current residence and place of employment.

Sec. 34. (1) The court shall provide written notification of the duty to register at the time of sentencing to any defendant who has pled guilty or has been found guilty of an offense listed in subdivision (1)(a) of section 30 of this act. The written notification shall be signed by the defendant and retained by the court. A copy of the notification shall be provided to the county attorney and the defendant.

(2) The Department of Correctional Services shall provide written notification of the duty to register pursuant to the Sexual Offender Registration Act to any person committed to its custody for an offense listed in subdivision (1)(a) of section 30 of this act prior to the person's release from incarceration. The written notification shall be signed by the person and retained by the department. A copy of the notification shall be provided to the person.

(3) The sheriff of each county shall cause written notification of the duty to register to be provided to any person who enters this state from another jurisdiction and makes application for a motor vehicle operator's license. The written notification shall be signed by the person and retained by the sheriff's office. A copy of the notification shall be provided to the person.

(4) All written notification as provided in this section shall be on a form prepared by the Attorney General.

Sec. 35. No person subject to the Sex Offender Registration Act shall willfully furnish any false or misleading information in the registration.

Sec. 36. Access to information obtained under the Sex Offender Registration Act shall be restricted and provided only to law enforcement agencies or their authorized representatives pursuant to rules and regulations adopted by the Nebraska State Patrol in consultation with the Attorney General.

Sec. 37. (1) Any person having a duty to register under the Sex Offender Registration Act may file a petition with the district court for an order to expunge the information.

(2) The petition shall be filed in the district court of the county in which the petitioner was convicted of an offense listed in section 30 of this act. If the petitioner was convicted in another state, the petition shall be filed in the district court of the county in which the petitioner resides. The county attorney shall be named as the respondent and shall be served with a copy of the petition.

(3) The court may grant the petition and issue an order to expunge the information if the petitioner shows by clear and convincing evidence that the (a) petitioner's duty to register has expired, (b) petitioner does not have a criminal charge pending and is not under criminal investigation for an offense listed in section 30 of this act, and (c) petitioner is not a substantial risk to commit another offense listed in section 30 of this act.

Sec. 38. Any person required to register under the Sex Offender Registration Act who violates the act is guilty of a Class IV felony.

Sec. 39. The Attorney General and the Nebraska State Patrol shall adopt and promulgate rules and regulations to carry out the Sex Offender Registration Act.

Sec. 40. Sections 15, 16, 22, 28 to 39, and 42 of this act become operative on January 1, 1996. The other sections of this act become operative on their effective date.

At any time after the confiscation of the firearm and prior to court disposition, the owner of the firearm seized may petition the district court of the county in which the confiscation was made for possession of the firearm. The court shall release the firearm to such owner only if the claim of ownership can reasonably be shown to be true and either (a) the owner of the firearm can show that the firearm was taken from his or her property or place of business unlawfully or without the knowledge and consent of the owner and that such property or place of business is different from that of the person from whom the firearm was confiscated or (b) the owner of the firearm is acquitted of the charge of unlawful possession of a revolver in violation of section 28-1204, unlawful transfer of a firearm to a juvenile, or unlawful possession of a firearm on school grounds. State or local authorities shall erect and maintain such signs, and the Gun-Free School Zone Act shall not be enforced until such signs are erected and maintained.

APPROPRIATIONS COMMITTEE REPORT ON LB 391

Pursuant to Rule 6, Section 14, the Appropriations Committee has examined the Governor's line item vetoes contained in LB 391 (Capital Construction) as follows:

	---Budget Biennium---		
	FY95-96	FY96-97	-Future-
Cottage renovations, BSDC, Dept. of Public Institutions, Sec. 11 of bill.	$360,000	$360,000	$--0--

Comprehensive facilities plan, Curtis, University of Nebraska Sec. 43.	25,000	(3)	--0--
TOTAL VETOES	$385,000	$1,504,000	$630,000

NOTE: All amounts are State Building Fund (SBF) appropriations.

(1) $45,000 SBF remains in this FY for development of program statements.
(2) $35,000 SBF remains in this FY for development of program statements.
(3) $25,000 SBF remains in this FY for comprehensive plan development.

The four cottages at Beatrice State Development Center have 25 year old heating and air conditioning systems that are in need of replacement and are not in compliance with the Americans with Disabilities Act. If the cottages are closed due to inoperable systems and ADA violations, then a permanent relocation of 64 clients will be necessary. The cost to house the 64 clients somewhere other than the cottages is projected to be considerably higher than the renovation cost of the cottages.

Funding of the 'Best Use' renovation at both the Diagnostic and Evaluation Center and the Lincoln Correctional Center will concentrate the majority of inmates requiring intensive management and segregation into one institution, the current Diagnosis and Evaluation Center. The concentration of special needs population in one institution allows other institutions (ie the Nebraska State Penitentiary and the Omaha Correctional Center), to concentrate on the inmate work, programming and educational programs for which they are best suited. Reallocation of existing staff resources among institutions will allow more effective use of staff because those inmates requiring the closest supervision will all be located at an institution particularly suited to control inmate movement and supervision. Under this plan, flexibility is provided at both institutions regarding the amount of housing to both the diagnostic and evaluation function (LCC) and the mix of various types of segregation housing (DEC). Population projections show potential annual growth of 2.5% per year for the next five years (70 inmates per year). Along with the growth in the general inmate population, the number of inmates requiring segregation and special management is likely to increase proportionately. If the best use renovation is done, the need for additional maximum security facilities in the foreseeable future should be minimized. NOTE: The bill as passed includes language specifying that for both facilities no money shall be expended for construction until program statements for these projects have been submitted and approved according to statute.

The Appropriations Committee's recommendation contained in LB391 included funding for the development of a comprehensive campus facilities plan for the Nebraska College of Technical Agriculture (NCTA) at Curtis. A comprehensive facilities plan is necessary to address the facility needs for the new programs and majors which were developed in response to statutory changes in its role and mission in 1988. The last plan was developed in 1972-73. In addition, since the new Associate Dean and Campus Director will be on board by July, 1995, it is important that this person have the resources available to logically plan for future utilization and development of campus facilities.

The Appropriations Committee will make a formal recommendation on veto overrides at a later time.

(Signed) Roger R. Wehrbein, Chairperson
Appropriations Committee

79-4,179.01. A school district that has expelled a student may suspend the enforcement of such expulsion for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect and may, as a condition of such suspended action, assign the student to a school, class, or alternative educational program which the school district deems appropriate for rehabilitation of the student. Any two or more school boards may join together in providing such schools, classes, or programs. Any ~~, and any~~ district may by agreement with another district send its suspended or expelled students to any school, class, or program already in operation by such other ~~school~~ district, and in such case the district sending the student shall reimburse such other district's cost per pupil for each student sent by the sending district. ~~Reimbursement under this section shall be in accordance with the Tax Equity and Educational~~

~~Opportunities Support Act.~~ In lieu of other authorized educational programs to which the student may be assigned, such school, class, or program may be offered as a community-centered classroom and may include experiences for the student as an observer or aide in governmental functions, as an on-the-job trainee, and as a participant in specialized tutorial experiences or individually prescribed educational and counseling programs. Such programs shall include an individualized learning program to enable the student to continue academic work for credit toward graduation. Beginning January 1, 1997, each school district shall have an alternative school, class, or educational program available or in operation, either within the district or through agreement with one or more other districts, for all students expelled or whose expulsion has been suspended under this section. The State Department of Education shall adopt and promulgate rules and regulations relating to alternative schools, classes, and educational programs.

At the conclusion of the designated period, the school district shall (1) reinstate any student who has satisfactorily participated in the school, class, or program to which such student has been assigned and permit the student to return to the school of former attendance or to attend other programs offered by the district or (2) if the student's conduct has been unsatisfactory, enforce the expulsion action.

If the student is reinstated, the district may also take action to expunge the record of the expulsion action.

Sec. 3. Section 79-4,180, Reissue Revised Statutes of Nebraska, is amended to read:

79-4,180. The following student conduct shall constitute grounds for long-term suspension, expulsion, or mandatory reassignment, subject to the procedural provisions of the Student Discipline Act, when such activity occurs on school grounds, in a school-owned vehicle, or at a school-sponsored activity or athletic event: ~~or during an educational function or event off school grounds:~~

(7) Public indecency as defined in section 28-806, except that this subdivision shall apply only to students at least twelve years of age but less than nineteen years of age;

(8) Sexually assaulting or attempting to sexually assault any person if a complaint has been filed by a prosecutor in a court of competent jurisdiction alleging that the student has sexually assaulted or attempted to sexually assault any person, including sexual assaults or attempted sexual assaults which occur off school grounds not at an educational function or event. For purposes of this subdivision, sexual assault shall mean sexual assault in the first degree and sexual assault in the second degree as defined in sections 28-319 and 28-320, as such sections now provide or may hereafter from time to time be amended;

(9) Engaging in any other activity forbidden by the laws of the State of Nebraska which activity constitutes a danger to other students or interferes with school purposes; or

(10) A repeated violation of any rules and standards validly established pursuant to section 79-4,176 if such violations constitute a substantial interference with school purposes.

It is the intent of the Legislature that alternatives to suspension or expulsion be imposed against a student who is truant, tardy, or otherwise absent from required school activities.

Sec. 4. Section 79-4,195, Reissue Revised Statutes of Nebraska, is amended to read:

79-4,195. (1) After a hearing requested under sections 79-4,181 and 79-4,182, a report shall be made by the hearing examiner of his or her findings and a recommendation of the action to be taken, which report shall explain, in terms of the needs of both the student and the school board, the reasons for the particular action recommended. Such recommendation may range from no action, through the entire field of counseling, to long-term suspension, expulsion, ~~or~~ mandatory reassignment, or an alternative educational placement under section 79-4,197.01.

(2) A review shall be made of the hearing examiner's report by the superintendent, who may change, revoke, or impose the sanction recommended by the hearing examiner but shall not impose a sanction more severe than that recommended by the hearing examiner.

(3) The findings and recommendations of the hearing examiner, the determination by the superintendent, and any

determination on appeal to the governing body, shall be made solely on the basis of the evidence presented at the hearing or, in addition, on any evidence presented on appeal.

Sec. 5. Section 79-4,196, Reissue Revised Statutes of Nebraska, is amended to read:

79-4,196. (1) Written notice of the findings and recommendations of the hearing examiner and the determination of the superintendent under section 79-4,195 shall be made by certified or registered mail or by personal delivery to the student or the student's parent or guardian. Upon receipt of such written notice by the student, parent, or guardian, the determination of the superintendent shall take immediate effect.

(2) Except as provided in subsection (3) of this section, the expulsion of a student shall be for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year subject to the provisions of subsection (4) of this section. Such action may be modified or terminated by the school district at any time during the expulsion period.

(3) The expulsion of a student for (a) the knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student except as provided in subdivision (3) of section 79-4,180 or (b) the knowing and intentional possession, use, or transmission of a ~~firearm or other~~ dangerous weapon, other than a firearm, shall be for a period not to exceed the remainder of the school year in which it took effect if the misconduct occurs during the first semester. If the expulsion takes place during the second semester, the expulsion shall remain in effect for summer school and may remain in effect for the first semester of the following school year. Such action may be modified or terminated by the school district at any time during the expulsion period.

(4) The expulsion of a student for the knowing and intentional possession, use, or transmission of a firearm, which for purposes of this section means a firearm as defined in 18 U.S.C. 921 as of January 1, 1995, shall be for a period as provided by the school district policy adopted pursuant to section 6 of this act. This subsection shall not apply to (a) the issuance of firearms to or possession of firearms by members of the Reserve Officers Training Corps when training or (b) firearms which may lawfully be possessed by the person receiving instruction under the immediate supervision of an adult instructor.

(5) Any expulsion that will remain in effect during the first semester of the following school year shall be automatically

scheduled for review before the beginning of the school year. The review shall be conducted by the hearing examiner after the hearing examiner has given notice of the review to the student and the student's parent or guardian. This review shall be limited to newly discovered evidence or evidence of changes in the student's circumstances occurring since the original hearing. This review may lead to a recommendation by the hearing examiner that the student be readmitted for the upcoming school year. If the school board or board of education or a committee of such board took the final action to expel the student, the student may be readmitted only by action of the board. Otherwise the student may be readmitted by action of the superintendent.

Sec. 6. (1) Each school district shall adopt a policy requiring the expulsion from school for a period of not less than one year of any student who is determined to have knowingly and intentionally possessed, used, or transmitted a firearm on school grounds, in a school-owned vehicle, or at a school-sponsored activity or athletic event. For purposes of this section, firearm means a firearm as defined in 18 U.S.C. 921. The policy shall authorize the superintendent or school board to modify the expulsion requirement on an individual basis.

(2) Each school district shall provide annually to the State Department of Education:

(a) An assurance that the school district has in effect the policy required by subsection (1) of this section; and

(b) A description of the circumstances surrounding any expulsions imposed under the policy required by subsection (1) of this section, including:

(i) The name of the school concerned;

(ii) The number of students expelled from the school; and

(iii) The types of weapons concerned.

Sec. 7. Original sections 79-4,169, 79-4,179.01, 79-4,180, 79-4,195, and 79-4,196, Reissue Revised Statutes of Nebraska, are repealed.".

(Amendments to E & R amendments, AM7158)

1. Insert the following new sections:

"Sec. 4. The Director of Administrative Services shall review and approve or disapprove any contract for personal services between a private entity and any state agency, other than (1) the University of Nebraska, (2) the Nebraska state colleges, and (3) any other board, commission, or agency established by the Constitution of Nebraska, if, on the effective date of the contract, the personal services are performed by permanent state employees of the agency and which will be replaced by services performed by the private entity. The contract shall be subject to the public bidding procedures established in sections 81-145 to

81-162 except in emergencies approved by the Governor.

For purposes of this section, contract for personal services means an agreement by a contractor to provide human labor but does not mean a contract to supply only goods or personal property. The term includes contracts with private service providers, consultants, and independent service contractors. .

Sec. 5. (1) A state agency that seeks to enter into a contract described in section 4 of this act with a private entity shall submit the following information to the Director of Administrative Services: (a) The proposed contract, (b) a review of the long-term actual cost savings, (c) the measurable goals for improving the quality of the service, and (d) an assessment of the feasibility of alternatives within the agency to contracting for performance of the service.

(2) In calculating the cost savings under subsection (1) of this section, the state agency shall project, for twelve months and for sixty months, the following:

(a) Direct costs, including salary and fringe benefits;

(b) Indirect overhead costs which shall include only those costs that can be attributed solely to the work in question and that would not exist if the work were not performed by state employees. Indirect overhead costs shall include the pro rata share of existing administrative salaries and benefits, rents, equipment costs, utilities, and materials;

(c) Any continuing or transitional costs that are directly associated with contracting for the work, including unemployment compensation and the cost of transitional services; and

(d) Additional costs of performance of the work by state employees, including the salaries and benefits of additional staff performing inspection, supervision, and monitoring duties and the cost of additional space, equipment, and materials needed to perform the services.

Sec. 6. A state agency that seeks to enter into a contract described in section 4 of this act shall also submit to the Director of Administrative Services a formal plan of assistance to the state employees of such state agency who will be displaced by such contract. The plan shall include, but need not be limited to, the following provisions:

(1) Efforts by the state agency to place displaced employees in vacant positions in that agency or another state agency;

(2) Provisions in the contract for personal service, if feasible, for the hiring of displaced employees by the contractor; and

(3) Demonstration by the state agency that it has taken formal and positive steps in considering alternatives to such contract, including reorganization, reevaluation of service, and reevaluation of performance.

Sec. 7. The Director of Administrative Services may approve a proposed contract if:

(1) The potential economic advantage of contracting is not outweighed by the public's interest in having the particular services performed directly by the state agency;

(2) The contract does not adversely affect the state's affirmative action efforts; and

(3) The contract will include adequate control mechanisms to insure that the services are provided pursuant to the terms of the contract.

Sec. 8. The Director of Administrative Services shall, within forty-five days after receipt of the information described in sections 5 and 6 of this act from the state agency, prepare a report detailing why the proposed contract was approved or disapproved. The report shall be delivered to the chairperson of the Appropriations Committee of the Legislature.

Sec. 9. The Department of Administrative Services shall adopt and promulgate rules and regulations to carry out sections 4 to 8 of this act. Such rules and regulations shall apply to the Director of Administrative Services in carrying out his or her duties pursuant to such sections.

Sec. 10. Sections 4 to 9 of this act shall not apply to the Nebraska Consultants' Competitive Negotiation Act.

Sections 4 to 9 of this act shall not be construed to apply to renewals of contracts already approved pursuant to or not subject to such sections, to amendments to such contracts, or to renewals of such amendments unless the amendments would directly cause or result in the replacement by the private entity of additional permanent state employees or positions greater than the replacement caused by the original contract.".

An organization licensed to conduct bingo that has not been previously licensed shall determine such allocation based upon the percentage that pickle card gross proceeds derived from the sale of pickle cards at the bingo occasions represents to the total of bingo gross receipts and pickle card gross proceeds derived from such bingo occasions for the initial three consecutive calendar months of operation. The total amount of expenses that may be allocated to the organization's lottery by the sale of pickle cards shall be subject to the limitations on bingo expenses as provided for in the Nebraska Bingo Act with respect to the ~~twelve-percent~~ fourteen-percent expense limitation and the fair-market-value limitation on the purchase, rental, or lease of bingo equipment and the rental or lease of a premises for the conduct of bingo. No expenses associated with the conduct of bingo may be paid directly from the pickle card checking account. A licensed organization which needs to allocate a portion of the expenses associated with the conduct of its bingo occasions to its lottery by the sale of pickle cards conducted at such bingo occasions to pay bingo expenses as provided by this section shall transfer funds from the pickle card checking account to the bingo checking account by a check drawn on the pickle card checking account or by electronic funds transfer.

Sec. 19. Section 9-347.01, Reissue Revised Statutes of Nebraska, is amended to read:

9-347.01. (1) For each type of pickle card unit marketed in this state, the department shall determine the following: (a) When a licensed organization sells pickle cards through pickle card operators, the portion of the definite profit from that pickle card unit which shall go to the licensed organization, such amount to be not less than seventy percent of the definite profit from such pickle card unit; (b) the maximum amount of the definite profit from the sale of a pickle card unit that a licensed organization may pay a pickle card operator as a commission, fee, or salary to sell its pickle cards, such amount not to exceed thirty percent of the definite profit from such pickle card unit; (c) the portion of the definite profit from the sale of a pickle card unit which may be expended by a licensed organization for allowable expenses, such amount not to exceed ~~six~~ eight percent of the definite profit from such pickle card unit; and (d) the portion of the definite profit from the sale of a pickle card unit which may be utilized by a licensed organization for payment of a sales agent selling pickle cards on behalf of the licensed organization, such amount to be a portion of the allowable expenses and not to exceed four percent of the definite profit from such pickle card unit.

(2) The licensed organization's net profit from the sale of a pickle card unit shall be used exclusively for a lawful purpose. A licensed organization shall not donate or promise to donate its net profit or any portion of the net profit to a recipient outside of its organization as an inducement for or in exchange for (a) a payment, gift, or other thing of value from the recipient to any person, organization, or corporation, including, but not limited to, the licensed organization or any of its members, employees, or agents, or (b) a pickle card operator's agreement to sell pickle cards on behalf of the licensed organization.

Sec. 31. Section 9-625, Reissue Revised Statutes of Nebraska, is amended to read:

9-625. Any county, city, or village may establish and conduct a lottery if an election is first held pursuant to this section. Only one scheme or type of lottery may be conducted by a county, city, or village at one time. No county, city, or village shall establish and conduct a lottery until such course of action has been approved by a majority of the registered voters of such county, city, or village casting ballots on the issue at a regular election or a special election called by the governing board of the county, city, or village for such purpose. This section shall not be construed to prohibit any county, city, or village from conducting a lottery if such course of action was approved prior to July 17, 1986, by a majority of the registered voters of such county, city, or village casting ballots on the issue.

Any lottery established pursuant to this section which is authorized by an election held on or after October 1, 1989, pursuant to this section that is not in operation for any four consecutive years shall no longer be authorized under this section. If the voters in a county, city, or village approve a lottery on or after October 1, 1989, pursuant to this section but the lottery does not actually begin operation within four years of the date that the results of the election are certified, the lottery shall no longer be authorized under this section. Any lottery no longer authorized under this section because it did not operate within the four-year period provided in this section may be reauthorized by a majority vote of the registered voters of the county, city, or village casting ballots on the issue at a subsequent election pursuant to this section.

Except for any restriction imposed pursuant to section 9-643, any county, city, or village may conduct a lottery only within the boundaries of such county, city, or village, or within a licensed racetrack enclosure abutting the corporate limits thereof, except that nothing in this section shall prohibit a county, city, or village from entering into an agreement pursuant to the Interlocal Cooperation Act to conduct a joint lottery with another county, city, or village which has established a lottery in accordance with this section.

Sec. 32. Section 9-629, Revised Statutes Supplement, 1994, is amended to read:

9-629. (1) ~~Except as provided in section 9-629.02, the~~ The gross proceeds of any lottery conducted by a county, city, or village shall be used solely for community betterment purposes, awarding of prizes, taxes, and expenses.

(2) Not less than sixty-five percent of the gross proceeds shall be used for the awarding of prizes, except that for purposes of conducting a lottery authorized by subdivision (1)(c)(ii) of section 9-607, not less than sixty-five percent of the gross proceeds during an annual period from July 1 to June 30 of each year shall be used for the awarding of prizes.

(3) Not more than fourteen percent of the gross proceeds shall be used to pay the expenses of operating the lottery, except that license fees paid to the department and audit or legal expenses incurred by the county, city, or village which relate directly to the conduct of operating such lottery need not be included in determining the fourteen-percent limitation on expenses.

(4) For purposes of this section, audit and legal expenses shall include all expenses relating to: (a) The governmental organization of the lottery; (b) government maintenance, monitoring, and examination of lottery records; and (c) enforcement, regulatory, administrative, investigative, and litigation functions undertaken by government, but shall not include the expenses of the actual conduct of the game. Audit and legal expenses during an annual period from July 1 to June 30 of each year in excess of one percent of gross proceeds or five thousand dollars, whichever is greater, shall be subject to the fourteen-percent limitation on expenses under subsection (3) of this section. In the case of a joint lottery conducted pursuant to an interlocal agreement as provided for in section 9-625, the combined gross proceeds of the joint lottery shall be used to determine that portion of audit and legal expenses that are not subject to the fourteen-percent limitation on expenses.".

AM2523

(Amendments to Final Reading copy)

1. Strike the original sections and insert the following new sections:

"Section 1. Section 50-419, Reissue Revised Statutes of Nebraska, is amended to read:

50-419. (1) The Legislative Fiscal Analyst shall provide fiscal and budgetary information and assistance to the Legislature and the Appropriations Committee. During sessions of the Legislature he or she shall work under the direction of the Appropriations Committee of the Legislature. During the interim between legislative sessions he or she shall work under the direction of the Executive Board of the Legislative Council.

The Legislative Fiscal Analyst shall provide:

(a) Factual information and recommendations concerning the financial operations of state government;

(b) Evaluation of the requests for appropriations contained in the executive budget and recommendations thereon;

(c) Studies of capital outlay needs for the orderly and coordinated development of state institutions and institutional programs authorized, if not otherwise provided by law; and

(d) Plans for legislative appropriation and control of funds, with presession analysis of budgetary requirements.

(2) His or her duties shall also include examining or auditing functions or services authorized by the Legislature to determine if funds are expended according to legislative intent and whether improvements in organization and performance are possible. The examining function shall also include the appraisal of functions for needed reforms.

(3) His or her duties shall be to coordinate his or her activities with the budget officer of the Department of Administrative Services.

(4) All information and reports of the fiscal analyst and Appropriations Committee shall be available to any and all members of the Legislature.

(5) The Legislative Fiscal Analyst shall provide revenue-forecasting information and assistance to the Legislature, the Revenue Committee of the Legislature, and the Appropriations Committee of the Legislature. For the purposes of this subsection, he or she shall work under the direction of the Revenue Committee of the Legislature and the Appropriations Committee of the Legislature. The revenue-forecasting information provided under this subsection shall include:

(a) The estimated revenue receipts for each year of the following biennium;

(b) General Fund reserve requirements;

(c) A list of express obligations; and

(d) A summary of economic conditions affecting the State of Nebraska.

(6) The Legislative Fiscal Analyst and the Director of Administrative Services shall calculate by November 1 of each even-numbered year the General Fund budget limitation for each fiscal year of the next biennium. The total General Fund appropriations for any fiscal year shall not exceed the General Fund budget limitation for that fiscal year except for amounts equal to the transfers made from other funds by specific act of the Legislature to the General Fund and net revenue generated from tax rate and tax base changes enacted subsequent to calculation of the limitation. The General Fund budget limitation shall be calculated from the compound average annual rate of growth for prior fiscal years beginning with FY1981-82 and each year thereafter of General Fund net receipts adjusted for tax rate and federal or state tax law changes affecting actual net receipts. Fiscal years used in the calculation shall be known as the base period. The object of the calculation shall be to arrive at a single average rate of revenue growth expressed as a percentage. Such average percentage rate shall be independent of the effects of changes to the tax rate and the tax base during the base period. The rate of growth shall be used to calculate the General Fund budget limitation for the following fiscal year by multiplying the current fiscal year General Fund appropriations by the single average rate of growth. The result of the multiplication expressed in dollars shall be added to the current fiscal year General Fund appropriation to arrive at a total which shall be the General Fund budget limitation for the first fiscal year of the ensuing biennium. The General Fund budget limitation calculated for the first fiscal year shall be the basis for calculating the limitation for the second fiscal year of the biennium. The single average rate of growth shall be applied to the first fiscal year limitation to arrive at the General Fund budget limitation for the second fiscal year of the biennium. The second year limitation shall be revised in

odd-numbered years using the additional base receipt data from the prior fiscal year and current fiscal year appropriations. For purposes of this subsection, General Fund net receipts shall mean total General Fund net receipts excluding all transfers pursuant to section 77-4602 and any transfers made by specific act of the Legislature from the Cash Reserve Fund or any other fund to the General Fund.

(7) On or before November 1 of each even-numbered year, the Legislative Fiscal Analyst and the Director of Administrative Services shall jointly issue a report, identifying the General Fund budget limitation for each fiscal year of the ensuing biennium and detailing all calculations used to calculate the limitation. The report shall be filed with the Clerk of the Legislature and copies shall be provided to all members of the Legislature and the Governor. The report shall be made available for public inspection upon its release.

(8) The report required in subsection (7) of this section shall be revised on or before November 1 of each odd-numbered year to arrive at a budget limitation for the ensuing fiscal year which includes the additional base period receipt data from the prior fiscal year and current fiscal year appropriations.

Sec. 2. Original section 50-419, Reissue Revised Statutes of Nebraska, is repealed.".

Governor

May 29, 1995

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

With this letter, I am returning LB 389 and LB 392 with line item reductions. The general fund veto amounts contained in these two bills over the next two years total $41.8 million. When added to my line item vetoes in LB 391, a total savings to the Nebraska taxpayer is $44.3 million over the next three years. A list of the individual vetoes is attached, representing a total general fund reduction of nearly $17.1 million in FY 1995/96 and $24.7 million in FY 1996/97.

My review of your proposed budget indicates some very hard work by the Appropriations Committee and the entire Legislative body. You have added some priorities and highlighted others. You have generally tried to adhere to many of my funding priorities, such as salary equity for probation staff, improvement of juvenile community-based corrections programming, upgrading the State Patrol computer network, providing services for persons with developmental disabilities, distance learning investments, 309 Task Force funding for fire and life safety, ADA, and deferred repairs, a continued emphasis on applied research and technology transfer, and improved engineering education.

You have recognized and built on our jointly held concern for building a strong University. You have added over $2.0 million in operating funds for the biennium above my original recommendations for many programs that are worthwhile. In capital construction you have agreed with my priorities for repair, renovation, and life safety improvements. Over $18 million in new funds are provided over the next three years for the University for such projects as renovation of Burnett Hall at UNL, Copeland Hall at UNK, Utility System improvements at UNL, Engineering Space improvements at UNO and UNL, and renovation of Allwine Hall at UNO.

In addition, you have provided some recognition and support of the School-to-Work initiative and are in the process of passing legislation which will produce some cost containment in special education, implement proposals for welfare reform, and institute some necessary revisions of the lid law. I applaud you on your efforts.

However, my view of future state revenues is not quite as optimistic. I ask you to sustain my vetoes as a hedge against the future uncertainty we are facing with the economy as well as with Congress. This is not the time to settle for a bare minimum 3% reserve and call the budget balanced. In recent days and weeks, we have seen a weakening of the national economy. At home, we have seen heavy spring rains dim the hopes of our agricultural community. We have already had the Economic Forecasting Board reduce the projections for the next biennium by $14 million.

In Washington, both the House and the Senate have passed balanced budget amendments which will translate into fewer dollars coming to the state in the form of federal aid. We watch as they debate tax changes that translate into tens of millions of dollars in reductions in our own tax receipts.

Further, your recommendations include spending $30 million of general funds to be offset by increased federal funds we hope to receive. Building this revenue into the state's spending plans constitutes a risk which I simply cannot endorse. These funds should either be placed in the Cash Reserve Fund or they should be returned to the taxpayers.

With these concerns in mind, I have examined the budget very closely. I have chosen as a starting point to make line-item reductions in three major areas and across all agencies where you have recommended General Fund increases above my recommended level. These areas are vacancy savings, the 1.5 percent across-the-board increase for operations, and salary funding provided above my recommended level. In total, these savings amount to almost $19.9 million in General Funds in the next biennium. It is my view that vacancy savings are real, and the taxpayer should reap the benefits. Inflation and salary amounts beyond my recommended levels must be funded through increased efficiency and improved agency planning.

I have allowed some of the increased student aid which you have provided to the Coordinating Commission for Postsecondary Education to remain in three separate programs. Student financial aid is increasingly important if we are to improve the skill level of our workforce, promote economic development, and enhance the earning ability of Nebraska citizens. However, we simply cannot afford the total amount.

I have reduced the additional branch museum staff added to the Historical Society. We cannot afford the addition at this time. We must increasingly seek private financial support in this area.

I have reduced the $70,280 each year for the Schools Telelearning Service at the Nebraska Educational Telecommunications Commission (NETC). This funding belongs in the Nebraska Department of Education (NDE) and should be made available from other funding sources within the Department or from sources available to K-12 schools. A cooperative plan and contract between NDE and NETC is the only way to ensure that these services will be provided in an efficient manner which benefits the Nebraska taxpayer.

Additional funding for Aid to the Arts and Aid to the Humanities has been reduced. However, $35,000 each year is allowed for Aid to the Arts and an additional $30,000 is allowed each year for Aid to the Humanities--again above my original recommendation. These are funds well spent; however, private funds will have to supplement them.

Aid to the Community Colleges is reduced to the level in my budget. My recommendation was tied to the passage of LB 241--the funding formula bill which insures adequate recognition of applied technology education. I appreciate Senator Bohlke's sponsoring this bill, and I thank you for passing LB 241. I believe the original level of funding is sufficient to attain the stated goal.

While both the University of Nebraska and the State Colleges have been line item reduced, I have allowed additional funding above my recommendations for the biennium of $2,049,356 for the University and $295,051 for the State Colleges. Most of these additional funds will be spent on priorities which you have identified. At the University and the State Colleges one of those priorities was additional faculty above my original recommendation. In addition, at the University $25,000 of these added funds could be used to supplement the $25,000 remaining in LB 391 for Comprehensive Planning at the Nebraska College of Technical Agriculture. However, a private sector commitment to and involvement in the comprehensive planning effort is very critical to the future success of the plan.

I have eliminated funding at the Department of Public Institutions (DPI) for additional pay for Developmental Disabilities providers; however, earlier this year I announced my proposal for increased funding for Developmental Disabilities services by an additional $10 million. In addition funds have been sustained in their entirety for Emergency Protective Custody. Mental Health Aid and Children's Mental Health Aid have been reduced; however, $100,000 and $200,000 increases remain for the two programs for the biennium. An additional $2.0 million of cash balances has been used to offset General Funds at DPI, and the Central Office and the Mental Health operating budgets have been reduced by a total of $400,000 for the biennium. Funds remain at both DPI and the Department of Social Services for Medicaid forms revision through the Health Care Policy effort.

Due to cooperative work between the Department of Social Services and private child and family service agencies, uniform program standards and payment rates for child welfare services have been developed, which provide rate equity and use a managed care approach to contain costs. Therefore, added funding for Group Home salaries is no longer needed and has been eliminated. The Domestic Violence Prevention increase has been reduced; however, $150,000 remains for program increases for the biennium.

In the Department of Education, increases in vocational rehabilitation aid and textbook loan aid in excess of my recommendation have been eliminated. The additional operating funds for the School for the Deaf have been reduced to $200,000 to assist in the transition plan currently being implemented by the department.

The $475,000 for the Public Transportation Assistance Program is vetoed for both FY 1995/96 and FY 1996/97. While both the Legislature and I have supported assisting public transit transportation service in Omaha and Lincoln in the past with general fund appropriations, our current budget constraints result in a necessity to make this veto.

The Animal Damage Control Program funding has been reduced to $50,000 per year to allow a state match for statewide animal damage control services--the first since 1985. 4-H premiums and FFA premiums were not in my recommendation, but I have allowed a total of $75,000 per year to remain in the budget.

The additional funding above my recommendation for the Resource Development Fund is stricken. My recommendation already increase the Fund by $200,000 per year.

Again, thank you for your hard work, your attention to details, and your help with establishing priorities for the state. As you consider these line-item vetoes, please keep the best interests of the taxpayer in mind and take into account the current economic conditions and federal environment of reducing funding to the states. If you sustain these vetoes, the possibility of our having to hold a special budget-cutting session later this year decreases.

I urge your support in sustaining these vetoes.

Sincerely,
(Signed) E. Benjamin Nelson

ATTORNEY GENERAL'S OPINION

Opinion No. 95043

DATE: May 25, 1995

SUBJECT: Application of LB 377 to Existing Ethanol Production Credit Agreements

REQUESTED BY: Senator Janis McKenzie

WRITTEN BY: Don Stenberg, Attorney General
Steve Grasz, Deputy Attorney General

You have requested an Attorney General's Opinion regarding the applicability of LB 377 to existing contracts between ethanol producers and the State of Nebraska. Specifically, you ask whether the new language in Section 7, lines 20 through 23 of LB 377 (Final Reading) affects preexisting Ethanol Production Credit Agreements between ethanol producers and the Department of Revenue.

Section 7 of LB 377 sets forth the requirements ethanol producers must meet to receive production credits in the form of nonrefundable transferable motor fuel tax credit certificates in the amount of twenty cents per gallon of ethanol produced in Nebraska. Subsection (3) provides:

> Any ethanol facility which is not in production on or before December 31, 1992, but which is in production at the rate of at least twenty-five percent of its name plate design capacity for the production of ethanol, before denaturing, on or before December 31, 1995, shall receive a credit of twenty cents per gallon of ethanol produced for sixty months beginning with the first month for which

> it is eligible to receive such credit and ending not later than December 31, 2000, if the ethanol facility maintains an average production rate of at least twenty-five percent of its name plate design capacity for at least six months after the first month for which it is eligible to receive such credit.

(new language underlined).

Thus, LB 377 places an additional requirement on ethanol producers. In order to receive production credits an ethanol facility must not only achieve a production rate of at least twenty-five percent of name plate design capacity on or before December 31, 1995, but must maintain an average production rate of at least twenty-five percent of name plate design capacity for at least six months after becoming eligible for production credits.

A similar question to the one at hand arose regarding LB 243 in 1981. With regard to that legislation, former Attorney General Paul Douglas stated,

> It has long been recognized in this state that a statute may not operate retroactively where it would impair the obligation of a contract or interfere with a vested right. State ex rel. Douglas v. Nebraska Mortgage Finance Fund, 204 Neb. 445, 464, 283 N.W.2d 12 (1979). It was long ago recognized by the United States Supreme Court in Hodges v. Snyder, 261 U.S. 600 (1923) that private vested rights of parties cannot be taken away by subsequent legislation. A statute will not be applied retroactive even where such legislative intent is clear, where the effect would be to impair vested rights or contracts. Mooney v. Drainage District No. 1 of Richardson County, 134 Neb. 192, 278 N.W. 368 (1938); Karer v. Karer, 190 Neb. 610, 211 N.W.2d 116 (1973). Where its effect would be unconstitutional, its application would be limited to be prospective.

Op. Att'y Gen. No. 80 (April 24, 1981). See also Stoller v. State, 171 Neb. 93, 103-104, 105 N.W.2d 852 (1960); Op. Att'y Gen. No. 95027 (April 12, 1995) (discussing impairment of the State's own obligations by legislation). With regard to LB 377, however, impairment of contract concerns need not even be considered, as LB 377 does not evidence any intent that its provisions, and particularly Section 7, be applied retroactively. A legislative act operates prospectively and not retrospectively unless the legislative intent that it operate retrospectively is clearly disclosed. Young v. Dodge County Bd. of Supervisors, 242 Neb. 1, 6, 493 N.W.2d 160, 163 (1992).

Consequently, the new provisions contained in Section 7 of LB 377 would operate prospectively, and would not apply to existing Ethanol Production Credit Agreements between ethanol producers and the Nebraska Department of Revenue.

Sincerely yours,
DON STENBERG
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 95045

DATE:	May 30, 1995
SUBJECT:	Art. III, § 2 of the Nebraska Constitution; Priority of Proposed Amendments Affecting the Same Portions of the State Constitution
REQUESTED BY:	Senator Dan Lynch Nebraska State Legislature
WRITTEN BY:	Don Stenberg, Attorney General Dale A. Comer, Assistant Attorney General

Art. III, § 2 of the Nebraska Constitution deals with initiative measures proposed by the people of Nebraska for enactment of laws and amendment of the state constitution. With respect to such initiative measures, Art. III, § 2 provides, as is pertinent to our discussion:

> If conflicting {initiative} measures submitted to the people at the same election be approved, the one receiving the highest number of affirmative votes shall thereby become law as to all conflicting provisions.

Art. XVI, § 1 of the Nebraska Constitution, on the other hand, deals with the Legislature's ability to propose constitutional amendments. That section does not contain language similar to the language from Art. III, § 2 quoted above.

Your opinion request contains a lengthy hypothetical situation as a preface for the questions which you wish to ask us:

> Assume the Legislature duly adopted LR 93CA, dealing with a constitutional limitation on raising of revenues by taxes on real property and further assume a different proposal was placed before the voters by way of the initiative process, also dealing with taxes and real property. However, assume that the two proposals did not "match." That is the initiative proposal was in essence a "package" and contained provisions not totally reciprocated in LR 93CA. For example, assume the Legislative proposal dealt only with revenues produced from property taxes and while the initiative proposal dealt with that issue as well, it further had a constitutional limitation on a political subdivision's spending.

You then pose your initial question:

> . . . is the language quoted {above} from Article III, Section 2 {regarding conflicting provisions} truly a "winner take all" proposition? Stated another way, does one entire proposal prevail over the other, even though the components of one proposal are not entirely addressed in the other?

For the reasons discussed below, we believe that the answer to your first question is "no."

Before we discuss your initial question, we would note that our research has disclosed no Nebraska Supreme Court cases or previous opinions of this office which deal directly with the various questions raised in your opinion request. Nonetheless, the Nebraska Supreme Court has provided a number of rules for the application and construction of constitutional provisions which have some bearing on the questions which you have presented. The Nebraska Constitution must be read as a whole, and constitutional amendments become an integral part of the instrument which must be construed and harmonized, if possible, with all other provisions so as to give effect to every section and clause as well as to the whole instrument. Jaksha v. State, 241 Neb. 106, 486 N.W.2d 858 (1992); Banner County v. State Board of Equalization and Assessment, 226 Neb. 236, 411 N.W.2d 35 (1987). Constitutional provisions relating to the same subject matter should be construed together, with a view to giving effect to each provision if possible. State ex rel. Randall v. Hall, 125 Neb. 236, 249 N.W. 756 (1933). Constitutional provisions are repugnant to each other or conflicting only when they relate to the same subject, are adopted for the same purpose, and cannot be enforced without substantial conflict. Swanson v. State, 132 Neb. 82, 271 N.W. 264 (1937). Differences in constitutional provisions must, if possible, be reconciled. State ex rel. Randall v. Hall, supra.

With those various rules in mind, we believe that there are two reasons why the language of Art. III, § 2 at issue does not create the "winner take all" situation which you described in your initial question. First, the application of that constitutional provision is clearly limited on its face to situations where two proposed constitutional amendments approved at the same election are "conflicting," and "conflicting" in that context must be narrowly defined on the basis of the cases cited above. As a result, in the hypothetical situation described in your letter, if two "non-matching" constitutional amendments were approved by the people, the prioritizing language in Art. III, § 2 would apply only to those provisions in those amendments which were directly "conflicting." All other provisions of both amendments would remain in effect including, in your hypothetical, the components of one proposal which were not entirely addressed in the other.

In addition, under the rules of construction noted above, we believe that courts would generally attempt to reconcile differing constitutional amendments if possible, and to give effect to all the portions of two amendments passed at the same election which were not directly in conflict. Consequently, the courts would not create a "winner take all" situation with respect to two competing constitutional amendments passed at the same election which did not "match". This is true even if the prioritizing language in Art. III, § 2 does not apply in the situation posited in your letter where one constitutional amendment is proposed by initiative and the other by legislative action. On the basis of the authorities above, we believe that courts would still try to reconcile and give effect to "competing" constitutional amendments passed by the people to the extent that they were not in direct conflict.

You next ask whether our answer to your initial question would change if the two competing but not "matching" constitutional amendments you hypothesized were placed on the ballot by two separate initiative efforts instead of by an initiative and separate legislative action. Under those circumstances, Art. III, § 2 would clearly apply, and for the reasons stated above, there would be no "winner take all" situation. Rather, to the extent that the two initiatives were in direct conflict as defined in the Nebraska case law, the initiative with the most votes would control. Otherwise, the non-conflicting provisions in both amendments would be left in effect.

Finally, you state:

> assume one of the initiative petitions contain (sic) the following language:
>
> Should other constitutional amendments be placed on the general election ballot in November of 1996 dealing with local and State taxes, spending and/or revenue limitations, and one or more of these ballot measures should be approved, the intent of the people is the measure receiving the highest number of affirmative votes shall become a part of the Constitution and such other proposed constitutional amendments shall be deemed to be rejected by the people.

You then ask, "{d}oes this language then make the process truly 'winner takes all?' Is the language suggested constitutionally appropriate?"

We are not entirely sure from your letter whether your final scenario contemplates that the intent language above will be inserted in the initiative petitions themselves or in the Nebraska Constitution. Neither are we clear as to what you mean by "constitutionally appropriate." However, for purposes of this opinion, we will assume that the intent language concerning the priority of amendments on the same subject set out above will be placed in the initiative petitions which are circulated, and that it is not intended that such language actually be placed in the Nebraska Constitution.

It appears to us that the intent language which you propose with respect to the priorities of constitutional amendments on the same subject would, in effect, attempt an amendment of the Nebraska Constitution. That is, that language would purport to govern which constitutional amendment would be placed in the Nebraska Constitution under certain circumstances when the Constitution itself currently contains no provisions of that nature. Requirements in a constitution regulating its own amendment are mandatory, and strict observance of every substantial requirement is essential to the validity of the proposed amendment. 16 C.J.S. Constitutional Law § 6. Since the Nebraska Constitution contains no procedure for its amendment by means of insertion of particular intent language in an initiative petition, we do not believe that the constitution could be amended to add the provision which you propose through the inclusion of such language in the initiative petitions themselves.

Moreover, the Nebraska Supreme Court has indicated that the intent of the people in adopting an initiative amendment must be ascertained from the language of the amendment itself, and cannot be determined from the language of the initiative petition. In Omaha National Bank v. Spire, 223 Neb. 209, 389 N.W.2d 269 (1986), the Court stated:

> There is no meaningful way to determine the intent which motivates voters to sign a petition for the submission of an enactment, nor is there any real way to determine the intent of those voters who vote for the adoption of an enactment. The motivations and mental processes of the voter in Verdigre or the elector in Elkhorn cannot be determined -- except from the words of the enactment itself. Beyond that, all that can be known by the court is that the voters have been subjected to tornadolike winds in voting on this highly political question. We hold that the intent of the voters adopting an initiative amendment to the Nebraska Constitution must be determined from the words of the initiative amendment itself.

Id. at 224, 225, 389 N.W.2d at 279. On the basis of the holding in the Omaha National Bank case, it appears to us that inclusion of the intent language which you propose in the initiatives in question would be ineffective to make any changes in the process for amendment of the Nebraska Constitution. Such language could not be used to make the process "winner takes all," and the priority of differing amendments would still be determined based upon the general rules cited above.

Sincerely yours,
DON STENBERG
Attorney General

MESSAGES FROM THE GOVERNOR

June 1, 1995

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 25A with a line item reduction.

My item veto eliminates $6,000 to the Department of Public Institutions (DPI) for developing and promulgating rules and regulations. This large agency should be able to draw upon existing resources for this purpose.

In addition, I would like to express my concern with the approach taken in LB 25. LB 25 requires that Commission for the Hearing Impaired (NCHI) create and staff a new position, Mental Health Specialist Advisor. The bill also creates a new advisory committee to guide that person and provides added duties for NCHI and the Department of Public Institutions (DPI) in order to assist persons with hearing impairments in accessing comprehensive mental health, alcohol and drug abuse services.

This bill is a telling statement on the way decisions about the size and configuration of administrative departments all too often are made. In addition to expanding state government, LB 25 is unduly prescriptive concerning the size and configuration of an administrative department.

I urge the Legislature to consider the needs of all Nebraskans by sustaining my item veto of LB 25A at this time.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Dear Madam President and Members:

I am returning to you LB 658A without my signature and with my objections.

LB 658A calls for an appropriation of $4,021 which is intended for the rules and regulations to carry out the changes to the Student Discipline Act. It is my feeling that the money needed for carrying out these changes is already available in the Department of Education budget.

Madam President, Mr. Speaker
Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Members:

I am returning to you LB 136 and LB 136A with my veto.

This bill would have provided for an equal footing between out-of-state companies and in-state companies. I object to the way that this bill provides for that equal footing. This bill would have an impact on the citizens of the state which are buying products by mail order companies. The requirements surrounding those lists need to be further developed and agreed to before companies turn over the lists to government entities. It could provide penalties to be assessed to individuals by the Department of Revenue which may be already remitted to mail order companies. The bill does not contain an adequate penalty provisions for the enforcement of these provisions.

The A-bill includes monies for functions which should already be carried out by the Department of Revenue and I will ask the Tax Commissioner to look into the ability of the Department to carry out those functions. I am also concerned about the increase in employees at the state level. This is not necessary at this time.

I will commit to work with the Revenue Committee to look at this bill more closely in the interim. I would also like to involve the industry in discussions of these provisions. It is my hope that a mutual agreement which is acceptable to all involved can be reached.

Sincerely,

Dear Mr. O'Donnell:

Engrossed Legislative Bill 530 was received in my office on June 1, 1995, signed by me on June 7, 1995, and delivered to the Secretary Of State.

Legislative Bill 530 contains initiatives designed to better utilize state buildings and facilities. These features include the development of a state comprehensive capital facilities plan as well as the placement of the actual facilities management for most State buildings under the Department of Administrative Services, State Building Division.

Since the bill allows the Executive Board of the Legislative Council to acquire additional capitol space, it is imperative that caution be used so that the comprehensive planning process is not pre-empted.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 95047

DATE:	June 7, 1995
SUBJECT:	LB 371; Validity of a Bill Which Will Increase Inmate Populations But Which Does Not Contain the Estimates or Appropriations Required by Neb. Rev. Stat. § 50-129 (1993)
REQUESTED BY:	Senator Kate Witek Nebraska State Legislature
WRITTEN BY:	Don Stenberg, Attorney General

LB 507 (codified at Neb. Rev. Stat. §§ 50-129 and 59-130 (1993)) was passed by the Legislature in 1993. That bill provides, in pertinent part:

> (1) When any legislation is enacted after June 30, 1993, which is projected in accordance with this section to increase the total adult inmate population or total juvenile population in state correctional facilities, the Legislature shall include in the legislation an estimate of the operating costs resulting from such increased population for the first four fiscal years during which the legislation will be in effect. * * *
>
> (3) The Legislature shall provide by specific itemized appropriation, for the fiscal year or years for which it can make valid appropriations, an amount sufficient to meet the cost indicated in the estimate contained in the legislation for such fiscal year or years. The appropriation shall be enacted in the same legislative session in which the legislation is enacted and shall be contained in a bill which does not contain appropriations for other programs.
>
> (4) Any legislation enacted after June 30, 1993, which does not include the estimates required by this section and is not accompanied by the required appropriation shall be null and void. * * *

LB 371, which contains a number of provisions affecting the criminal statutes, is now before the Legislature on Final Reading. The Fiscal Note for LB 371 indicates that the bill will increase inmate population if passed. Nevertheless, the bill does not contain any estimate of the operating costs resulting from such increased population. Moreover, LB 371A, the appropriations bill for LB 371, has been indefinitely postponed. In light of this situation, you first ask us, "{i}f LB 371 is passed on Final Reading in its current form and LB 371A remains indefinitely postponed at the end of the session, will the Legislature have complied with the provisions enacted by LB 507 of 1993?"

The obvious answer to your initial question is "no." LB 507, and now Section 50-129, require that legislation which is projected to increase inmate population must contain estimates of the operating costs resultant from such increases, and that there be an appropriation to cover such costs. Since LB 371 contains no such estimates, and since the appropriation bill for LB 371 does not appear destined for passage, we do not believe that the provisions of LB 507 from 1993 have been complied with.

You next ask, "{i}f {LB 371 is} not {in compliance with LB 507}, can LB 371 become a validly enacted law nevertheless (perhaps pursuant to Attorney General Opinion #93040, dated May 18, 1993)?"

In Op. Att'y Gen. No. 93040 (May 20, 1993), we concluded that LB 507 was "unconstitutional as legislation which would improperly attempt to bind or restrict the authority of future legislatures to pass legislation which might impact the inmate population in correctional facilities in Nebraska." Id. at 3. We have reviewed that opinion and the authorities cited therein, and we continue to believe that the analysis and conclusion stated in Op. Att'y Gen. No. 93040 (May 20,

1993) are correct. An act of the Legislature that is unconstitutional at the time of its passage is absolutely null and void. Jaksha v. State, 241 Neb. 106, 486 N.W.2d 858 (1992). As a result, it continues to be our opinion that LB 507 or Section 50-129 are not effective to impose requirements on the current Legislature.

Nevertheless, acts of the Legislature, including LB 507, are presumed to be constitutional. The adoption of LB 507 by the Legislature and the Governor in 1993, and the current pending failure of the Legislature and the Governor to comply with that law, will create a legal cloud over LB 371 which will inevitably lead to legal challenges of LB 371 which could and should have been avoided.

Sincerely yours,
DON STENBERG
Attorney General

Opinion No. 95048

DATE: June 7, 1995

SUBJECT: Neb. Const. art. III, § 10 - Duration of a "Legislative Day"

REQUESTED BY: Senator Kate Witek
Nebraska Legislature

WRITTEN BY: Don Stenberg, Attorney General
Steve Grasz, Deputy Attorney General

You have requested an Attorney General's Opinion as to the ability of the Legislature to extend its final day of the 1995 session beyond midnight on June 8, 1995. Specifically, you have asked whether the 90th Legislative Day ends at midnight or whether the session may continue into June 9, 1995. You have also asked what the consequences are of passing legislation in the early hours of June 9, 1995.

Discussion

Article III, section 10 of the Nebraska Constitution provides, in part: "The duration of regular sessions held shall not exceed ninety legislative days in odd-numbered years unless extended by a vote of four-fifths of all members elected to the Legislature. . . ."

No reported Nebraska court decision has interpreted this constitutional provision. However, as noted in your opinion request, a similar issue has been considered by the Oklahoma Supreme Court. In Davis v. Thompson, 721 P.2d 789 (Okla. 1986), the minority leader of the Oklahoma House of Representatives challenged legislation adopted after midnight on the 90th legislative day. A four judge plurality of the court agreed that a legislative day was not synonymous with a calendar day for purposes of the then existing Oklahoma constitutional provision limiting legislative sessions to "ninety legislative days."

> In our Constitution we have found no express or implied prohibition or limitation upon the power of the Legislature to extend the length of a legislative session past midnight of the ninetieth day. We therefore conclude the unit or length of time of a legislative day cannot be set by this Court. We find that it is for the Legislature to determine how long is reasonably necessary for its members to remain in session on the ninetieth day to transact the business before it, so long as it acts reasonably and in accordance with the intent of art. 5 § 26. The Legislature has a right to conclude all legislative business it has already begun past the stroke of midnight of the ninetieth legislative day to bring a legislative session to a close so long as it does so reasonably, continuously, and without breaks or adjournments.

Id. at 793.

Two years after the Davis decision, the Governor of Oklahoma and the minority leaders of the Oklahoma House and Senate brought suit challenging the Legislature's ability to adjourn its 89th legislative day on July 1 and reconvene for its 90th legislative day on July 12. In a split decision, the court upheld the Legislature's action and extended its holding in Davis to legislative days other than the 90th legislative day. Bellmon v. Barker, 760 P.2d 813 (Okla. 1988). Eight months after the Court's decision in Bellmon, the people of Oklahoma amended their constitution, via initiative petition, to require adjournment of legislative sessions by 5:00 p.m. on the last Friday of May each year. Okla. Const. art. 5, § 26.

Notwithstanding the Oklahoma cases discussed above, we have grave constitutional concerns about passage of legislation by the Nebraska Legislature after midnight on the ninetieth legislative day.

The split decision of the Oklahoma Supreme Court is distinguishable from the present situation in a number of ways:

1. The Oklahoma Constitution Differs from the Nebraska Constitution.

The constitutional provision in question in Davis and Bellmon (like article III, § 10 of the Nebraska Constitution) limited legislative sessions to ninety legislative days. However, unlike the Oklahoma Constitution the Nebraska Constitution expressly provides a mechanism for extending the session "by a vote of four-fifths of all members elected to the Legislature. . . ." Neb. Const. art. III, § 10. In Davis, the court stated, "In our Constitution, we have found no express or implied prohibition or limitation upon the power of the Legislature to extend the length of a legislative session past midnight of the ninetieth day." Davis, 721 P.2d at 793 (emphasis added). In contrast, the Nebraska Constitution provides a mechanism for extending the session beyond ninety legislative days. In our opinion, this provision impliedly prohibits extending the session without a vote.

2. The Legislature has Officially Interpreted a "Legislative Day" as a Calendar Day.

Article III, § 10 of the Nebraska Constitution provides that "the Legislature shall determine the rules of its proceedings. . . ." Although a legislative rule cannot supersede a constitutional provision, it can help determine proper interpretation of a constitutional provision. See State ex rel. Johnson v. Hagemeister, 161 Neb. 475, 480, 73 N.W.2d 625 (1955).

Rule 7 of the Nebraska Legislature provides,

> The Legislature shall remain in session until it shall adjourn sine die, but in no event shall it remain in session for longer than ninety (90) legislative days in odd-numbered years or sixty (60) legislative days in even-numbered years. This limitation may be suspended by a four-fifths vote of the elected senators. Each day the Legislature convenes shall be considered a legislative day.

(Emphasis added). The phrase "each day" in the final sentence of Rule 7 can only mean a calendar day. As the court stated in Davis, "'The word 'days,' when not qualified, means in ordinary and common usage calendar days.'" Davis, 721 P.2d at 791-792 (quoting Indian Tribes v. United States, 279 U.S. 655, 679, 495 S.Ct. 463, 466 (1929)).

Rule 7 was discussed in 79-80 Report of the Attorney General 135 (April 19, 1979) by former Attorney General Paul Douglas. That opinion likewise concluded Rule 7 refers to calendar days. That opinion stated,

> This definition by the Legislature of the phrase, 'legislative day,' is not necessarily controlling on an issue of constitutional interpretation, however, courts are hesitant to depart from settled legislative construction. (Citation omitted). Legislative construction of a constitutional provision is entitled to great weight. Stahmer v. State, 192 Neb. 63, 218 N.W.2d 893 (1974).

Id. at 136 (emphasis added).

Further supporting this interpretation is a proposed amendment to Rule 7 appearing in the Nebraska Legislative Journal, eighty- ninth day, June 1, 1995, p. 2724. The proposed amendment would redefine legislative day from "each day the legislature convenes" to "the twenty-four hour period from the time the Legislature convenes for transaction of daily business." The proposal clearly indicates that Rule 7 currently defines legislative day as a calendar day.

3. The Nebraska Supreme Court Strictly Construes Time Deadlines.

In State ex rel. Wieland v. Beermann, 246 Neb. 808, 523 N.W.2d 518 (1994), the court ordered the Secretary of State to remove four duly proposed constitutional amendments from the November 8, 1994, general election ballot because the Executive Board of the Legislative Council of the Nebraska Legislature submitted explanatory statements to the Secretary of State one day late (according to the Court's interpretation of the statutory deadline). Here, the Legislature faces a constitutional deadline for enacting legislation. If only a few months ago our State Supreme Court would remove four proposed constitutional amendments from the ballot because the Legislature violated a statutory deadline, it is inconceivable to us that the Court would tolerate the violation of a constitutional deadline.

Conclusion

Any legislation adopted after midnight on June 8, 1995, would be in serious jeopardy of constitutional challenge and rejection as violative of Article III, § 10 of the Nebraska Constitution which limits the length of legislative sessions. If the business of the Legislature cannot be completed by midnight on June 8, 1995, and more time is needed, we would urge the Legislature to vote to extend the legislative session as specifically authorized by Article III, § 10 of the Nebraska Constitution.

Sincerely,
Don Stenberg
